Supervisors and workers need a practical way of understanding their business organization to be able to focus their efforts effectively and make good decisions in the organization's best interest. JobThink addresses the question: What's important to the job and organization? A model focusing on key constituents, elements, components, such as tasks, technology, and corporate objectives of an organization is used to focus one's thinking about the organization and job. JobThink explains each constituent and the interrelationship between constituents. Uses of resources are also explained. JobThink also addresses how your work affects others and vice versa. A problem-solving strategy that you can apply to your job is also explained.
