150 Years of the Periodic Table Carmen J. Giunta,Vera V. Mainz,Gregory S. Girolami,2021-07-04 This book provides an overview of the origins and evolution of the periodic system from its prehistory to the latest synthetic elements and possible future additions The periodic system

of the elements first emerged as a comprehensive classificatory and predictive tool for chemistry during the 1860s. Its subsequent embodiment in various versions has made it one of the most recognizable icons of science. Based primarily on a symposium titled 150 Years of the Periodic Table and held at the August 2019 national meeting of the American Chemical Society, this book describes the origins of the periodic law, developments that led to its acceptance, chemical families that the system struggled to accommodate, extension of the periodic system to include synthetic elements, and various cultural aspects of the system that were celebrated during the International Year of the Periodic Table.

The Best American Science and Nature Writing 2015 Rebecca Skloot, 2020-12-15. This anthology of essays and articles explores topics ranging from untouched wilderness to scientific ethics and the nature of curiosity itself. Scientists and writers are both driven by a dogged curiosity, immersing themselves in detailed observations that over time uncover larger stories. As Rebecca Skloot says in her introduction, all the stories in this collection are written by and about people who take the time and often a substantial amount of risk to follow curiosity where it may lead, so we can all learn about it. The Best American Science and Nature Writing 2015 includes work from both award-winning writers and up-and-coming voices in the field. From Brooke Jarvis on deep ocean mining to Elizabeth Kolbert on New Zealand's unconventional conservation strategies, this is a group that celebrates the growing diversity in science and nature writing alike. Altogether, the writers honored in this volume challenge us to consider the strains facing our planet and its many species while never losing sight of the wonders we're working to preserve for generations to come. This anthology includes essays and articles by Sheri Fink, Atul Gawande, Leslie Jamison, Sam Kean, Seth Mnookin, Matthew Power, Michael Specter, and others.
