Maker Literacy Lynn Pawloski, Cindy Wall, 2016-11-07 This book takes the creativity and inventiveness of the maker movement and applies that energy in a new way to help children learn across all subject areas as well as broaden their world view Traditional library literacy programs have helped many children foster a love of reading but to prepare this next generation of learners this programming needs to be modified to include technology The inherent creativity and inventiveness of the Maker Movement embracing both classic and innovative technological activities provides the perfect bridge to invigorate expand and update these programs This alternative to conventional library literacy programming will help children learn throughout all subject areas see additional possibilities and make connections in the world around them With this guide readers can discover how to apply maker literacy to introduce connections that help children better understand that their experiences in life are interrelated that art can be made on a 3D printer and that science and technology are an essential part of design This holistic approach provides a myriad of creative opportunities for both teaching staff and the children they serve A great resource for youth services librarians in public libraries this guide to infusing library programs with technology and maker activities to motivate learning will also appeal to preschool and elementary librarians educators and parents

Touch Screen Tablets Touching Children's Lives Joanne Tarasuik, Gabrielle Strouse, Jordy Kaufman, 2018-02-28 Touch screen tablets have greatly expanded the technology accessible to preschoolers toddlers and even infants given that they do not require the fine motor skills required for using traditional computers Many parents and educators wish to make evidence based decisions regarding young children's technology use yet technological advancements continue to occur faster than researchers can keep up with Accordingly despite touch screen tablets entering society more than 5 years ago we are in the infancy of research concerning interactive media and children The topic has gained traction in the past couple of years For example theoretical papers have discussed how interactive media activities differ from physical toys and passive media Christakis 2014 and how educational

apps development should utilise the four pillars of learning Hirsh Pasek et al 2015 Yet there has been little experimental research published on young children and touch screen use Illinois Reading Council Journal ,2016 **The Digital Reading Condition** Maria Engberg,Iben Have,Birgitte Stougaard Pedersen,2022-12-30 This volume offers a critical overview of digital reading practices and scholarly efforts to analyze and understand reading in the mediatized landscape Building on research about digital reading born digital literature and digital audiobooks The Digital Reading Condition explores reading as part of a broader cultural shift encompassing many forms of media and genres Bringing together research from media and literary studies digital humanities scholarship on reading and learning as well as sensory studies and research on multimodal and multisensory media reception the authors address and challenge print biased conceptions of reading that are still prevalent in research whether the reading medium is print or digital They argue that the act of reading itself is changing and rather than rejecting digital media as unsuitable for sustained or focused reading practices they argue that the complex media landscape challenges us to rethink how to define reading as a mediated practice Presenting a truly interdisciplinary perspective on digital reading practices this volume will appeal to scholars and graduate students in communication media studies new media and technology literature digital humanities literacy studies composition and rhetoric Handbook of Language and Literacy, Second Edition C.
