The Edge Of Reality:

The Edge of Reality J. Allen Hynek, Jacques Vallee, 2023-11-06 From the outset Hynek and Vallee make their position clear UFOs represent an unknown but real phenomenon The far reaching implications take us to the very edge of what we consider known and real in our physical environment Perhaps say the authors UFOs signal the existence of a domain of nature as yet totally unexplored In this mind stretching book the authors sample UFO reports including those allegedly involving humanoids and describe the perceived patterns in the behavior of the phenomenon They also establish a framework for further study Where might such study lead What can be studied and how What is the real nature of the UFO phenomenon Does it originate with the actions of other intelligences in the universe If so where and what might they be Does the UFO phenomenon have a purely physical explanation or is there a vast hidden realm that holds the solution In this invaluable work we gain insight into the thinking of Hynek and Vallee s research and investigations into UFOs including Project Blue Book the Pascagoula case and the Betty and Barney Hill experience

The Edge of Reality Tony Thompson, 2019-12-06 Living as a normal middle class family of four this family learns to deal with the old phrase I thought that only happened to other people as one of them is framed for a murder Framed so well the entire family is forced on the run from the law in order to keep them together Uprooting their lives and taking on new identities their adventures take them through hiding out in big cities to living in the wilds in the Ozark mountains Fighting against the elements of nature to protecting one another from wild animal attacks Finding lots of adventure and meeting many new friends along the way and finding out the hard way that blood is not always thicker than water Coping with deaths of family and friends as they suffer the pain they must continue their journey of protecting themselves and each other as they are each subjected to possibilities of death on their travels to the unknown driven by destiny surviving by wit and instinct This family leaves a lifelong favorable impression on the lands they travel and the hearts they touch That is until the long arm of the law reaches out and tears them from the new lives they had worked so hard to create effecting so many in a devastating manner as the children are forced by law to live with the true murderer as ruthless as he is and made to survive in unspeakable circumstances protecting each other along the way as Mom and Dad are thrown in jail for a murder they did not commit Though as the law tightens its grip unforeseen allies formed along their journey come to the rescue
