Sound Stephen Murray:

The Analysis of Gothic Architecture ,2022-12-05 The essays in this volume reflect on and build on the remarkable legacies of Robert Mark and Andrew Tallon who pioneered the application of high technology research methods to the study of Gothic architecture Combining personal reminiscences and historiographical discussions with meticulous geometrical and structural analyses based on photogrammetric and laser scanned building surveys this book offers valuable new perspectives not only on Mark and Tallon themselves but also on major churches including the abbeys of Saint Denis and Alcoba a Santa Maria Novella in Florence Notre Dame in Paris and the cathedrals of Clermont Reims and Wells Contributors are Sheila Bonde Robert Bork Lindsay S Cook Michael Davis James Hillson Kyle Killian Peter Kurmann Clark Maines Ethan Mark Stephen Murray Sergio Sanabria Dany Sandron Ellen Shortell Elizabeth B Smith Rebecca Smith Arnaud Timbert Stefaan Van Liefferinge and Nancy Wu See inside the book Essays on Roberto Gerhard Monty Adkins,Michael Russ,2017-03-07 For much of the mid twentieth century Roberto Gerhard found himself an outsider He was airbrushed from much writing on contemporary music in Spain during the Franco regime and was known in England more for his commercial music for theatre film and radio than his concert works However his significance as a musical innovator in developing serial technique and in the field of electro acoustics is now being gradually recognised in both Spain and England as well as further afield The volume explores an extensive range of Gerhard s work from the early Wind Quintet and the Spanish ballets Pandora and Don Quixote with their overt political overtones through to the late period Metamorphoses and a newly discovered chance based composition Claustrophilia written in response to a request by John Cage for his book Notations One of the key themes presented throughout the book is Gerhard s innovative use of serialism Gerhard s development of Schoenberg s technique led him to explore the serialization of both pitch and time This volume suggests evidence for the first time that situates Gerhard s idiosyncratic experiments alongside rather than after the total serialist works of his European counterparts Pierre Boulez Olivier Messiaen and Karlheinz Stockhausen **Murray's English Grammar** Lindley Murray,1832 **Murray's English Grammar Simplified** Allen Fisk,1822 **An Abridgement of Murray's English Grammar and Exercises** Lindley Murray,Joab Goldsmith Cooper,1828 Theatre World 1995-1996 John Willis,2000-02 Scenes from the plays and portraits of leading actors accompany a statistical record of the current season **Lance Comfort** Brian McFarlane,2019-01-04 In the years between 1941 and 1965 Lance Comfort made some of the most entertaining films in Britain There was the striking success of his second feature as director Hatter s Castle 1941 and when he returned to this melodramatic vein in 1945 he made a series of highly proficient and enjoyable studies in obsession including Bedelia 1946 with Margaret Lockwood as a murderess and Temptation Harbour 1947 starring Robert Newton as a decent man in the grip of erotic attraction Comfort s career has never been charted in full that is from the apprenticeship in the 1930s through the melodramas of the 1940s to the often rewarding co features of the following two decades His is in many ways a prototypical

career in British cinema his very attractive body of work has been marginalised by critical focus on a few giant figures This is a book that will appeal to all students and researchers in British cinema as well as to anyone with an interest in British films and why they were the way they were in their most productive period *Feature Films on 8mm and 16mm* James L. Limbacher,1979

The Roberto Gerhard Companion Monty Adkins,2016-02-24 More than forty years after the composer's death the music of Roberto Gerhard 1896 1970 continues to be recorded and performed and to attract international scholarly interest The Roberto Gerhard Companion is the first full length scholarly work on this composer noted for his sharp intellect and original exploring mind This book builds on the outcomes of two recent international conferences and includes contributions by scholars from Spain the USA and UK The essays collected here explore themes and trends within Gerhard's work using individual or groups of works as case studies Among the themes presented are the way Gerhard's work was shaped by his Catalan heritage his education under Pedrell and Schoenberg and his very individual reaction to the latter's teaching and methods notably Gerhard's very distinctive approach to serialism The influence of these and other cultural and literary figures is an important underlying theme that ties essays together Exiled from Catalonia from 1939 Gerhard spent the remainder of his life in Cambridge England composing a string of often ground breaking compositions notably the symphonies and concertos composed in the 1950s and 1960s A particular focus in this book is Gerhard's electronic music He was a pioneer in this genre and the book will contain the first rigorous studies of this music as well as the first accurate catalogue of this electronic output His ground breaking output of incidental music for radio and the stage is also given detailed consideration

Learning to Look Lesley D. Clement,2000-04-01 In Learning to Look Lesley Clement traces the evolution of Mavis Gallant's visually evocative style through five decades of her short fictional works From her earliest explorations of displacement and the disparity between perception and reality through her later explorations of memory and history to her more recent explorations of the role of culture in a contemporary world where commercialism and madness threaten to extinguish the potential for illumination and enlightenment Gallant envisages and renders her fictional world with the techniques analogous to those of visual artists Clement shows us that Gallant's

fiction of the 1940s and 1950s exhibits a keen interest in perspective and proportion achieved through concentration on line that her fiction of the 1960s and early 1970s reveals a heightened interest in composition achieved through a focus on framing proportion and form or shape and that her fiction after the mid 1970s demonstrates the full realization of her art through attention to colour and light Gallant increasingly explores the boundaries between visible and invisible worlds as the lines shapes and colours suggested by her allusions analogies and structures give her fiction the perspective proportion density and fluidity that illuminate the printed page and challenge us as readers Alert to visual cues in Gallant's fiction we acquire a heightened perception of the manifold richness of worlds and lives that might otherwise have been relegated to the unseen and unsung
