

## Games Made Easy: Sorry

Players: 2

1. Each player begins with all four pawns in Start. To get out, they must either draw a 1 or a 2, but they cannot move past the space right outside Start.
2. Players take turns drawing cards and moving their pawns around the board. You must move one pawn the exact number of spaces shown on the card; if that is not possible you forfeit your turn.

However, some cards give you other options for how to move.

**2**= Draw again

**4**= **MUST** move backward 4 spaces

**7**= Has the option to split the 7 spaces between two pawns

**10**= Has the option to move backward 1 space instead

**11**= Has the option to switch one of your pawns with another player's

**Sorry**= These cards let you use one of your pawns to replace another player's pawn and send their pawn back to Start. However, your pawn must come from Start. If you have no pawns in Start you forfeit your turn.

3. Watch out for special spaces. If the final space you land on is a Slide triangle, you may "slide" to the end as long as the slide color isn't your pawn's color. When you reach your color's safety zone, that pawn is safe from all actions on the board. Additionally, if you land on a space occupied by your opponent's piece, that pawn gets sent to Start.

4. The winner is the first person to get all their pawns Home.

**Game Marathon Play:** Award a point to the player closest to winning.

Sylvia Rotfleisch, Maura Martindale, 2021-12-07

*Listening and Spoken Language Therapy for Children With Hearing Loss* A Practical Auditory Based Guide is a well organized and practical textbook based on a proven spoken language speech and listening model for teaching children with hearing loss. Supported by decades of research and experience the stage based model is presented with clear steps for intervention. Written in easy to understand language this textbook is accessible to university students who are new to the field of hearing loss as well as to new and experienced professionals. It is a highly applicable tool for providing auditory based therapy which supports professionals to empower parents and caregivers. The stages emphasized in this textbook are developmental in nature starting with the prelinguistic level and ending with advanced communication. Unlike the traditional age approach this unique system can address any child regardless of age intervention. Operating based on the understanding that language is acquired through meaningful social interaction the stages not ages system can be used for late starters English learners and children with additional disabilities.

**Key Features**

- A color coding system for the model and a consistent presentation of content and tables provide clarity and a streamlined experience.
- A comprehensive case study for each stage puts the approach into context.
- Easy to use resources in the form of tables and handouts for parents give professionals ready made tools for working with families.
- Explanations of proven strategies including speech acoustics applications Rainbow audiogram e mc2 Activities of Daily Living ADL theory cookie dough theory three act play and the dangling carrot.
- A deep conversation about the role of culture provides a uniting thread throughout the text.
