The Emerald Light In The Air Stories:

The Emerald Light in the Air Donald Antrim, 2014-09-02 Nothing is simple for the men and women in Donald Antrim's stories. As they do the things we all do: bum a cigarette at a party, stroll with a girlfriend down Madison Avenue, take a kid to the zoo, they're confronted with their own uncooperative selves. These artists, writers, lawyers, teachers, and actors make fools of themselves, spiral out of control, have delusions of grandeur, despair, and find it hard to imagine a future. They talk, they listen, they hope, they dream. They look for communion in a city both beautiful and menacing, which can promise so much and yield so little. But they are hungry for life. They want to love and be loved. These stories, all published in *The New Yorker* over the last fifteen years, make it clear that Antrim is one of America's most important writers. His work has been praised by his significant contemporaries, including Jonathan Franzen, Thomas Pynchon, Jeffrey Eugenides, and George Saunders, who described *The Verificationist* as one of the most pleasure-giving, funny, perverse, complicated, addictive novels of the last twenty years. And here is Antrim's best book yet, the story collection that reveals him as a master of the form. **New American Stories** Ben Marcus, 2015-07-21 In *New American Stories*, the beautiful, the strange, the melancholy, and the sublime all come together to show the vast range of the American short story. In this remarkable anthology, Ben Marcus has corralled a vital and artistically singular crowd of contemporary fiction writers. Collected here are practitioners of deep realism, mind-blowing experimentalism, and every hybrid in between. Luminaries and cult authors stand side by side with the most compelling new literary voices. Nothing less than the American short story renaissance, distilled down to its most relevant, daring, and unforgettable works, *New American Stories* puts on wide display the true art of an American idiom.

The Short Story Andrew Kahn, 2021-12-09 What defines a modern short story is much more than a question of length Despite the efforts of early pioneers like Edgar Allan Poe the genre was originally synonymous with the anecdote or tale and seen more as entertainment than art However it has become far more than that and this Very Short Introduction considers afresh the form's ongoing innovations in plot construction capacity for psychological insight and ability to offer intensely concentrated perceptions This book charts the rise of the short story from its original appearance in magazines and newspapers largely in the United States and Great Britain For much of the nineteenth century tales were written for the press and the form's history is marked by engagement with popular fiction From the later nineteenth century the short story earned a reputation for its skillful use of plot design and character study distinct from the novel After the First World War it found outlets in high brow publications and single author collections as well as anthologies were regularly published Exploring the form's techniques and themes Andrew Kahn considers the continuity and variation in key structures and techniques such as the beginning the creation of voice the ironic turn or plot twist and how writers manage endings Throughout he draws on examples from an international and flourishing corpus of work with close analysis of classic and lesser known stories by American Canadian Irish Australian Russian and French masters such as James Baldwin Grace Paley Alice Munro Elizabeth Taylor William Trevor Helen Garner Chekhov and Guy de Maupassant Very Short Introductions Brilliant Sharp Inspiring ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable
