Napoleon III and His Regime David Baguley, 2000-11-01 Referred to in his time as the Pretender and the sphinx of the Tuileries, Louis-Napoléon Bonaparte, the nephew of Emperor Napoleon I of France and himself ruler of the Second Empire 1852-1870, so managed the manufacture of his public image and the masking of his private self that he is ultimately unknowable to this day. From the mysterious circumstances of his conception in 1807 to the strange events of his downfall in 1870 and death in 1873, he lived, loved, and reigned in an extraordinary aura of myth and fantasy under the shadow of his more famous uncle. Taking a highly innovative approach to this intriguing historical figure, David Baguley entertains sources in a multitude of media and forms: pictures, performances, spectacles, rituals, music, fiction, poems, plays, architecture, fashion, as well as Louis-Napoléon's own writings, to explore how the ruler was represented, invented, and interpreted by detractors and defenders alike. The dynamic process by which the legend of Napoleon III was elaborately fabricated and then vigorously dismantled unfolds under Baguley's hand, not chronologically but by generic categories reflecting the author's underlying conviction that history and literary depictions are not as incompatible as is often assumed. Baguley examines works by, among many others, Victor Hugo, Karl Marx, Émile Zola, Honoré de Balzac, Jacques Offenbach, Gustave Flaubert, and Elizabeth Barrett Browning, that range from history and biography to romanticized versions of the Emperor's feats, to parody, caricature, and satire. With its conspiratorial origins, its rising and dramatically falling action, its schemes, scandals, and tragic denouement, the Second Empire appears designed to inspire writers and artists. Napoleon III, Baguley observes, could well have been the central character or temperament in a naturalist novel. While most historians consider Louis-Napoléon's coup d'état of December 1851 to be his boldest endeavor, Baguley shows in this expansive and eloquent work that his most extravagant venture was to found a second Napoleonic empire, and he illustrates not only the power of the name and the image but also the precariousness of the Emperor's reliance upon them. For Napoleon III, dissimulation was his natural state: opportunist or utopian reformer or something in between, he must remain one of history's most elusive and controversial figures, ever resisting final assessment.

The Empress's New Clothes Nancy Madore, 2008-03-01 Beloved both by her subjects and her devoted husband, the emperor, everything the empress did as ruler was flawless. If she had any character flaw, it was her obsessive need for attention, which she expressed through her increasingly bold and revealing wardrobe. When she makes her entrance at a function wearing nothing at all, her guests so love her they suppress their shock and besiege her with requests for the name of her new tailor. The emperor, seeing how his beloved wife relishes all this attention, devises a

Fabricating Consumers Andrew Gordon, 2012 Since its early days of mass production in the 1850s the sewing machine has been intricately connected with the global development of capitalism Andrew Gordon traces the machine's remarkable journey into and throughout Japan where it not only transformed manners of dress but also helped change patterns of daily life class structure and the role of women As he explores the selling buying and use of the sewing machine in the early to mid twentieth century Gordon finds that its history is a lens through which we can examine the modern transformation of daily life in Japan Both as a tool of production and as an object of consumer desire the sewing machine is entwined with the emergence and ascendance of the middle class of the female consumer and of the professional home manager as defining elements of Japanese modernity

Envisioning the Empress: The Lives and Images of Japanese Imperial Women, 1868-1952 Alison J. Miller, 2024-12-02 Envisioning the Empress illuminates dynamic and powerful empresses who impacted not only women in their own time but whose influence extended to later generations of royalty creating a greater role for imperial women and elevating the status of women's roles at a crucial juncture in Japanese history The central focus of this book is visual monarchy exploring how the empress biographies were primarily expressed in visual culture and how their images worked in support of Japan's imperial policies in the late nineteenth and early twentieth centuries The book begins with a brief overview of premodern and modern imperial women to orient the reader In each chapter different media audiences and distribution channels for constructing the narrative of feminine imperial power in Japan are addressed alongside biographical information It is argued that the ultimate purpose of all of these images was to elevate the empress and promote her image as a conventional role model for modern women but one with enough celebrity cache to maintain popularity The images of the modern empresses as distributed by the Imperial Household Agency strike a balance between propaganda and popular media noble philanthropist and upper middle class role model celebrity and mother of the nation The modern empress image was crafted to be both exalted and approachable and worked to establish individual biographies while simultaneously establishing the position of the empress as timeless in the public eye Envisioning the Empress introduces students of royal studies as well as modern Japanese history and art history to this fascinating element of the history of monarchy and women's history more broadly

Since Meiji J. Thomas Rimer,2011-10-31 Research outside Japan on the history and significance of the Japanese visual arts since the beginning of the Meiji period 1868 has been with the exception of writings on modern and contemporary woodblock prints a relatively unexplored area of inquiry In recent years however the subject has begun to attract wide

interest As is evident from this volume this period of roughly a century and a half produced an outpouring of art created in a bewildering number of genres and spanning a wide range of aims and accomplishments Since Meiji is the first sustained effort in English to discuss in any depth a time when Japan eager to join in the larger cultural developments in Europe and the U S went through a visual revolution Indeed this study of the visual arts of the nineteenth and twentieth centuries suggests a fresh history of modern Japanese culture one that until now has not been widely visible or thoroughly analyzed outside that country In this extensive collection which includes some 190 black and white and color reproductions scholars from Japan Europe Australia and America explore an impressive array of subjects painting sculpture prints fashion design crafts and gardens The works discussed range from early Meiji attempts to create art that referenced Western styles to postwar and contemporary avant garde experiments There are in addition substantive investigations of the cultural and intellectual background that helped stimulate the creation of new and shifting art forms including essays on the invention of a modern artistic vocabulary in the Japanese language and the history of art criticism in Japan as well as an extensive account of the career and significance of perhaps the best known Japanese figure concerned with the visual arts of his period Okakura Tenshin 1862 1913 whose Book of Tea is still widely read today Taken together the essays in this volume allow readers to connect ideas and images thus bringing to light larger trends in the Japanese visual arts that have made possible the vitality range and striking achievements created during this turbulent and lively period Contributors Stephen Addiss Chiaki Ajioka John Clark Ellen Conant Mikiko Hirayama Michael Marra Jonathan Reynolds J Thomas Rimer Audrey Yoshiko Seo Eric C Shiner Lawrence Smith Shuji Tanaka Reiko Tomii Mayu Tsuruya Toshio Watanabe Gennifer Weisenfeld Bert Winther Tamaki Emiko Yamanashi

Fashion, Women and Power Denise N. Rall, 2021-12-10 This book addresses the relationships between fashion women and power One of the constants within the book is to question the enduring relationship between women and dress and how these inform and articulate the ways in which women remain represented as either suitable or not for public office and their behaviour is informed through dress when they are in power The book critiques the interplays between politics power class race and expectation in relation to the everyday practice of getting dress and the more performative and symbolic function of dress as embodiment As never before women are in positions of political power and find themselves facing the maelstroms of mass media regarding their fashion their deportment and their right to govern The contributors offer a wide set of perspectives on women and their roles and their fashions when taking up powerful positions in Australia

New Zealand United Kingdom and the United States From the United Kingdom the historical issues surrounding the movement towards rational dress for women seeking their rights to vote and exercise are interrogated The volume also explores viewpoints from East Asia such as the constricting role for common women upon entering the Imperial family in Japan From the United States come the troublesome media stories engulfing two significant American Democratic First Ladies Hillary Rodham Clinton and Michelle Obama From New Zealand the media reports on Prime Minister Jacinda Ardern upon her motherhood while serving in the office and on her clothing during the 2019 Christchurch massacre comprise a much needed contribution to the literature on women politics and dress Further the role of dress in politics broadly as a form of resistance will be examined in Australia from recent skirmishes over appropriate dress with ex prime minister Julia Gillard and other Australian female politicians The role of women and what their fashion selections mean continues via considerable debate during worldwide events Finally the theme of resistance and social media continues with an examination of protest dressing in the recent street battles in Hong Kong to how young Asian women have been influenced by the social media campaigns to encourage wearing the veil in Indonesia to Asian women negotiating femininity in political dress Primary readership will be among researchers scholars educators and students in the fields of fashion dress studies women and gender studies and media and history It will be of particular value as at graduate level and as a supplementary resource There may be some general appeal to those with an interest in the women or cultures at the centre of the discussions The Empress and the Professor Samuel Odell Campbell, 2007-02 A college professor follows the empress of the world and her chief aide around the globe She wants the professor to help eradicate poverty They debate what the government should do Economics and ethics are involved in a mystery of why there is so much poverty
