Discovery of the Source of the Nile John Hanning Speke, 2022-09-04 In *What Led to the Discovery of the Source of the Nile* John Hanning Speke presents a detailed account of his explorations in East Africa culminating in his contentious claim to have located the Nile's source at Lake Victoria. Written in a vivid narrative style that blends scientific observation with personal reflection, the book captures the complexities of 19th-century exploration, including the intersections of geography, politics, and cultural encounters. Speke's meticulous documentation of his journeys serves as both an adventure tale and an ethnographic study, providing insights into the landscapes and peoples he encountered while grappling with the scientific fervor of the era. John Hanning Speke (1827-1864) was a British explorer driven by an insatiable curiosity and a desire to contribute to the age of discovery. His experiences in India and subsequent fascination with African geography fueled his ambition to locate the Nile's source. Speke's pioneering paths were marked by challenges, rivalries, and the weight of imperial expectation, which shaped his narrative as he sought not only geographical truths but also personal recognition. This book is essential for readers interested in exploration, colonial history, and the fervent spirit of inquiry that characterized the Victorian era. Speke's work invites reflection on the interplay between reality and myth in the quest for knowledge, making it a compelling read for historians, adventurers, and literary enthusiasts alike. John Hanning Speke, 2021-06-28 John Hanning Speke (4 May 1827 – 15 September 1864) was an English explorer and officer in the British Indian Army who made three exploratory expeditions to Africa. He is most associated with the search for the source of the Nile and was the first European to reach Lake Victoria, known to locals as Nam Lolwe in Dholuo and Nnalubaale or Ukerewe in Luganda. Speke is also known for propounding the Hamitic hypothesis in 1863, in which he supposed that the Tutsi ethnic group were descendants of the biblical figure Ham and had lighter skin and more Hamitic features than the Bantu Hutu over whom they ruled. The racial hypothesis he proposed contributed to the conditions for the 1994 Rwandan genocide, in which 500,000 to 600,000 Tutsi were slaughtered. *The Discovery of the Source of the Nile* John Hanning Speke, 2011 **What Led To The Discovery Of The Source Of The Nile** John Hanning
