

USING THE MODEL V800 VELOCITY CLOCK

Velocity Clocks are advanced clocks with many options and features. They can be used to restrict employee punching, allowing employees to punch at the clock during their scheduled shift times only. This model also allows your employees to view various information at the clock itself such as accrual totals, scheduled shift times and the date and time of their last clock entry.

How Do I Find the Clock ID and Password?

The clock ID and password are stored in the time clock itself. These settings can be changed from ClockLink once you have connected to the time clock, but you must specify the clock's current ID and password before a connection can be made.

Note: The default ID "1." The default password is "V800."

The following procedures are performed at the keypad of the clock itself.

Finding the Clock ID

1. On the clock keypad, press the <MENU> button. Select 1 for "ADMIN."
2. The clock prompts you for your card number. Type in a card number with administrator-level access rights and press <ENTER>.
Note: The default admin card number is "8888."
3. The clock prompts you for a PIN. Enter the appropriate password (based on the card number used) and press <ENTER>.
Note: The default admin password is "1111."
4. The "Main Admin Menu" appears. Press 3 for "Clock Setup."
5. Press 2 for "Clock ID/Pass."
6. Press 1 for "Clock ID."
7. The "Currently" field displays the clock's current ID. Enter a new ID if desired and press <ENTER>.

You can now exit the time clock menu by pressing <CLR> repeatedly until the time is shown on the clock display.
