they absorb real world skills including critical thinking and complex literacy math and second language abilities so that they stick. They gather for intense whole school discussions on local issues, create art using geometric calculations and dig into the school garden while learning about the biology of the native plant garden all in one typical week. Over forty years the Halifax Independent School has developed an approach to education that reflects the ideas of leading educators but follows no set formula. It offers parents and educators a vision of what schools could be like right across the country. In this account of the best school in the world, readers will find ideas big and small for how Canadian schools could do a better job of engaging, challenging and educating their students.

Beyond 'Presentism', 2009-01-01. Precisely titled, this powerful collection constitutes a chronotope, an erudite enactment of interstices within and among historical time, spiritual place and political culture. A recollection focused forward to those hybrid generations in Canadian classrooms whose frontier is haunted by forts populated by not always their ancestors inscribed in their national, regional, aboriginal identities. Homophobic, hygienic, the curriculum is always already inhabited by the language of the Other, propelling us toward post-post being forested in difference, rooted in images refracted through mirrors and windows. In constructing this crucial collage of decolonization, the contributors summon us to study with them the place we inhabit.

WILLIAM F. PINAR, Professor and Canada Research Chair, Department of Curriculum and Pedagogy, University of British Columbia, Canada.

From Bombs to Books, David Starr, 2016-08-22. As Canada welcomes tens of thousands of Syrian refugees as well as many others finding their way in Canada, communities across the country are dealing with the challenges of welcoming and integrating them. This is a book about how schools can play a powerful and positive role in the day-to-day lives of refugee families. David Starr has served as the principal at two schools in BC where a majority of the student population comes from refugee families. While the students at Edmonds Community and Byrne Creek Community schools in Burnaby, BC, come from all over the world, many are recent arrivals from Syria, Iraq, Afghanistan and Sudan. In this book, David Starr shares the deeply moving stories of his students, their parents and the staff at Edmonds. He describes the upheavals that many of these families have undergone. He writes about how teachers and other support workers have embraced their students and gone about making a difference in their lives. And he tells the stories of students and their views of their experiences in their countries of origin as well as at their new schools and in their new communities. First published in 2011, this book will strike a chord today in many cities and towns across Canada. This new edition provides the perspective of five years' experience for the young people it profiles, with updates on the recent experiences of many. And David Starr offers observations on how teachers, principals, support groups and others can contribute to the process of integrating refugee families into Canadian society and the many lessons he and his colleagues have learned from their experiences.
