Johnson, 2011-04-18 *New Contexts for Eighteenth Century British Fiction* is a collection of thirteen essays honoring Professor Jerry C Beasley who retired from the University of Delaware in 2005 The essays written by friends collaborators and former students reflect the scholarly interests that defined Professor Beasley's career and point to new directions of critical inquiry The initial essays which discuss Tobias Smollett Elizabeth Singer Rowe and Samuel Richardson suggest new directions in biographical writing including the intriguing discourse of life writing explored by Paula Backscheider Subsequent essays enrich understandings of eighteenth century fiction by examining lesser known works by Jane Barker Eliza Haywood and Charlotte Lennox Many of the essays especially those that focus on Smollett use political pamphlets material artifacts and urban legends to place familiar novels in new contexts The collection's final essay demonstrates the vital importance of bibliographic study The King's Painter Franny Moyle, 2021-10-05 From a distinguished art historian a dramatic reappraisal of Renaissance master Hans Holbein whose art shaped politics and immortalized the Tudors Hans Holbein the Younger is chiefly celebrated for his beautiful and precisely realized portraiture which includes representations of Henry VIII his advisors Thomas More and Thomas Cromwell his wives Jane Seymour and Anne of Cleves and an array of the Tudor lords and ladies encountered during the course of two sojourns in England But beyond these familiar images which have come to define our perception of the age Holbein was a multifaceted genius a humanist satirist and political propagandist and a deft man whose work was rich in layers of symbolism and allusion In *The King's Painter* biographer Franny Moyle traces and analyzes the life and work of an extraordinary artist against the backdrop of an era of political turbulence and cultural transformation to which his art offers a subtle and endlessly refracting mirror It is a work of serious scholarship written for a wide audience Thomas Middleton: The Collected Works , 2007-11-22 Thomas Middleton 1580 1627 our other Shakespeare is the only other Renaissance playwright who created lasting masterpieces of both comedy and tragedy he also wrote the greatest box office hit of early modern London the unique history play *A Game at Chess* His range extends beyond these traditional genres to tragicomedies masques pageants pamphlets epigrams and Biblical and political commentaries written alone or in collaboration with Shakespeare Webster Dekker Ford Heywood Rowley and others Compared by critics to Aristophanes and Ibsen Racine and Joe Orton he has influenced writers as diverse as Aphra Behn and T S Eliot Though repeatedly censored in his own time he has since come to be particularly admired for his representations of the intertwined pursuits of sex money power and God The Oxford Middleton prepared by more than sixty

scholars from a dozen countries follows the precedent of The Oxford Shakespeare in being published in two volumes an innovative but accessible Collected Works and a comprehensive scholarly Companion Though closely connected each volume can be used independently of the other The Collected Works brings together for the first time in a single volume all the works currently attributed to Middleton It is the first edition of Middleton s works since 1886 The texts are printed in modern spelling and punctuation with critical introductions and foot of the page commentaries they are arranged in chronological order with a special section of Juvenilia The volume is introduced by essays on Middleton s life and reputation on early modern London and on the varied theatres of the English Renaissance Extensively illustrated it incorporates much new information on Middleton s life canon texts and contexts A self consciously federal edition The Collected Works applies contemporary theories about the nature of literature and the history of the book to editorial practice
