Rodrigue, 2023-01-26 A sweeping history of the Lower Mississippi Valley and its central role in abolishing slavery in the American South *A Different Manifest Destiny* Claire M. Wolnisty, 2020-10 The South possessed an extensive history of looking outward specifically southward to solve internal tensions over slavery and economic competition in the 1820s through the 1860s Nineteenth century southerners invested in their futures and in their identity as southerners when they expanded their economic and proslavery connections to Latin America seeking to establish a vast empire rooted in slavery that stretched southward to Brazil and westward to the Pacific Ocean For these modern expansionists failure to cement those connections meant nothing less than the death of the South In *A Different Manifest Destiny* Claire M Wolnisty explores how elite white U S southerners positioned themselves as modern individuals engaged in struggles for transnational power from the antebellum to the Civil War era By focusing on three groups of people not often studied together filibusters commercial expansionists and postwar southern emigrants Wolnisty complicates traditional narratives about Civil War era southern identities and the development of Manifest Destiny She traces the ways southerners capitalized on Latin American connections to promote visions of modernity compatible with slave labor and explores how southern Latin American networks spanned the years of the Civil War **Colossal Ambitions** Adrian Brett, 2020-07-16 Leading politicians diplomats clerics planters farmers manufacturers and merchants preached a transformative world historical role for the Confederacy persuading many of their compatriots to fight not merely to retain what they had but to gain their future empire Impervious

Educating the Sons of Sugar R. Eric Platt, 2017-10-10 A study of Louisiana French Creole sugar planters' role in higher education and a detailed history of the only college ever constructed to serve the sugar elite The education of individual planter classes cotton tobacco sugar is rarely treated in works of southern history Of the existing literature higher education is typically relegated to a footnote providing only brief glimpses into a complex instructional regime responsive to wealthy planters R. Eric Platt's *Educating the Sons of Sugar* allows for a greater focus on the mindset of French Creole sugar planters and provides a comprehensive record and analysis of a private college supported by planter wealth Jefferson College was founded in St James Parish in 1831 surrounded by slave holding plantations and their cash crop sugar cane Creole planters regionally known as the *ancienne* population designed the college to impart a genteel liberal arts education through instruction architecture and geographic location Jefferson College played host to social class rivalries Creole Anglo American and French immigrant mirrored the revival of Catholicism in a region typified by secular mores was subject to the Americanization of south Louisiana higher education and reflected the *ancienne* population's decline as Louisiana's ruling population Resulting from loss of funds the college closed in 1848 It opened and closed three more times under varying administrations French immigrant private sugar planter and Catholic Marist before its final closure in 1927 due to educational competition curricular intransigence and the 1927 Mississippi River flood In 1931 the campus was purchased by the Society of Jesus Jesuits and reopened as a silent religious retreat It continues to function to this day as the Manresa House of Retreats While in existence Jefferson College was a social thermometer for the white French Creole sugar planter ethos that instilled the sons of sugar with a cultural heritage resonant of a region typified by the management of plantations slavery and the production of sugar

President without a Party Christopher J. Leahy, 2020-05-06 Historians have long viewed President John Tyler as one of the nation's least effective heads of state In *President without a Party* the first full scale biography of Tyler in more than fifty years and the first new academic study of him in eight decades Christopher J. Leahy explores the life of the tenth chief executive of the United States Born in the

Virginia Tidewater into an elite family sympathetic to the ideals of the American Revolution Tyler like his father worked as an attorney before entering politics Leahy uses a wealth of primary source materials to chart Tyler s early political path from his election to the Virginia legislature in 1811 through his stints as a congressman and senator to his vice presidential nomination on the Whig ticket for the campaign of 1840 When William Henry Harrison died unexpectedly a mere month after assuming the presidency Tyler became the first vice president to become president because of the death of the incumbent Leahy traces Tyler s ascent to the highest office in the land and unpacks the fraught dynamics between Tyler and his fellow Whigs who ultimately banished the beleaguered president from their ranks and stymied his election bid three years later Leahy also examines the president s personal life especially his relationships with his wives and children In the end Leahy suggests politics fulfilled Tyler the most often to the detriment of his family Such was true even after his presidency when Virginians elected him to the Confederate Congress in 1861 and northerners and Unionists branded him a traitor president The most complete accounting of Tyler s life and career Leahy s biography makes an original contribution to the fields of politics family life and slavery in the antebellum South Moving beyond the standard often shortsighted studies that describe Tyler as simply a defender of the Old South s dominant ideology of states rights and strict construction of the Constitution Leahy offers a nuanced portrayal of a president who favored a middle of the road bipartisan approach to the nation s problems This strategy did not make Tyler popular with either the Whigs or the opposition Democrats while he was in office or with historians and biographers ever since Moreover his most significant achievement as president the annexation of Texas exacerbated sectional tensions and put the United States on the road to civil war

Els assajos inclosos en aquest llibre constitueixen la impressió d'un home sobre diversos aspectes de la vida: el passat i el present a Dixie. Parlen gairebé de tot: la raça, la política, la religió, la literatura i altres manifestacions culturals. Alguns dels assajos són biogràfics. Hobson se sent particularment atret per figures com H. L. Bellugi, Gerald W. Johnson, James McBride DiNardo i Louis Rubin. Cròniques socials i culturals que han explorat la ment del sud o per escriptors literaris com Richard Ford i Mary Mebane. Conclou el llibre amb dos assajos personals: l'exploració de les vides de dos membres de la seva família històrica que revelen moltes coses del sud de l'època i de llocs concrets.
