to predict our future in this startling and hopeful prophecy for how our present era of civil unrest will resolve over the next ten years and what our lives will look like once it has Twenty five years ago Neil Howe and the late William Strauss dazzled the world with a provocative new theory of American history Looking back at the last 500 years they d uncovered a distinct pattern modern history moves in cycles each one lasting roughly eighty to one hundred years the length of a long human life with each cycle composed of four eras or turnings that always arrive in the same order and each last about twenty years The last of these eras the fourth turning was always the most perilous a period of civic upheaval and national mobilization as traumatic and transformative as the New Deal and World War II the Civil War or the American Revolution Now right on schedule our own fourth turning has arrived And so Neil Howe has returned with an extraordinary new prediction What we see all around us the polarization the growing threat of civil conflict and global war will culminate by the early 2030s in a climax that poses great danger and yet also holds great promise perhaps even bringing on America s next golden age Every generation alive today will play a vital role in determining how this crisis is resolved for good or ill Illuminating sobering yet ultimately empowering *The Fourth Turning Is Here* takes you back into history and deep into the collective personality of each living generation to make sense of our current crisis explore how all of us will be differently affected by the political social and economic challenges we ll face in the decade to come and reveal how our country our communities and our families can best prepare to meet these challenges head on
