The end of Reconstruction

Reconstruction, the tumultuous period following the American Civil War, came to an end in 1877. This period was marked by efforts to rebuild the South, reintegrate the Confederate states back into the Union, and establish and protect rights for newly freed African Americans. However, these efforts were not without significant challenges, and the Reconstruction era ended a long time for many ways.

The catalyst for the end of Reconstruction was the Compromise of 1877. As part of this agreement, Democrats conceded the presidency to Republicans in return, Republicans agreed to remove federal troops from the South. The removal of federal troops had been a key factor in ensuring the gains made by African Americans during Reconstruction. With their removal, Southern states were free to act without much federal interference.

Shaping Science with Rhetoric Leah Ceccarelli,2010-11-15 How do scientists persuade colleagues from diverse fields to cross the disciplinary divide risking their careers in new interdisciplinary research programs Why do some attempts to inspire such research win widespread acclaim and support while others do not In *Shaping Science with Rhetoric* Leah Ceccarelli addresses such questions through close readings of three scientific monographs in their historical contexts Theodosius Dobzhansky's *Genetics and the Origin of Species* 1937 which inspired the modern synthesis of evolutionary biology Erwin Schrödinger's *What Is Life* 1944 which catalyzed the field of molecular biology and Edward O Wilson's *Consilience* 1998 a so far not entirely successful attempt to unite the social and biological sciences She examines the rhetorical strategies used in each book and evaluates which worked best based on the reviews and scientific papers that followed in their wake Ceccarelli's work will be important for anyone interested in how interdisciplinary fields are formed from historians and rhetoricians of science to scientists themselves

The Vision of Rome in Late Renaissance France Margaret M. McGowan,2000-01-01 The French vision of Rome was initially determined by travel journals guide books and a rapidly developing trade in antiquities Against this background Margaret McGowan examines work by writers such as Du Bellay Grevin Montaigne and Garnier and by architects and artists such as Philibert de L'Orme and Jean Cousin showing how they drew upon classical ruins and reconstructions not only to re-enact past meanings and achievements but also more dynamically to interpret the present She explains how Renaissance Rome enhanced by the presence of so many signs of ancient grandeur provided a fertile source of artistic creativity Study of the fragments of the past tempted writers to an imaginative reconstruction of whole forms while the new structures they created in France revealed the artistic potency of the incomplete and the fragmentary

Bernardino de Sahagun Miguel Leon-Portilla,2012-09-13 He was sent from Spain on a religious crusade to Mexico to detect the sickness of idolatry but Bernardino de Sahagún c 1499-1590 instead became the first anthropologist of the New World The Franciscan monk developed a deep appreciation for Aztec culture and the Nahuatl language In this biography Miguel León Portilla presents the life story of a fascinating man who came to Mexico intent on changing the traditions and cultures he encountered but instead ended up working to preserve them even at the

cost of persecution Sahagún was responsible for documenting numerous ancient texts and other native testimonies. He persevered in his efforts to study the native Aztecs until he had developed his own research methodology becoming a pioneer of anthropology. Sahagún formed a school of Nahuatl scribes and labored with them for more than sixty years to transcribe the pre-conquest language and culture of the Nahuatl. His rich legacy: our most comprehensive account of the Aztecs is contained in his *Primeros Memoriales* 1561 and *Historia General de las Cosas de Nueva España* 1577. Near the end of his life at age 91 Sahagún became so protective of the Aztecs that when he died his former Indian students and many others felt deeply affected. Translated into English by Mauricio J. Mixco León Portilla's absorbing account presents Sahagún as a complex individual: a man of his times yet a pioneer in many ways. Fiscal Policy under Low Interest Rates Olivier Blanchard, 2023-01-10. Rethinking fiscal and monetary policy in an economic environment of high debt and low interest rates. Policy makers in advanced economies find themselves in an unusual fiscal environment: debt ratios are historically high and once the fight against inflation is won, real interest rates will likely be very low again. This combination calls for a rethinking of the role of fiscal and monetary policy and this is just what Olivier Blanchard proposes in *Fiscal Policy under Low Interest Rates*. There is a wide set of opinions about the direction that fiscal policy should take. Some pointing to the high debt levels make debt reduction an absolute priority. Others pointing to the low interest rates are less worried; they suggest that there is still fiscal space and if justified, further increases in debt should not be ruled out. Blanchard argues that low interest rates decrease not only the fiscal costs of debt but also the welfare costs of debt. At the same time, he shows how low rates decrease the room to maneuver in monetary policy and thus increase the benefits of using fiscal policy, including deficits and debt, for macroeconomic stabilization. In short, low rates imply lower costs and higher benefits of debt. Having sketched what optimal policy looks like, Blanchard considers three examples of fiscal policy in action: fiscal consolidation in the wake of the Global Financial Crisis, the large increase in debt in Japan, and the current US fiscal and monetary policy mix. His conclusions hold practical implications for economic and fiscal policy makers, bankers, and politicians around the world. *The Routledge Companion to the Practice of Christian Theology* Mike Higton, Jim Fodor, 2015-03-24. This Companion introduces readers to the practice of Christian theology, covering what theologians do, why they do it, and what steps readers can take in order to become theological practitioners themselves. The volume aims to capture the variety of practices involved in doing theology, highlighting the virtues that guide them and the responsibilities that shape them. It also shows that the description of these practices, virtues, and responsibilities is itself theological: what Christian theologians do is shaped by the wider practices and beliefs of Christianity. Written by a team of leading theologians, the Companion provides a unique resource for students and scholars of theology alike.
