Scribner's Magazine ..., 1907 Popular Politics and the Path to Durable Democracy Mohammad Ali Kadivar, 2022-11-22 A groundbreaking account of how prolonged grassroots mobilization lays the foundations for durable democratization When protests swept through the Middle East at the height of the Arab Spring the world appeared to be on the verge of a wave of democratization Yet with the failure of many of these uprisings it has become clearer than ever that the path to democracy is strewn with obstacles Mohammad Ali Kadivar examines the conditions leading to the success or failure of democratization shedding vital new light on how prodemocracy mobilization affects the fate of new democracies Drawing on a wealth of new evidence Kadivar shows how the longest episodes of prodemocracy protest give rise to the most durable new democracies He analyzes more than one hundred democratic transitions in eighty countries between 1950 and 2010 showing how more robust democracies emerge from lengthier periods of unarmed mobilization Kadivar then analyzes five case studies South Africa Poland Pakistan Egypt and Tunisia to investigate the underlying mechanisms He finds that organization building during the years of struggle develops the leadership needed for lasting democratization and strengthens civil society after dictatorship Popular Politics and the Path to Durable Democracy challenges the prevailing wisdom in American foreign policy that democratization can be achieved through military or coercive interventions revealing how lasting change arises from sustained nonviolent grassroots mobilization War and Peace in International Rivalry Paul Diehl, Gary Goertz, 2010-06-02 This book provides the first detailed analysis of international rivalries the long standing and often violent confrontations between the same pairs of states The book addresses conceptual components of rivalries and explores the origins dynamics and termination of the most dangerous form of rivalry enduring rivalry since 1816 Paul Diehl and Gary Goertz identify 1166 rivalries since 1816 They label sixty three of those as enduring rivalries These include the competitions between the United States and Soviet Union India and Pakistan and Israel and her Arab neighbors The authors explain how rivalries form evolve and end The first part of the book deals with how to conceptualize and measure rivalries and presents empirical patterns

among rivalries in the period 1816-1992. The concepts derived from the study of rivalries are then used to reexamine two central pieces of international relations research namely deterrence and democratic peace studies. The second half of the book builds an explanation of enduring rivalries based on a theory adapted from evolutionary biology punctuated equilibrium. The study of international rivalries has become one of the centerpieces of behavioral research on international conflict. This book by two of the scholars who pioneered such studies is the first comprehensive treatment of the subject. It will become the standard reference for all future studies of rivalries. Paul F. Diehl is Professor of Political Science and University Distinguished Teacher Scholar, University of Illinois. He is the coeditor of *Reconstructing Realpolitik* and coauthor of *Measuring the Correlates of War*. Gary Goertz is Assistant Professor of Political Science, University of Arizona, and is the coauthor with Paul Diehl of *Territorial Change and International Conflict*. **Scribner's Magazine** Edward Livermore Burlingame, Robert Bridges, Alfred Sheppard Dashiell, Harlan Logan, 1907. *I'm Just Saying* Milan Kordestani, 2023-04-25. Shows how we can better navigate difficult conversations and find easier ways to communicate through the art of civil discourse. *The Standard*, 1920. **What We've Lost** Graydon Carter, 2004-09-08. What We've Lost addresses the fragile state of U.S. democracy with a critical review of the Bush administration by one of our leading magazine editors. Graydon Carter, Carter has expressed his deep dissatisfaction with the current state of the nation in his monthly editor's letters in *Vanity Fair* which have aroused widespread comment and now provides a sweeping painstakingly detailed account of the ruinous effects of this president. The invasion of Iraq which has proven so costly for the U.S. in lives, dollars, and international standing is only the tip of the iceberg. It is the war at home, a quiet, covert and in many ways more lasting and damaging war that Carter is most wary of. The Bush White House has chipped away at decades worth of advances in personal rights, women's rights, the economy, and the environment. It is difficult to point to a single element of American society that comes under federal jurisdiction that is not worse off now than it was an administration ago, from civil liberties to the economy, foreign affairs to the environment. Carter discusses these topics and many more with great cogency and specificity, detailing what Bush's radical agenda means for America's future and its future standing in the world. What We've Lost is not the position paper of a policy wonk or a pundit but the impassioned argument of a concerned citizen in response to the most precarious political crisis of our time. **News from Ethiopia**, 1992. [Introduction To Race Relations](#) Barry Troyna, 2003-09-02. This is the second edition of the textbook on race and ethnic relations which has been adopted by academic and vocational courses and which is designed to be a straightforward introduction to this field of study. It retains all the original features but reflects on events over the years since its original publication, incorporating accounts of developments in the UK and USA. Suggestions for further readings are revised in the light of the latest research. *An Introduction to Political Science in Nigeria* Adeoye A. Akinsanya, John A. Motta,Jim Jose,2020-06-29 Focusing on the increasing refusal and transgression of politics as normal across the globe this book examines new forms of democratisation democratic life and political subjectivity as people seek to gain control over the decisions and processes affecting their lives The contributors to this volume challenge the hegemonic truth regimes of political science by bringing to our attention practices and discussions on the margins of political theorisation and conceptualisation They offer a pluridiveristy of theorisations and engagements that mirror the very practises of democratic life of which they speak They demonstrate how research on the margins enables us to develop and deepen our conceptualisation and engagement with these new forms of democratic thought and practice and hence our
