The Stone Soup Experiment Deborah Downing,2015-10-26 The Stone Soup Experiment is a remarkable story of cultural difference of in groups out groups and how quickly and strongly the lines between them are drawn It is also a story about simulation and reality and how quickly the lines between them can be dismantled In a compulsively readable account Deborah Downing Wilson details a ten week project in which forty university

students were split into two different simulated cultures the carefree Stoners and the market driven Traders Through their eyes we are granted intimate access to the very foundations of human society how group identities are formed and what happens when opposing ones come into contact The experience of the Stoners and Traders is a profound testament to human sociality Even in the form of simulation even as a game the participants found themselves quickly and with real conviction bound to the ideologies and practices of their in group The Stoners enjoyed their days lounging chatting and making crafts while the Traders through a complex market of playing cards competed for the highest bankrolls When they came into contact misunderstanding competition and even manipulation prevailed to the point that each group became so convinced of its own superiority that even after the simulation s end the students could not reconcile Throughout her riveting narrative Downing Wilson interweaves fascinating discussions on the importance of play emotions and intergroup interaction in the formation and maintenance of group identities as well as on the dynamic social processes at work when different cultural groups interact A fascinating account of social experimentation the book paints a vivid portrait of our deepest social tendencies and the powers they have over how we make friends and enemies alike *Chicken Soup for the Soul in the Classroom Elementary School Edition: Grades 1-5* Jack Canfield, Mark Victor Hansen, 2012-10-16 Lesson Plans and Students Favorite Stories for Reading Comprehension Writing Skills Critical Thinking Character Building As a teacher you have the unique opportunity to teach and inspire your students to be goal oriented compassionate confident and ambitious Anna Unkovich a former teacher of thirty five years made a difference in her students lives through the daily use of stories from the bestselling Chicken Soup for the Soul series As a teacher you have the unique opportunity to teach and inspire your students to be goal oriented compassionate confident and ambitious Anna Unkovich a former teacher of thirty five years made a difference in her students lives through the daily use of stories from the bestselling series Chicken Soup for the Soul For many years Unkovich read these stories to her students and noticed remarkable changes in them both academically and personally Recognizing that today s teenagers have more challenges in finding positive role models she teamed up with bestselling author Mark Victor Hansen and veteran teacher inspirational speaker and bestselling author Jack Canfield to create an unprecedented educational curriculum for teachers to use to empower their students in the same way that they have Unkovich chose the most inspirational stories from the more than one hundred Chicken Soup books published These stories activities and plans will enhance your existing curriculum Designed to be read aloud to students each story is accompanied by thought provoking questions and exercises specifically designed and used by the authors Your students will identify with each of the powerful stories and will be encouraged to apply the lesson plans to their own lives challenges and situations and at the same time improve their critical thinking and writing skills More important unlike other curriculums Chicken Soup for the Soul in the Classroom educates and provides opportunities for open dialogue on real life issues including character building and self esteem *The Oxford Handbook of Reading* Alexander Pollatsek, Rebecca
