

Answer Key To Vista SuperSite Lesson 2

Introduction

Introducing Vista through Windows Setup has always represented a challenge to Vista users. Before Vista, Vista's language support was limited to the English version of Windows. However, Windows Vista introduced a new language support architecture, which allows users to install Vista in a language other than English. This is a significant improvement over previous versions of Windows, which required users to install Vista in English and then change the language after installation. This new architecture allows users to install Vista in a language other than English and then change the language after installation. This is a significant improvement over previous versions of Windows, which required users to install Vista in English and then change the language after installation.

At Vista's launch, users could only install Vista in English. This is because the Vista Setup program was designed to install Vista in English. However, Vista's language support architecture allows users to install Vista in a language other than English. This is a significant improvement over previous versions of Windows, which required users to install Vista in English and then change the language after installation. This new architecture allows users to install Vista in a language other than English and then change the language after installation.
