Towards a Radical Redefinition of Psychology Miller Mair, 2014-10-10 The World Library of Mental Health celebrates the important contributions to mental health made by leading experts in their individual fields. Each author has compiled a career-long collection of what they consider to be their finest pieces: extracts from books, journals, articles, major theoretical and practical contributions, and salient research findings. Miller Mair, clinical psychologist and psychotherapist, devoted his life to developing a psychology that provided a radical alternative to the behavioural and, latterly, cognitive behavioural approaches that have dominated the field. He presented this work in a wide range of publications and conference papers, and prior to his untimely death in 2011, he had selected a number of these for a volume of his collected works. This book is based upon Miller's selection and includes several previously unpublished papers, as well as others that are now out of print. Miller was considerably influenced by George Kelly's personal construct psychology, as is apparent in most of his writings. However, his papers on psychology and psychotherapy also draw upon an extraordinarily wide range of other fields of knowledge, including imagery, metaphor, storytelling, and narrative rhetoric, discourse and conversation, poetry, and spirituality. These concerns are reflected in the contributions selected for this volume, which also demonstrate the variation in his style of writing from the

more conventionally academic to the personal and poetic as he developed a poetics of experience and a stance of conversational inquiry Miller's final publication was entitled *Enchanting psychology* and it is hoped that this volume will provide an antidote to the disenchantment that many readers may feel with mechanistic and reductionist approaches in psychology and its clinical applications and more generally in health service rhetoric and policies As these writings vividly demonstrate a clinical psychologist and psychotherapist can and should also be a poet artist and storyteller The volume will be of value to readers previously unfamiliar with Miller's ideas but also to those who know his work who will find here the first published selection of his papers

Performing Salome, Revealing Stories Clair Rowden, 2016-05-13 With its first public live performance in Paris on 11 February 1896 Oscar Wilde's *Salome* took on female embodied form that signalled the start of her phenomenal journey through the history of the arts in the twentieth century This volume explores *Salome*'s appropriation and reincarnation across the arts not just Wilde's heroine nor Richard Strauss's but *Salome* as a cultural icon in fin de siècle society whose appeal for ever new interpretations of the biblical story still endures today Using *Salome* as a common starting point each chapter suggests new ways in which performing bodies reveal alternative stories narratives and perspectives and offer a range and breadth of source material and theoretical approaches The first chapter draws on the field of comparative literature to investigate the inter-artistic interpretations of *Salome* in a period that straddles the end of the nineteenth century and the beginning of the Modernist era This chapter sets the tone for the rest of the volume which develops specific case studies dealing with censorship reception authorial reputation appropriation embodiment and performance As well as the Viennese premiere of Wilde's play embodied performances of *Salome* from the period before the First World War are considered offering insight into the role and agency of performers in the production and complex negotiation of meaning inherent in the role of *Salome* By examining important productions of Strauss's *Salome* since 1945 and more recent film interpretations of Wilde's play the last chapters explore performance as a cultural practice that reinscribes and continuously reinvents the ideas icons symbols and gestures that shape both the performance itself its reception and its cultural meaning

The Best Short Stories of 1926 Edward Joseph O'Brien, 1926 [Time, Space, Matter in Translation](#) Pamela Beattie, Simona Bertacco, Tatjana Soldat-Jaffe, 2022-09-28 *Time Space Matter in Translation* considers time space and materiality as legitimate habitats of translation By offering a linked series of interdisciplinary case studies that show translation in action beyond languages and texts this book provides a capacious and innovative understanding of what translation is what it does how and where The volume uses translation as a means through which to interrogate processes of knowledge transfer and creation interpretation and reading communication and relationship building but it does so in ways that refuse to privilege one discipline over another denying any one of them an entitled perspective The result is a book that is grounded in the disciplines of the authors and simultaneously groundbreaking in how its contributors incorporate translation studies into their work This is key reading for students in comparative literature and

in the humanities at large and for scholars interested in seeing how expanding intellectual conversations can develop beyond traditional questions and methods
