Achieving the Circular Economy Jenny Palm, Nancy Bocken, 2021-05-20 Urbanisation and climate change are pushing cities to find novel pathways leading to a sustainable future The urban context may be viewed as a new experimentation space to accelerate the transition to a circular economy Urban symbiosis and the circular economy are emerging concepts attracting more and more attention within the urban context Moreover new business models are emerging around sharing and peer to peer practices which are challenging existing roles of actors in society These developments are having an important impact on the flows of resources and the use of the city infrastructure and each research area has taken a different perspective in the analysis of such impacts This Special Issue aims to explore what a circular city could constitute and how and why cities engage in circularity This Special Issue includes seven high quality papers on the theories and practices of circular cities Actors concepts methods tools the barriers to and enablers of circular cities are discussed and a solid base and inspiration for the future development of circular cities are provided **The Inside Text** R. Harper, L. Palen, A.

Taylor, 2005-03-21 SMS or Text is one of the most popular forms of messaging Yet despite its immense popularity SMS has remained unexamined by science Not only that but the commercial organisations who have been forced to offer SMS by a demanding public have had very little idea why it has been successful Indeed they have until very recently planned to replace SMS with other messaging services such as MMS This book is the first to bring together scientific studies into the values that texting provides examining both cultural variation in countries as different as the Philippines and Germany as well as the differences between SMS and other communications channels like Instant Messaging and the traditional letter It presents usability and design research which explores how SMS will evolve and what is likely to be the pattern of person to person messaging in the future In short The Inside Text is a fundamental resource for anyone interested in mobile communications at the start of the 21st Century **Report of the Secretary of the Senate** United States.
