**Police Work and Identity** Andrew Faull, 2017-09-07 This is a book about the men and women who police contemporary South Africa Drawing on rich original ethnographical data it considers how officers make sense of their jobs and how they find meaning in their duties It demonstrates that the dynamics that lead to police abuses and scandals in transitional and neo liberalising regimes such as South Africa can be traced to the day to day experiences and ambitions of the average police officer It is about the stories they tell themselves about themselves and their social worlds and how these shape the order they produce through their work By focusing on police officers this book positions the individual in primacy over the organisation asking what policing looks like when motivated by the pursuit of ontological security in precarious contexts It acknowledges but downplays the importance of police culture in determining officers attitudes and behaviour and reminds readers that most officers lives are entangled in and shaped by a range of social political and cultural forces It suggests that a job in the South African Police Service SAPS is primarily just that a job Most officers join the organisation after other dreams have slipped beyond reach their presence in the Service being almost accidental But once employed they re write their self narratives and enact carefully choreographed performances to ease managerial and public pressure and to rationalize their coercive practices In an era where evidence and what works reigns supreme and where cop culture is often deemed a primary socializing force this book emphasises how officers personal histories ambitions and vulnerabilities remain central to how policing unfolds on the street

**South Africa**

Alexander Johnston, 2014-07-31 At the heart of South Africa's miracle transition from intractable ethno racial conflict to democracy was an improvised nation born out of war weariness hope idealism and calculated pragmatism on the part of the elites who negotiated the compromise settlement In the absence of any of the conventional bonds of national consciousness the improvised nation was fixed on the civic identity and national citizenship envisaged in the new constitution In the twentieth anniversary year of the country's democracy South Africa reviews the progress of nation building in post apartheid South Africa assesses how well the improvised nation has been embedded in a shared life for South Africans and offers a prognosis for its future It draws up a socio economic profile of the population which is the raw material of nation building It measures the contributions of the polity and the constitution religion and values as well as sport and the media to building a sense of national citizenship The book explains the abrupt discontinuity between the contributions of Nelson Mandela and Thabo Mbeki to nation building and goes on to note the changing focus from reconciliation between black and white to include a concern for social cohesion in a society beset by violent crime corruption and citizen deviance and dissidence South Africa reconsiders the short intense life cycle of Afrikaner nationalism and portrays the ambiguous relationships between African nationalism non racialism civic nationalism and African tradition in the ideology and practice of the African National Congress In doing so it provides a comprehensive analysis of a crucial aspect of South Africa's first twenty years of democracy as well as exploring intriguing questions for the student of nationalism

**Land-Use Management to Support Sustainable Settlements in South Africa** Verna Nel, Stuart Paul Denoon-Stevens, 2023-10-24. This book provides a theoretical and practical foundation needed to change the practice of land use management in Southern Africa. It presents an overview of an alternative land use management system for South African municipalities that is economically, socially and environmentally more sustainable than many of the land use schemes in effect at present. Land use management is a component of spatial governance that controls the nature and extent of development to prevent harmful impacts on people and the environment. As the current system with its colonial modernist planning and regulatory mechanisms were never designed to deal with rapid change, urbanisation and informality, a different form of land development and land use management is necessary. This timely book reflects the culmination of many years of practical experience and research into various aspects of land use management by the authors and studies undertaken by their master's and doctoral students. The book goes beyond an analysis of the problems and suggests concrete proposals that can be applied throughout Southern Africa based on a rural to urban transect. This book is directed to a broad range of readers interested in spatial planning and land use management. It will be of interest to those in the fields of geography, urban studies, urban design, planning and architecture.

**Biometric State** Keith Breckenridge, 2014-10-02. Biometric identification and registration systems are being proposed by governments and businesses across the world. Surprisingly, they are under most rapid and systematic development in countries in Africa and Asia. In this groundbreaking book, Keith Breckenridge traces how the origins of the systems being developed in places like India, Mexico, Nigeria and Ghana can be found in a century-long history of biometric government in South Africa with the South African experience of centralized fingerprint identification unparalleled in its chronological depth and demographic scope. He shows how empire and particularly the triangular relationship between India, the Witwatersrand and Britain established the special South African obsession with biometric government and shaped the international politics that developed around it for the length of the

twentieth century He also examines the political effects of biometric registration systems revealing their consequences for the basic workings of the institutions of democracy and authoritarianism      **Slavery in America** Dorothy Schneider, Carl J.
