Abstract

During the course of the experiment, people identified and remembered words that they saw, as well as words that were related to the words they saw. For example, they saw the word "apple" and then the word "fruit". They also saw the word "fruit" and then the word "apple". The results showed that people were better at remembering words that they saw than words that they heard. This suggests that visual information is processed more efficiently than auditory information.

Stanley A. Greene

Spanish Flacs June 2013:

Sittig's Handbook of Pesticides and Agricultural Chemicals Stanley A. Greene, 2013-10-22 Sittig's Handbook of Pesticides and Agricultural Chemicals is specifically designed for use by those engaged in the agricultural and food processing industries both vital to our nation's health and economy. People in every phase of food production from the farm to the fork will find a wealth of material here. It will also be of interest to professionals in the pharmaceutical, cosmetics, and personal care industries who use agricultural products as ingredients. It provides crop chemical regulatory health and safety information on nearly 800 pesticides, fertilizers, and other agricultural chemicals. These chemicals are organized with unique identifiers so that all who may have contact with or interest in them can find critical information quickly. *Subject Catalog*
