Access to Success and Social Mobility through Higher Education Stuart Billingham, 2018-08-23 This collection of essays illuminates the benefits drawbacks challenges and opportunities of the push to widen access to success and social mobility through university and other post secondary education experiences in the UK and internationally Student Financing of Higher Education Donald Heller, Claire Callender, 2013-06-07 The financing of higher education is undergoing great change in many countries around the world In recent years many countries are moving from a system where the costs of funding higher education are shouldered primarily by taxpayers through government subsidies to one where students pay a larger share of the costs There are a number of factors driving these trends including A push for massification of higher education in the recognition that additional revenue streams are required above and beyond those funds available from governments in order to achieve higher participation rates Macroeconomic factors which lead to constraints on overall government revenues Political factors which manifest in demands for funding of over services thus restricting the funding available for higher tertiary education A concern that the returns to higher education accrue primarily to the individual rather than to society and thus students should bear more of the burden of paying for it This volume will help to contribute to an understanding of how these trends occur in various countries and regions around the world and the impact they have on higher education institutions students and society as a whole With contributions for the UK USA South Africa and China this vital new book gives a truly global picture of the rapidly changing situation **Youth and Higher Education in Africa.**

The Cases of Cameroon, South Africa, Eritrea and Zimbabwe Donald P. Chimanikire, 2009 Student activism in Africa at least since the early 1990s has been preoccupied with popular struggles for democracy in both their respective countries and institutions of higher learning The changing socio economic and political conditions in many African countries characterized by the decline in economic growth and the introduction of multi party politics among several other factors have had different impact on students and student political organizations in African universities This book recounts the responses of students to these changes in their attempt to negotiate better living and studying conditions The four case studies contained in the book Cameroon South Africa Zimbabwe and Eritrea clearly reveal the very important aspects of the situation in which African students find themselves in many countries and underscores the need to understand the character and development of

higher education on the continent Ministries of Higher Education Vice Chancellors Deans of Students Student Unions and parents will find this book very useful in terms of understanding the tensions that often arise at institutions of higher learning and why solutions seem to be elusive **Social Justice and Education in the 21st Century** Willie Pearson Jr., Vijay Reddy, 2021-04-10

The world is not an equal place There are high and low income countries and high and low income households For each group there are differential educational opportunities leading to differential educational outcomes and differential labor market opportunities This pattern often reproduces the privileges and inequalities of groups in a society This book explores this differentiation in education from a social justice lens Comparing the United States and South Africa this book analyzes each country's developmental thinking on education from human capital and human rights approaches in both primary and higher education The enclosed contributions draw from different disciplines including legal studies sociology psychology computer science and public policy Higher Education, 2023-11-02 COVID wrought havoc on the world's economic systems Higher education did not escape the ravages brought on by the pandemic as institutions of higher education around the world faced major upheavals in their educational delivery systems Some institutions were prepared for the required transition to online learning Most were not Whether prepared or not educators rose to the challenge The innovativeness of educators met the challenges as digital learning replaced the face to face environment In fact some of the distance models proved so engaging that many students no longer desire a return to the face to face model As with all transitions some things were lost while others were gained This book examines practice in the field as institutions struggled to face the worst global pandemic in the last century The book is organized into four sections on Perils and Promises The State of Online Education Goals and Challenges of Online Learning and Innovations in the Age of COVID It presents various perspectives from educators around the world to illustrate the struggles and triumphs of those facing new challenges and implementing new ideas to empower the educational process These discussions shed light on the impact of the pandemic and the future of higher education post COVID Higher education has been forever changed and higher education as it once was may never return While many questions arise the achievements in meeting and overcoming the pandemic illustrate the creativity and innovativeness of educators around the world who inspired future generations of learners to reach new heights of accomplishment even in the face of the pandemic Towards Employment-Intensive Growth in South Africa Anthony Black, 2016-07-01 South Africa's high rate of unemployment 26.4% makes it a complete outlier compared with other middle income countries Indeed the unemployment rate rises to 36% if discouraged workers are taken into account It underpins extreme poverty and inequality and is a major contributor to social dislocation If it were not for increased social payments poverty would have continued to increase since the advent of democracy in 1994 Unemployment also represents a huge cost to growth This book focuses on the growth path of the economy The starting point is that while more rapid economic expansion is an important objective at any given level of growth the economy as a whole needs to become more labour

absorbing The central question posed is how to bring about changes in the economic structure and pattern of development which would lead to the attainment of this objective The authors argue that employment needs to be much more centrally positioned within the economic and social policy arena They emphasise innovative approaches within a broader focus on the growth path and employment intensive growth And they posit that the negative impact of previous distortions requires much more than a levelling of the playing field via market based reforms Apart from presenting an alternative growth path which could start to shift the economy in new directions the book tackles themes which have received only limited attention such as wage subsidies youth unemployment and employment growth in rural areas *Creating the New African University*

,2023-05-25 *Creating the New African University* grapples with the existence of African universities particularly in post independent Africa where Higher Education Institutions HEIs are supposed to live up to the expectations of being adaptive in dealing with prevalent complex dynamic contemporary and future challenges facing African societies The book tackles the issue of what ought to be done for African universities to maintain a structure and identity that ensures their relevance in Africa s development through generating and transforming knowledge into actions for the common good It engages issues within the context of how post colonial transformative obligations have been managed in light of the prevalent epistemological and pedagogical underpinnings that form the foundations of these universities as they seek to break from the clutches of colonial legacies This book further highlights an urgent need to do away with silos and embrace a multidisciplinary interdisciplinary transdisciplinary and cross disciplinary dialogical approach towards knowledge generation Such an approach is essential in efforts aimed at enhancing the sustainable reconfiguration of university structures and functions whilst linking knowledge produced to diverse social economic and political facets of African societies in ways that promote and sustain competitiveness in a rapidly globalising world beset with technological advancements *Higher Education in Regional and City Development: The Free State, South Africa 2012* OECD,2012-02-14 This publication explores a range of helpful policy measures and institutional reforms to mobilise higher education for regional development in the Free State of South Africa **Scholarship Models around the Globe - Embracing Diversity, New Trends and Opportunities**

Katherine Meltzoff,Elsa Justino,Ines Casquilho-Martins,2025-05-14 *Scholarship Models Around the Globe Embracing Diversity New Trends and Opportunities* offers a comprehensive exploration of global higher education funding systems and their impact on students academic journeys and career trajectories With a focus on equity inclusion and the challenges faced by historically marginalized groups this volume provides insights into diverse scholarship models across different regions By examining the interplay between financial support and access to higher education the book highlights both the successes and limitations of various funding initiatives It explores social mobility fosters sustainable development and addresses systemic inequalities while offering policy recommendations for more inclusive and effective programmes Engaging with comparative case studies from Africa Latin America the Middle East and beyond this volume is an essential

resource for researchers educators and policymakers seeking to understand the evolving dynamics of higher education funding Rich with diverse perspectives this book highlights emerging trends and innovative practices making it an essential part of the ongoing conversation on educational equity and the future of global scholarship programs In Pursuit of Epistemic Healing in South African Universities Wanelisa Xaba,2025-09-30 This book demonstrates the epistemic challenges in the South African education system and asks readers to think critically about the university s role in a decolonial future Wanelisa Xaba reveals how Western colonial educational models severed indigenous ways of knowing and learning across the Global South and settler colonial contexts Presenting narratives capturing ongoing histories of violence this book shows how Black South African students navigate intersecting identities of race class gender and spirituality within university settings It shows how racial discrimination from fellow students academics and staff coupled with discriminatory language policies financial exclusion and violent colonial curricula affects Black students wellbeing on university campuses Xaba argues that these intersecting colonial violences mirror spiritual violence hinder their holistic citizenship in South African universities and result in psycho spiritual disease By centring Black students voices this book provides crucial insights for educators policymakers activists healers and institutions committed to creating affirming academic spaces and epistemic healing It is an insightful read for scholars researching decoloniality in higher education as well as students of feminist studies decolonial theory educational justice and critical university studies **Empowering Novice Academics for Student Success** Dr Johann Hugo,2021-04-26 This book is essential for academics that enter the field of higher education and training as it focuses on preparing teachers and trainers to respond appropriately to student success challenges Student success is a burning issue both globally and locally While student achievement is determined by a combination of factors teachers and their teaching practices do matter Higher education teachers are expected to fulfil different roles at different times such as planning for curriculum implementation mentorship and coaching facilitating learning resource development and student assessment Against this background the primary purpose of Empowering novice academics for student success Wearing different hats is building the capacity of novice teachers and trainers to play an influential role in increasing student success throughput *Financing Higher Education Worldwide* D. Bruce Johnstone,Pamela N. Marcucci,2010-06-07 No issue in higher education is as salient or as controversial as finance As demand for higher education around the world grows so do the costs associated with it especially as governments shoulder less of the burden Tuition fees rise and student loan debt grows Who pays for these surging costs Who should pay D Bruce Johnstone and Pamela N Marcucci examine the universal phenomenon of cost sharing in higher education where financial responsibility shifts from governments and taxpayers to students and families They find that growing costs for education far outpace public revenue streams that once supported it Even with financial aid and scholarships defraying some of these costs students are responsible for a greater share of the cost of higher education Featuring comprehensive economic and policy data the authors international comparative approach

shows how economically diverse countries all face similar cost sharing challenges So who should pay for higher education While cost sharing is both politically and ideologically debated Johnstone and Marcucci contend that for almost all countries it is imperative for the financial health of colleges and universities bringing better efficiency equity and responsiveness Financing Higher Education Worldwide combines sophisticated economic explanations with sensitive political and cultural analyses of the financial pressures facing higher education throughout the world *Homeschooling High School* Shirley Erwee,2014-08-28 Prospective homeschoolers are parents looking for an alternative to the mainstream educational system for their offspring But homeschooling children at high school level strikes fear into even the most dedicated of homeschoolers They need information and answers to their questions And with the current educational and unemployment problems in South Africa young people need clear direction and guidance to help them achieve their goals In addition to exploring the popular ways to gaining a recognised matric certificate outside the formal school system Homeschooling High School also challenges readers to rethink their values particularly the value they place on certification and to consider some unconventional or alternative paths to success In a clearly presented format the book includes advice on legal matters identifying appropriate courses sourcing study material tips on entrepreneurship financing tertiary studies and the testimonies of successful homeshooled graduates Homeschooling High School is a comprehensive guide to plotting a path through high school and beyond **Women, Economic Development, and Higher Education** Diane E. Eynon,2017-06-19 This book is a multi disciplinary exploration of the intersection relationship and connection between higher education economic development and gender in post Apartheid South Africa In just twenty years South Africa has rewritten its constitution restructured its macroeconomic growth and development policies restructured its higher education system and made a commitment to provide opportunity for all its citizens specifically those who have historically been marginalized women and blacks Eynon weaves together these unique perspectives to illustrate how these multiple domains map onto women and the critical role they play in the present and future of the country Gender equality and women s empowerment and education were considered key drivers to South Africa s transformation **Student Politics in Africa** Luescher, Thierry M.,Klemencic, Manja,2016-05-12 The second volume of the African Higher Education Dynamics Series brings together the research of an international network of higher education scholars with interest in higher education and student politics in Africa Most authors are early career academics who teach and conduct research in universities across the continent and who came together for a research project and related workshops and a symposium on student representation in African higher education governance The book includes theoretical chapters on student organising student activism and representation chapters on historical and current developments in student politics in Anglophone and Francophone Africa and in depth case studies on student representation and activism in a cross section of universities and countries The book provides a unique resource for academics university leaders and student affairs professionals as well as student leaders and

policy makers in Africa and elsewhere The Youth Dividend Jan H. Hofmeyr, 2012 **Faculty Perspectives on Vocational Training in South Africa** Eunice Ivala, Chaunda Scott, 2019-03-06 The Cape Peninsula University of Technology CPUT is one of four Universities of Technology established by the South African government in 2005 with a focus on vocational training This book presents faculty experiences of CPUT's innovative work integrated learning and teaching model as well as findings from practice based research being done in the institution The purpose of this volume is to be a resource for other institutions in South Africa that wish to try similar strategies as well as a to trigger a community of practice with vocationally oriented institutions outside of South Africa Postgraduate Research Engagement in Low Resource Settings Atibuni, Dennis Zami, 2019-09-27 The general academic progression and particularly research engagement of postgraduate students is characterized by various problems such as high dropout rates longer completion times low graduation rates and high repetition or retake rates This means that there are far fewer students pursuing postgraduate studies at tertiary institutions and universities than there are at the lower levels of education Yet there is growing demand for postgraduate education given its strong projected association with socioeconomic transformation at national and international levels among developed and developing countries alike Postgraduate Research Engagement in Low Resource Settings sets out to garner strategies for fostering efficiency of research conduct among the students and faculty so as to enhance high quality output for the envisaged personal societal national and international socioeconomic transformation Covering a range of topics such as intellectual property mental health and quality assurance this book is ideal for research supervisors higher education faculty librarians educators administrators researchers academicians and students **Utilisation of South African Research on Higher Education** Jan Botha, Gabriele Vilyte, 2021-10-26 The relationship between research on the one hand and policy practice on the other hand is complicated and collaboration between scholars in research on higher education RHE and institutional research IR practitioners is often lacking This book marks a collaborative effort of a diverse range of South African RHE and IR scholars and asks the overarching questions What do we know about the utilisation of South African research on higher education SARHE and its subset of research known as Institutional Research How and by whom is this research used The book begins by looking at the historical underpinnings of SARHE and delineating the shape and size of this body of research This is followed by a series of case studies on South African Higher Education institutions and governmental bodies investigating how when and by whom are research on higher education and institutional research used in the decision making of these organisations This book is the first of its kind in South Africa and sets out to lay the groundwork for further research into the use uptake and utilisation of RHE and IR in this country
