strategy has been a complete failure The research described in this book contribute to the development of sustainable solutions for the previously outlined problem It was based on the validation of the Three Step Strategic Approach concept 3 SSA which includes 1 prevention or minimisation of waste production 2 treatment aimed at recovery and reuse of waste components and 3 disposal of remaining waste with stimulation of natural self purification of the receiving water body The study showed overall positive effects of the 3 SSA in comparison of Conventional Strategy on wastewater management in the Upper Basin 389 km of the Cauca river the second most important river in Colombia The Cost Benefit Analysis clearly favoured the 3 SSA generating a major impact on the river water quality at lower cost compared to the Conventional Strategy

Challenging the Representation of Ethnically Divided Cities Giulia Carabelli,Aleksandra Djurasovic,Renata Summa,2021-05-25 The book Challenging the Representation of Ethnically Divided Cities Perspectives from Mostar questions the existing overrepresentation of Mostar as an ethnically divided city While acknowledging the existence of internal borders the chapters in this book assert that they are not solid nor fixed and by exploring how they become material or immaterial the book offers a deeper understanding of the city s complex dynamics Accordingly the chapters in this book are attentive to how ethnic divides materialise or lose importance because of socio political contingencies Events groups and spaces that promote reconciliation from the bottom up are examined not necessarily to assess their success and failures but rather to look at how they create networks gain trust and form platforms that generate novel understandings of ethnic loyalties and party memberships Further and drawing both on the empirical

data and theoretical reflections this volume contributes to broader debates about divided cities by suggesting the need to engage with these cities in their complexities rather than reducing them to their ethno national divisions The book engages with socio political and economic complexities in order to shed light on how ethnic conflicts and resulting spatial partitioning are often just the surface of much more complex dynamics that are far less easy to disentangle and represent The chapters in this book were originally published in *Space and Polity* From Hope to Action through Knowledge Ramesh

Bharuthram, Larry Pokpas, 2020-10-27 Its November 2001 A university in dire straits financially bankrupt burdening a debt in excess of R100 million a disillusioned and demoralised staff complement still reeling from the trauma of retrenchments coupled with an academic project facing collapse as student numbers dwindle by a third to less than 10 000 Is there a future for such an institution described by some as a basket case with very bleak prospects of survival This was the landscape that confronted the newly appointed Vice Chancellor and Chief Executive Officer CEO of the University of the Western Cape Fast forward to December 2014 The CEO retires from office bestowing upon his successor a financially sound institution with a flourishing academic project recording unprecedented achievements enriching the lives of more than 20 000 students and widely acknowledged as a research led university This book narrates how visionary leadership with the steadfast belief that your past does not determine your future galvanised an entire organisation into believing that a better outcome was indeed achievable and the will to move forward as a collective with a redefined purpose and commitment to achieve that which was once deemed impossible *The Dynamics of Language* Rajend Mesthrie, David Bradley, 2018-06-26 Linguistics the close

presidential address on 8 January 1986 ANC president Oliver Tambo called on South Africans to make apartheid

ungovernable through armed action and militant struggle But unknown to the world on that very day the quiet spoken mathematics teacher and aspirant priest turned reluctant revolutionary had also set up a secret think tank in Lusaka which he named the Constitution Committee giving it an ad hoc unique exercise that had no precedent in the history of the movement Knowing that all wars end at a negotiating table and judging the balance of forces to be moving in favour of the liberation movement Tambo wanted the ANC to hold the initiative after the fall of apartheid Assisted by Pallo Jordan he instructed his new think tank to formulate the principles and draft the outlines of a constitution that could unite South Africa when the time came to talk in the fledgling days of freedom and democracy The seven member team including Albie Sachs Kader Asmal and Zola Skweyiya started deliberating and reporting to Tambo In correspondence they typically addressed him as Dear Comrade President Drawing on the personal archives of participants Dear Comrade President explains how the purposeful first steps were taken in the making of South Africa s Constitution Why and how did this process happen What were the first written words When and where were they put on paper By whom What values did they espouse And how did the committee s work fit into the broader struggle This book answers these questions in new paradigm shifting ways

The Responsive University and the Crisis in South Africa , 2021-05-31 Around the world higher education is faced with a fundamental question what is the basis for our claim of societal legitimacy In this book the authors

go beyond the classical response regarding teaching research and community engagement. Instead the editor puts forward the proposition that the answer lies in responsiveness: the extent to which universities respond or fail to respond to societal challenges. Moreover, because of its intractable legacy issues and crisis of inequality, the question regarding the societal legitimacy of universities is particularly clearly manifested in South Africa, one of the most unequal countries in the world. The Responsive University brings together contributions on the issue of responsiveness from a number of international university leaders, half of them specifically addressing the South African situation within the context of the international situation as presented by the other authors. In the global discussion about the role of universities in society, this book provides a conceptual framework for a way forward.

Transformation of Archives and Heritage Education in Post-apartheid South Africa Geraldine Frieslaar, Olusegun Morakinyo, 2023-06-10. Although there have been significant strides to transform the demographics of archive and museum personnel, develop new museums and heritage institutions and heritage training initiatives in post-apartheid South Africa, the Eurocentric model of the archive, museum and heritage sector has largely remained intact. Despite the euphoria around the transformation of heritage in the beginnings of post-apartheid South Africa, it can be argued that the transformation of heritage institutions has been superficial and cosmetic, with the ideological foundation of the colonial archive and museum as well as Eurocentric modalities of heritage education remaining solid, largely unmoved and under continuing challenge. This is the thrust of this book, which reflects on the transformation of archives and museum and heritage education in South Africa and argues for meaningful transformation of the sector through a decolonisation from its Eurocentric mooring.

New South African Review 6 Devan Pillay, Gilbert M Khadiagala, Roger Southall, Sarah Mosoetsa, Samuel Kariuki, 2018-01-29. Wide-ranging essays demonstrate how the consequences of inequality extend throughout society and the political economy. Despite the transition from apartheid to democracy, South Africa is the most unequal country in the world. Its extremes of wealth and poverty undermine intensifying struggles for a better life for all. The wide-ranging essays in this sixth volume of the *New South African Review* demonstrate how the consequences of inequality extend throughout society and the political economy, crippling the quest for social justice, polarising the politics, skewing economic outcomes and bringing devastating environmental consequences in their wake. Contributors survey the extent and consequences of inequality across fields as diverse as education, disability, agrarian reform, nuclear geography and small towns, and tackle some of the most difficult social, political and economic issues. How has the quest for greater equality affected progressive political discourse? How has inequality reproduced itself despite best intentions in social policy to the detriment of the poor and the historically disadvantaged? How have shifts in mining and the financialisation of the economy reshaped the contours of inequality? How does inequality reach into the daily social life of South Africans and shape the way in which they interact? How does the extent and shape of inequality in South Africa compare with that of other major countries of the global South, which themselves are notorious for their extremes of wealth and poverty? South African

extremes of inequality reflect increasing inequality globally and *The Crisis of Inequality* will speak to all those general readers policy makers researchers and students who are demanding a more equal world **Building the Anti-Racist**
