Challenging the Representation of Ethnically Divided Cities Giulia Carabelli, Aleksandra Djurasovic, Renata Summa, 2021-05-24 The book *Challenging the Representation of Ethnically Divided Cities* Perspectives from Mostar questions the existing overrepresentation of Mostar as an ethnically divided city While acknowledging the existence of internal borders the chapters in this book assert that they are not solid nor fixed and by exploring how they become material or immaterial the book offers a deeper understanding of the city s complex dynamics Accordingly the chapters in this book are attentive to how ethnic divides materialise or lose importance because of socio political contingencies Events groups and spaces that promote reconciliation from the bottom up are examined not necessarily to assess their success and failures but rather to look at how they create networks gain trust and form platforms that generate novel understandings of ethnic loyalties and party memberships Further and drawing both on the empirical data and theoretical reflections this volume contributes to broader debates about divided cities by suggesting the need to engage with these cities in their complexities rather than reducing them to their ethno national divisions The book engages with socio political and economic complexities in order to shed light on how ethnic conflicts and resulting spatial partitioning are often just the surface of much more complex dynamics that are far less easy to disentangle and represent The chapters in this book were originally published in *Space and Polity*

Context-Aware Systems and Applications Phan Cong Vinh, Vangalur Alagar, 2016-04-16 This book constitutes the thoroughly refereed proceedings of the 4th International Conference on Context Aware Systems and Applications ICCASA 2015 held in Vung Tau Vietnam in November 2015 The 44 revised full papers presented were carefully selected and reviewed from over 100 submissions The papers cover a wide spectrum of issues in the area of context aware systems CAS and context based recommendation systems CAS is

characterized by its self facets such as self organization self configuration self healing self optimization self protection and so on whose context awareness used to dynamically control computing and networking functions The overall goal of CAS is to realize nature inspired autonomic systems that can manage themselves without direct human interventions *Educational Digital Transformation: New Technological Challenges for Competence Development* Julio Cabero Almenara, Carmen Llorente Cejudo, Antonio Palacios-Rodriguez, 2023-10-09 The COVID 19 pandemic has provided a unique opportunity to examine our understanding of the opportunities and challenges that ICTs offer to support the functioning of all aspects of education The closure of educational institutions has forced a radical change in the practices of teachers and societies regarding the use of ICT to support teaching learning social relations and work in many sectors In the training of digital skills the instrumental mastery of ICT continues to outweigh the preparation of citizens to make constructive and safe use of technologies After two decades of educational policies we continue to reduce digital literacy to instrumental skills That is you do not learn why to use educational technologies and how or to be critical of their use Education 4.0 seeks to develop and enhance the digital skills of students and teachers in digital teaching environments through the creation of a line of academic training programs for undergraduate postgraduate and continuing education This article collection welcomes contributions to improve training policies and practices in Educational Digital Transformation for educational development strategies activities proposals for assessment and certification of skills

Re-imagining Curriculum Lynn Quinn, 2019-11-15 The book argues that academics academic developers and academic leaders need to undertake curriculum work in their institutions that has the potential to disrupt common sense notions about curriculum and create spaces for engagement with scholarly concepts and theories to re imagine curricula for the changing times Now more than ever in the history of higher education curriculum practices and processes need to be shared the findings of research undertaken on curriculum need to be disseminated to inform curriculum work We hope the book will enable readers to look beyond their contextual difficulties and constraints to find spaces where they can dream and begin to implement innovative and creative solutions to what may seem like intractable challenges or difficulties

Derrida and Africa Grant Farred, 2019-10-17 Derrida and Africa takes up Jacques Derrida as a figure of thought in relation to Africa with a focus on Derrida's writings specifically on Africa which were influenced in part by his childhood in El Biar From chapters that take up Derrida as Mother to contemplations on how to situate Derrida in relation to other African philosophers from essays that connect deconstruction and diaspora to a chapter that engages the ways in which Derrida especially in a text such as *Monolingualism of the Other* or *the Prosthesis of Origin* is haunted by place to a chapter that locates Derrida firmly in postapartheid South Africa Derrida in and Africa is the insistent line of inquiry Edited by Grant Farred this collection asks What is Derrida to Africa What is Africa to Derrida and What is this specter called Africa that haunts Derrida
