Campbell,2004-12-13 AISC 2004 the 7th International Conference on Artificial Intelligence and Symbolic Computation was the latest in the series of specialized biennial conferences founded in 1992 by Jacques Calmet of the Universitat Karlsruhe and John Campbell of University College London with the initial title Artificial Intelligence and Symbolic Mathematical Computing AISMC The M disappeared from the title between the 1996 and 1998 conferences As the editors of the AISC 1998 proceedings said the organizers of the current meeting decided to drop the adjective mathematical and to emphasize that the conference is concerned with all aspects of symbolic computation in AI mathematical foundations implementations and applications including applications in industry and academia This remains the intended profile of the series and will figure in the call for papers for AISC 2006 which is intended to take place in China The distribution of papers in the present volume over all the areas of AISC happens to be rather noticeably mathematical an effect that emerged because we were concerned to select the best relevant papers that were offered to us in 2004 irrespective of their particular topics hence the title on the cover Nevertheless we encourage researchers over the entire spectrum of AISC as expressed by the 1998 quotation above to be in touch with us about their interests and the possibility of eventual submission of papers on their work for the next conference in the series The papers in the present volume are evidence of the health of the field of AISC Additionally there are two reasons for optimism about the continuation of this situation *Particle Physics and Introduction to Field Theory* T.D.. Lee,1981-01-01 This unique book gives a unified presentation of the entire subject of particle physics starting with a self contained discussion of quantum field theory and going on with the symmetry and interaction of particles It expresses the author's personal approach to the subject and will be useful to beginning students as well as seasoned workers in the field *Railway Review* ,1891 *NASA Tech Briefs* ,1990 *Program Manager* ,1983 *Approach* ,1966 The naval aviation safety review
