Frederick C. Schneid

The Enlightened Soldier Scharnhorst And The Militarische Gesellschaft In Berlin 181805:

The Enlightened Soldier. Scharnhorst and the Militärische Gesellschaft in Berlin, 1801-1805. [Mit Portr.] (1. Publ.) - New York [usw.]: Praeger (1989). XV, 244 S. 8° Charles E. White,1989 This volume explores the essence of

German military professionalism as exemplified by the nineteenth century Prussian German Staff The study focuses on the most important Prussian military reformer Gerhard Johann David von Scharnhorst who in 1801 founded the Militarische Gesellschaft Military Society in Berlin The Gesellschaft became the focal point for the transformation of the Prussian army from a robotic war machine into a modern fighting force that was instrumental in defeating Napoleon in 1813 and in 1815 The author examines the following elements of this military society its membership the specifics of its agenda the intellect imagination and habits of thought reflection and objective analysis of its members Scharnhorst s particular contributions

The Enlightened Soldier Charles Edward White,1986 **The Wandering Army** Huw J. Davies,2022-01-01 A compelling history of the British Army in the eighteenth and nineteenth centuries showing how the military gathered knowledge from campaigns across the globe Superb analysis William Anthony Hay Wall Street Journal At the outbreak of the War of Austrian Succession in 1742 the British Army s military tactics were tired and outdated stultified after three decades of peace The army s leadership was conservative resistant to change and unable to match new military techniques developing on the continent Losses were cataclysmic and the force was in dire need of modernization both in terms of strategy and in leadership and technology In this wide ranging and highly original account Huw J Davies traces the British Army s accumulation of military knowledge across the following century An essentially global force British armies and soldiers continually gleaned and synthesized strategy from war zones the world over from Europe to the Americas Africa and Asia Davies records how the army and its officers put this globally acquired knowledge to use exchanging information and developing into a remarkable vehicle of innovation leading to the pinnacle of its military prowess in the nineteenth century

Parameters ,2000 **War, Strategy, and Military Effectiveness** Williamson Murray,2011-09-30 This collection of articles represents Professor Williamson Murray s efforts to elucidate the role that history should play in thinking about both the present and the future They reflect three disparate themes in Professor Murray s work his deep fascination with history and those who have acted in the past his fascination with the similarities in human behavior between the past and the present and his belief that the study of military and strategic history can be of real use to those who will confront the daunting problems of war and peace in the twenty first century The first group of essays addresses the relevance of history to an understanding of the present and to an understanding of the possibilities of the future The second addresses the possible direct uses of history to think through the problems involved in the creation of effective military institutions The final group represents historical case studies that serve to illuminate the present

European Armies of the French Revolution, 1789-1802 Frederick C. Schneid,2015-05-26 Upon France s defeat of the vaunted Prussian army at the Battle of Valmy in

1792 German author Johann Wolfgang von Goethe remarked From this place and from this day forth commences a new era in the world s history The pronouncement proved prescient for this first major victory emboldened France s revolutionary government to end the monarchy and establish the first French Republic with dramatic consequences for the wars that soon roiled the continent In nine essays by leading scholars *European Armies of the French Revolution 1789-1802* provides an authoritative continent wide analysis of the organization and constitution of these armies the challenges they faced and the impact they had on the French Revolutionary Wars and on European military practices The volume opens with editor Frederick C Schneid s substantial introduction which reviews the strategies and policies of each participating state throughout the wars establishing a clear context for the essays that follow Drawing on the latest research and thought each contributor focuses on the army of a particular power France Prussia Austria Russia Britain Spain the German principalities the Italian states and the Ottoman Empire Their essays examine the system tactics operations and strategies that each army adopted and developed in the Revolutionary Wars The authors explore the conflicts wider influence on these policies and practices along with significant battles and actions Unique in its approach and reach this volume offers a thorough and closely observed view of the composition scope and purpose of the European armies at the turn of the nineteenth century It enhances and extends our insights into how the military powers of the post French Revolutionary era and thus the era itself took shape

Blücher Michael V. Leggiere, 2014-01-29 One of the most colorful characters in the Napoleonic pantheon Gebhard Leberecht von Blücher 1742-1819 is best known as the Prussian general who along with the Duke of Wellington defeated Napoleon at the Battle of Waterloo Throughout his long career Blücher distinguished himself as a bold commander but his actions at times appeared erratic and reckless This magnificent biography by Michael V Leggiere an award winning historian of the Napoleonic Wars is the first scholarly book in English to explore Blücher s life and military career and his impact on Napoleon Drawing on exhaustive research in European archives Leggiere eschews the melodrama of earlier biographies and offers instead a richly nuanced portrait of a talented leader who contrary to popular perception had a strong grasp of military strategy Nicknamed Marshal Forward by his soldiers he in fact retreated more often than he attacked Focusing on the campaigns of 1813 1814 and 1815 Leggiere evaluates the full effects of Blücher s operations on his archenemy In addition to providing military analysis Leggiere draws extensively from Blücher s own writings to reveal the man behind the legend Though tough as nails on the outside Blücher was a loving family man who deplored the casualties of war This meticulously written biography enhanced by detailed maps and other illustrations fills a large gap in our understanding of a complex man who for all his flaws and eccentricities is justly credited with releasing Europe from the yoke of Napoleon s tyranny

The Wars of Napoleon Charles J. Esdaile, 2014-02-04 A survey of the Napoleonic Wars The central theme is the scale of French military power and its impact on other European states from Portugal to Russia and from Scandinavia to Sicily

Airpower Reborn John Andreas Olsen, 2015-04-15 *Airpower Reborn* offers a conceptual approach

to warfare that emphasizes airpower's unique capability to achieve strategic effects. Six world leading theorists argue that a viable strategy must transcend the purely military sphere, view the adversary as a multi-dimensional system, and pursue systemic paralysis and strategic effects rather than military destruction or attrition. The book is divided into three parts. The first section presents a historical perspective on airpower theory and airpower strategy, tracing their evolution from the 1920s to the 1980s. The second section contains in-depth examinations of the strategic concepts that John R. Boyd and John A. Warden developed in the 1980s and 1990s, with an emphasis on their contemporary relevance. The final section provides further context on modern airpower theory and strategy. Theory in this setting serves as the basic paradigm; strategy represents its generic mechanisms; centered application and plans of campaign constitute the specific steps for any given situation. In short, the authors look beyond the land-centric battlefield-oriented paradigm that has continued to dominate military theories and strategies long after airpower offered new options. The book acknowledges the essential role of advanced technology in improving airpower capabilities but emphasizes that air services must cultivate and harness the intellectual acumen of airmen and encourage officers and men to think conceptually and strategically about the application of aerospace power. Modern airpower can offer political decision makers more and better options provided the underlying strategy coherently links the application of airpower directly to the end state objectives rather than limiting it to the battle. The book recommends that all countries should consider establishing a dynamic and vibrant environment for mastering aerospace history, theory, strategy, and doctrine, a milieu for cultivating broader knowledge of and insight into airpower and a setting in which airpower experts have the opportunity to communicate their narrative to politicians, the media, and fellow officers and to interact to mutual benefit with experts from all sectors of governance. This effort should emphasize the potentially unique contribution of airpower to political objectives and joint operations and in turn connect to operational headquarters that do operational planning. Mastering such strategic thought lies at the heart of the military profession but it requires in-depth knowledge and understanding of theory, strategy, and airpower and transcends traditional metrics.

Philosophers of War Daniel Coetzee, Lee W. Eysturliid, 2013-10-21. This user-friendly reference systematically covers the entire intellectual history of strategy and war in all cultures and all times. Each culture has had its Machiavelli, its Sun Tzu, its own Mohammed-like or Napoleonic figure. This encyclopedia ranges across the world to provide entries on every significant military and strategic thinker in human history as well as a number of military cultures covering Chinese, Western Indian, Islamic, and other cultures. Each entry supplies a brief biography, a synopsis of the writer's theories, their success or failure, and their impact on other thinkers and military practitioners. The unique coverage allows readers to cross cultural barriers and gain access to sources in languages as diverse as Arabic and German and to note key similarities and contrasts. The relative importance and contribution of each individual to intellectual progress is noted, as is the greater significance of specific schools of thought and debates. *Military Review*, 2014. *Ethical Dilemmas in the Global Defense Industry*

Daniel Schoeni,Tobias Vestner,2023-03-17 The defense industry develops produces and sells weapons that cause great harm It operates at the intersection of the public and private sectors with increased reliance on technology companies This book brings together the diverse perspectives of scholars and practitioners from academia government service the military and the private sector to discuss the moral and legal challenges facing the global defense industry and to introduce solutions that are innovative effective and practical

The Wars of the French Revolution Charles J Esdaile,2018-10-03 The Wars of the French Revolution 1792 1801 offers a comprehensive and jargon free coverage of this turbulent period and unites political social military and international history in one volume Carefully designed for undergraduate students through twelve chapters this book offers an introduction to the origins and international context of the French Revolution as well as an in depth examination of the reasons why war began Aspects unpicked within the book include how France acquired a de facto empire stretching from Holland to Naples the impact of French conquest on the areas concerned the spread of French ideas beyond the frontiers of the French imperium the response of the powers of Europe to the sudden expansion in French military power the experience of the conflicts unleashed by the French Revolution in such areas as the West Indies Egypt and India and the impact of war on the Revolution itself Offering extensive geographical coverage and challenging many preconceived ideas The Wars of the French Revolution 1792 1801 is the perfect resource for students of the French Revolution and international military history more broadly

The Rise of Prussia 1700-1830 Philip G. Dwyer,2014-02-04 At the beginning of the eighteenth century Prussia was but one in a mosaic of German states but it rose to be the unchallenged leader of German speaking Europe after the fall of Napoleon The book goes beyond the political military and diplomatic concerns of the Prussian elite whose record of events is the one upon which most histories of Prussia are based and explains its rise in relation to Prussian society as a whole Political analysis is integrated with material on such areas as agrarian society urban life and religion which are not fully examined in existing histories

Chief of Staff, Vol. 1 David Zabecki,2013-11-15 The two volume Chief of Staff examines the history development and role of the military duty position of the chief of staff Many books have studied history s great commanders and the art of command None have focused exclusively on the chief of staff that key staff officer responsible for translating the ideas of the commander into practical plans that common soldiers can execute successfully on the battlefield In some cases it is almost impossible to think of certain great commanders without also thinking of their chief of staff Napoleon s chief of staff Berthier and Eisenhower s chief of staff Bedell Smith are two examples that are profiled in this work Zabecki and his collaborators examine the history development and role of the chief of staff primarily through profiles of the most important practitioners of the art These books are published in cooperation with the Association of the United States Army

Napoleon and the Struggle for Germany: Volume 1, The War of Liberation, Spring 1813 Michael V. Leggiere,2015-04-09 This is the first comprehensive history of the campaign that determined control of Germany following Napoleon s catastrophic defeat in Russia Michael V

Leggiere reveals how in the spring of 1813 Prussia the weakest of the great powers led the struggle against Napoleon as a war of national liberation Using German French British Russian Austrian and Swedish sources he provides a panoramic history that covers the full sweep of the battle for Germany from the mobilization of the belligerents strategy and operations to coalition warfare diplomacy and civil military relations He shows how Russian war weariness conflicted with Prussian impetuosity resulting in the crisis that almost ended the Sixth Coalition in early June In a single campaign Napoleon drove the Russo Prussian army from the banks of the Saale to the banks of the Oder The Russo Prussian alliance was perilously close to imploding only to be saved at the eleventh hour by an armistice

Napoleon and the Struggle for Germany

Michael V. Leggiere, 2015-04-09 Volume 2 The first comprehensive history of the decisive Fall Campaign of 1813 which determined control of Central Europe following Napoleon's catastrophic defeat in Russia the previous year Using German French British Russian Austrian and Swedish sources Michael V Leggiere provides a panoramic history which covers the full sweep of the struggle in Germany He shows how Prussia the weakest of the Great Powers led the struggle against Napoleon and his empire By reconstructing the principal campaigns and operations in Germany the book reveals how the defeat of Napoleon in Germany was made possible by Prussian victories In particular it features detailed analysis of the strategy military operations and battles in Germany that culminated with the epic four day Battle of Nations at Leipzig and Napoleon's retreat to France This study not only highlights the breakdown of Napoleon's strategy in 1813 but constitutes a fascinating study in coalition warfare international relations and civil military relations Provided by publisher

Europe Philip G. Dwyer, 2014-07-22 Two hundred years ago Napoleon was at the apogee of his power in Europe This broad ranging reassessment explores the key themes presented by his extraordinary career from his rise to power and the foundation of the imperial state to the final defeat of his grand vision following the doomed invasion of Russia It was a period of almost uninterrupted war in Europe the consequences of victory or failure repeatedly transforming the political map But Napoleon's impact reached much deeper than this achieving the ultimate destruction of the ancien regime and feudalism in Europe and leaving a political and juridical legacy that persists today

Absolute War Mark Hewitson, 2017-02-09 Wars have played a fundamental part in modern German history Although infrequent conflicts involving German states have usually been extensive and often catastrophic constituting turning points for Europe as a whole *Absolute War* is the first in a series of studies from Mark Hewitson that explore how such conflicts were experienced by soldiers and civilians during wartime and how they were subsequently imagined and understood during peacetime from Clausewitz and Kleist to J nger and Adorno Without such an understanding it is difficult to make sense of the dramatic shifts characterising the politics of Germany and Europe over the past two centuries The studies argue that the ease or reluctance with which Germans went to war and the far reaching consequences of such wars on domestic politics were related to soldiers and civilians attitudes to violence and death as well as to long term transformations in contemporaries conceptualisation of conflict *Absolute War*

reassesses the meaning of military conflict for the millions of German subjects who were directly implicated in the Revolutionary and Napoleonic Wars Based on a re reading of contemporary diaries letters memoirs official correspondence press reports pamphlets treatises plays and cartoons this volume refocuses attention on combat and conscription as the central components of new forms of mass warfare It concentrates in particular on the impact of violence killing and death on many soldiers and some civilians experiences and subsequent memories of conflict War has often been conceived of as an act of violence pushed to its utmost bounds as Clausewitz put it but the relationship between military conflicts and violent acts remains a problematic one
