Ugliness Gretchen E. Henderson,2015-11-15 Ugly as sin the ugly duckling or maybe you fell out of the ugly tree Let s

face it we've all used the word ugly to describe someone we've seen hopefully just in our private thoughts but have we ever considered how slippery the term can be indicating anything from the slightly unsightly to the downright revolting What really lurks behind this most favored insult In this actually beautiful book Gretchen E Henderson casts an unfazed gaze at ugliness tracing its long standing grasp on our cultural imagination and highlighting all the peculiar ways it has attracted us to its repulsion Henderson explores the ways we have perceived ugliness throughout history from ancient Roman feasts to medieval grotesque gargoyles from Mary Shelley's *Frankenstein* to the Nazi Exhibition of Degenerate Art Covering literature art music and even the cutest possible incarnation of the term Uglydolls she reveals how ugliness has long posed a challenge to aesthetics and taste She moves beyond the traditional philosophic argument that simply places ugliness in opposition to beauty in order to dismantle just what we mean when we say ugly Following ugly things wherever they have trod she traverses continents and centuries to delineate the changing map of ugliness and the profound effects it has had on the public imagination littering her path with one fascinating tidbit after another Lovingly illustrated with the foulest images from art history and culture Ugliness offers an oddly refreshing perspective going past the surface to ask what ugly truly is even as its meaning continues to shift

Actor-Network Theory at the Movies Björn Sonnenberg-Schrank, 2020-01-29 This book is one of the first to apply the theoretical tools proposed by French philosopher Bruno Latour to film studies Through the example of the Hollywood Teen Film and with a particular focus on Actor Network Theory ANT the book delineates how Teen Film has established itself as one of Hollywood's most consistent and dynamic genres While many productions may recycle formulaic patterns there is also a proliferation of cinematic coming of age narratives that are aesthetically and politically progressive experimental and complex The case studies develop a Latourian film semiotics as a flexible analytical approach which raises new questions not only about the history types and tropes of teen films but also about their aesthetics mediality and composition Through an exploration of a wide and diverse range of examples from the past decade including films by female and African American directors urban and rural perspectives and non heteronormative sexualities Actor Network Theory at the Movies demonstrates how the classic Teen Film canon has been regurgitated expanded and renewed
