Adaptive Ethics for Digital Transformation Mark Schwartz, 2023-07-25 Digital transformation doesn t just raise ethical issues it in itself is an ethical

shift Business leaders today are struggling to manage conflicting imperatives those of the emerging digital world and those of the bureaucratic world of the past The act of digital transformation requires a deep change in the moral outlook and ethical assumptions of a business But how do we get there Enterprise strategist and author Mark Schwartz shows how we need to learn to think differently about relationships with customers and employees That the ethics of digital transformation is a matter of cultivating and applying virtues rather than applying rules Ethics is not just a matter of refraining from doing bad things It s a matter of building the world we want and it s the job of company executives Featuring a chapter on bullshit a handy chart of excuses for bad behavior and Schwartz s typically paradoxical blend of deep insight and pasta jokes this book guides business leaders as they struggle to adapt their bureaucratic framework of ethics to the emerging landscape of the digital world By the end of the book business leaders will rethink what it takes to be an ethical organization **Secrets**

Fourth Bear Jasper Fforde,2004 *The Literature of Reconstruction* Wolfgang Funk,2017-03-23 Winner of the 2016 ESSE Junior Scholar Book Award in Literatures in the English Language The Literature of Reconstruction argues for the term and concept of postmillennial reconstruction to fill the gap left by the decline of postmodernism and deconstruction as useful cultural and literary categories Wolfgang Funk shows how this notion emerges from the theoretical and philosophical development that led to the demise of postmodernism by relating it to the idea of authenticity immediate experience that eludes direct representation In addition he provides a clear formal framework with which to identify and classify the features of reconstructive literature by updating the narratological category of metafiction originally established in the 1980s Based on Werner Wolf s observation of a metareferential turn in contemporary arts and media he illustrates how the specific use of metareference results in a renegotiation of the specific patterns of literary communication and claims that this renegotiation can be profitably described with the concept of reconstruction To substantiate this claim in the second half of the book Funk discusses narrative texts that illustrate this transition from postmodern deconstruction to postmillennial reconstruction The analyses take in distinguished and prize winning writers such as Dave Eggers Julian Barnes Jennifer Egan and Jasper Fforde The broad scope of authors featuring writers from the US as well as the UK underlines the fact that the reconstructive tendencies and strategies Funk diagnoses are of universal significance for the intellectual and cultural self image of the global North
