Vaal University Of Technology 2015:

University on the Border Lis Lange, Vasu Reddy, Siseko H. Kumalo, 2021-08-27 The volume explores and thinks through the process of decolonising the South African higher education system by examining MustFall. The text offers theoretical insights from a historical contemporary and multidisciplinary lens while examining the embedded meanings of the university as an institution, idea and set of practices to show the shifts and changes that were inaugurated by MustFall along with the historicities that define the university both locally and globally. The retro and prospective insights presented in the book surface the crisis of authority that places the university in a state of precarity which is framed in the book as the border. The volume proposes the concept of the border recognising its conceptual and analytical dynamism as a generative space that can facilitate new imaginaries and articulations of this social institution, the university.

ICEL2015-10th International Conference on e-Learning Dr Carlton Watson, 2015-06-12 These proceedings represent the work of researchers participating in the 10th International Conference on e Learning ICEL 2015 which is being hosted this year by the College of the Bahamas, Nassau, on the 25-26 June 2015. ICEL is a recognised event on the International research conferences calendar and provides a valuable platform for individuals to present their research findings, display their work in progress and discuss conceptual advances in the area of e Learning. It provides an important opportunity for researchers and managers to come together with peers to share their experiences of using the varied and expanding range of e Learning available to them. With an initial submission of 91 abstracts after the double blind peer review process, there are 41 academic Research papers and 2 PhD papers. Research papers published in these Conference Proceedings. These papers come from some many different countries including Australia, Belgium, Brazil, Canada, China, Germany, Greece, Hong Kong, Malaysia, Portugal, Republic of Macedonia, Romania, Slovakia, South Africa, Sweden, United Arab Emirates, UK and the USA. A selection of the best papers, those agreed by a panel of reviewers and the editor, will be published in a conference edition of EJEL, the Electronic Journal of e Learning (www.ejel.com). These will be chosen for their quality of writing and relevance to the Journal's objective of publishing papers that offer new insights or practical help into the application of e Learning.

Contextualised Critical Reflections on Academic Development Practices Teboho Pitso, 2021-04-20 This book offers insightful reflections on academic development practices. The contributors engage the reader painstakingly in the dynamics of professional learning and effective teaching. This volume facilitates the examination of the need for reflection that leads to professional maturity. All educational institutions seek teachers who continuously search for effective strategies in improving student success. The contributors uncover a variety of approaches as they evince proven suggestions. The chapters are refreshing and edifying. This book is essential for all teachers, lecturers and trainers who want to improve their teaching practice immensely. Professor Vuyisile T Msila, Researcher at the Thabo Mbeki African School of Public and International Affairs, University of South Africa.

Knowledge for Justice Halvorsen, Tor, Ibsen, Hilde, 2017-11-28 With the adoption of the United Nations Sustainable Development Goals SDGs and the Paris Agreement the purpose of development is being redefined in both social and environmental terms Despite pushback from conservative forces change is accelerating in many sectors To drive this transformation in ways that bring about social environmental and economic justice at a local national regional and global levels new knowledge and strong cross regional networks capable of foregrounding different realities needs and agendas will be essential In fact the power of knowledge matters today in ways that humanity has probably never experienced before placing an emphasis on the roles of research academics and universities In this collection an international diverse collection of scholars from the southern African and Nordic regions critically review the SDGs in relation to their own areas of expertise while placing the process of knowledge production in the spotlight In Part I the contributors provide a sober assessment of the obstacles that neo liberal hegemony presents to substantive transformation In Part Two lessons learned from North South research collaborations and academic exchanges are assessed in terms of their potential to offer real alternatives In Part III a set of case studies supply clear and nuanced analyses of the scale of the challenges faced in ensuring that no one is left behind This accessible and absorbing collection will be of interest to anyone interested in North South research networks and in the contemporary debates on the role of knowledge production The Southern African Nordic Centre SANORD is a network of higher education institutions that stretches across Denmark Finland Iceland Norway Sweden Botswana Namibia Malawi South Africa Zambia and Zimbabwe Universities in the southern African and Nordic regions that are not yet members are encouraged to join

Research Universities in Africa Cloete, Nico, Bunting, Ian, 2018-11-09 From the early 2000s a new discourse emerged in Africa and the international donor community that higher education was important for development in Africa Within this zeitgeist of converging interests a range of agencies agreed that a different collaborative approach to linking higher education to development was necessary This led to the establishment of the Higher Education Research and Advocacy Network in Africa Herana to concentrate on research and advocacy about the possible role and contribution of universities to development in Africa This book is the final publication to emerge from the Herana project The project has also published more than 100 articles chapters reports manuals and datasets and many presentations have been delivered to share insights gained from the work done by Herana Given its prolific dissemination it seems reasonable to ask

whether this fourth and final publication will offer the reader anything new This book is certainly different from previous publications in several respects First it is the only book to include an analysis of eight African universities based on the full 15 years of empirical data collected by the project Second previous books and reports were published mid project This book has benefited from an extended gestation period allowing the authors and contributors to reflect on the project without the distractions associated with managing and participating in a large scale project For the first time some of those who have been involved in Herana since its inception have had the opportunity to at least make an attempt to see part of the wood for the trees Different does not necessarily mean new An emphasis on the newness of the data and perspectives presented in this book is important because it shows that it is more than a historical record of a donor funded project Rather each chapter in this book brings to a lesser or greater extent something new to our understanding of universities research and development in Africa Enhanced Chitosan Material for Water Treatment Ephraim Igberase, Peter Ogbemudia Osifo, Tumisang

Seodigeng, Ikenna Emeji, 2021-04-29 This book reviews some of the latest developments in the field of water treatment using multi functional chitosan based materials It covers the production of chitosan beads and membranes from chitosan powder as well as modification techniques for enhancing the material for commercial and industrial purposes The book summarizes the results of experimental adsorption desorption studies for elucidating the underlying reaction mechanism of heavy metal removal from wastewater presenting an advanced overview of an array of characterization techniques such as Fourier transform infrared spectroscopy thermogravimetric analysis x ray diffraction and scanning electron microscopy Additionally it features a look at the development and application of specialized engineering software and image analysis for modelling the kinetics of adsorption This book is ideal for scientists and engineers working in the broader field of environmental materials science It is all well suited for chemists as well as industrial and civil engineers interested in wastewater treatment and mitigation of water pollution Management Studies in South Africa Shaun Ruggunan, R. Sooryamoorthy, 2018-09-20

This book examines the trajectory of management studies in South Africa during the apartheid and post apartheid periods The unique political journey of South Africa provides a distinctive context in which to explore the progression of management studies within a developing state The authors consider how Apartheid has configured the discipline of management studies to reflect certain racial institutional and gendered trends and analyse the extent to which these trends have adapted or changed in post Apartheid times Appealing to management scholars and professionals this book provides implications for policy and practice within the South African higher education sector and presents avenues for future research **Proceedings of the**

Tshililo Farisani from the University of KwaZulu Natal South Africa is an academic book that examines the impact of the COVID 19 pandemic on higher education in Africa. The book aims to provide a comprehensive analysis of the sustainability of the new normal approaches in African universities and institutions of learning as well as government responses to teaching and learning processes during and post pandemic. The sudden outbreak of COVID 19 triggered demands for informal comfortable and self designed spaces that go beyond conventional formal classrooms where students can take initiative and demonstrate independence in learning. However access to digitalized teaching methods remains problematic due to the digital divide among learners and the rural urban dichotomy. The book invites researchers academics and scholars in the Global South to contribute to the narrative to document successes in and improve the higher education sector post pandemic. The book covers a range of themes including the sustainability of digitalized teaching approaches integrative and interactive teaching and learning theories and practices government responses to teaching and learning processes comparative analysis of conventional and digitalized teaching and learning approaches and equality diversity and participation in digitalized teaching and learning platforms among others.
