Optimality-theoretic Syntax, Semantics, and Pragmatics Géraldine

Legendre, Michael T. Putnam, Henriëtte de Swart, Erin Zaroukian, 2016 This book investigates the morphosyntactic semantic and pragmatic properties of language and the interactions between them from the perspective of Optimality Theory It integrates optimization processes into the formal and functional study of grammar interpreting optimization as the result of conflicting violable ranked constraints Unlike previous work on the topic this book also takes into account the question of directionality of grammar A model of grammar in which optimization processes interact bidirectionally allows both language generation the process of selecting the optimal form of a given meaning and language interpretation the process of optimal interpretation of a given form to be taken into account Chapters in this volume explore the consequences of both symmetric unidirectional and asymmetric bidirectional versions of Optimality Theory investigating the syntax semantics interface first language acquisition and sequential bilingual grammars The volume presents cutting edge research in Optimality Theoretic syntax and semantics as well as demonstrating how optimization processes as modelled in this formalism serve as a viable approach for linguists and scholars in related fields

Corporate Social Responsibility and Discrimination Christina

Keinert-Kisin, 2016-04-27 This book presents and deconstructs the existing explanations for the differential career development of qualified men and women It reframes the problem of discrimination in the workplace as a matter of organizational ethics social responsibility and compliance with existing equal opportunity laws Sensitive points are identified where social biases decision makers individual economic interests and shortcomings of organizational incentive policies may lead to discrimination against qualified women The ideas put forward are empirically tested in an original laboratory experiment that examines personnel selection in the male dominated field of science and technology It contrasts the selection of applicants with gendered and gender blind applications available to subjects under controlled conditions 30% of

participants were high level decision makers which is unprecedented in this field of research The results highly relevant for organizational practice are explained and discussed in detail *A Grammar of Vurës, Vanuatu* Catriona Malau,2016-10-24 This book is a comprehensive grammatical description of the Vur s language spoken on the island of Vanua Lava in the Banks group of islands northern Vanuatu Vur s is a previously undescribed language with very few minor published works referring to the language **High-Performance Scientific Computing** Edoardo Di Napoli,Marc-André Hermanns,Hristo Iliev,Andreas Lintermann,Alexander Peyser,2017-03-01 This book constitutes the thoroughly refereed post conference proceedings of the First JARA High Performance Computing Symposium JARA HPC 2016 held in Aachen Germany in October 2016 The 21 full papers presented were carefully reviewed and selected from 26 submissions They cover many diverse topics such as coupling methods and strategies in Computational Fluid Dynamics CFD performance portability and applications in HPC as well as provenance tracking for large scale simulations Advances in Operations Research Education Jeroen Beliën,Ana Paula Teixeira,Hans W.
