Flourishing Neil Messer, 2013-12-20 We use such words as health disease and illness all the time without stopping to consider exactly what we understand by them Yet their meanings are far from straightforward and disagreements over them have important practical consequences in health care and bioethics In this book Neil Messer develops a distinctive and innovative theological account of these concepts He engages in earnest with debates in the philosophy of medicine and disability studies and draws on a wide array of theological resources including Barth Bonhoeffer Aquinas and recent disability theologies By enabling us to understand health in the wider perspective of the flourishing and ultimate destiny of human beings Messer's *Flourishing* sheds new light on a range of practical bioethical issues and dilemmas [The Fault in Our SARS](#) Rob Wallace, 2023-02-02 Proposes the pragmatic changes we must make to survive COVID and the worst of the new diseases on the horizon The Trump administration's neglect and incompetence helped put half a million Americans in the ground dead from COVID 19 Joe Biden was elected president in part on the promise of setting us on a science driven course correction but a little more than a year later another half a million Americans were killed by the virus What happened In *The Fault in Our SARS* evolutionary epidemiologist Rob Wallace catalogs the Biden administration's failures in controlling the outbreak He also shows that beyond matters of specific political persona or party it was a decades long structural decline associated with putting profits ahead of people that gutted U S public health COVID 19 isn't just an American tragedy Each in its own way countries around the world following the profit first model failed their people Global vaccination campaigns were bottled up by efforts to protect pharmaceutical companies intellectual property rights Economies were treated as somehow more real than the people and ecologies upon which they depend Frustrated populations pushed back against lockdowns abuses of governmental trust and fair or not the very concept of public health A social rot meanwhile wended its way into the heart of the sciences that tasked with controlling disease serve the systems that helped bring about COVID 19 in the first place In *The Fault in Our SARS* Wallace and an array of invited contributors aim to strip down the capitalist social psychology that in effect protected the SARS virus The team proposes instead new approaches in health and ecology that appeal both to humanity's highest ideals and the pragmatic changes we must make to survive COVID and the worst of the new diseases on the horizon **\$8333** Monica Leonelle, 2025-01-21 Monica Leonelle and Russell Nohelty have written millions and millions of words about authorship in our combined 25 years doing it Between our blogs our 40 books and our hundreds of talks interviews and podcast episodes admittedly it's a little intimidating 8333 is our attempt to take everything we've ever thought or written and combining it into one book filled with the most powerful and impactful things we've ever written If you want to read one book that fully captures the best nuggets from our catalog this is the book Think of it as a greatest hits album of our best ideas together for the first time in one place 8333 12 Concepts to Six Figures is not just another book on writing it's a complete actionable roadmap designed to transform your author career in the next 12 months
