Kelby, 2012-02-27 Scott Kelby author of The Digital Photography Book the best selling digital photography book of all time is back with another follow up to his smash best seller with an entirely new book that picks up right where volume 3 left off It's even more of that Ah ha so that's how they do it straight to the point skip the techno jargon stuff people can really use today and that made volume 1 the world's best selling book on digital photography This book truly has a brilliant premise and here's how Scott describes it If you and I were out on a shoot and you asked me Hey Scott I want the light for this portrait to look really soft and flattering How far back should I put this softbox I wouldn't give you a lecture about lighting ratios or flash modifiers In real life I'd just turn to you and say Move it in as close to your subject as you possibly can without it actually showing up in the shot Well that's what this book is all about you and I out shooting where I answer questions give you advice and share the secrets I've learned just like I would with a friend without all the technical explanations and techie photo speak Each page covers a single concept on how to make your photography better Every time you turn the page you'll learn another pro setting tool or trick to transform your work from snapshots into gallery prints If you're tired of taking shots that look okay and if you're tired of looking in photography magazines and thinking Why don't my shots look like that then this is the book for you This isn't a book of theory full of confusing jargon and detailed concepts This is a book on which button to push which setting to use and when to use it With another 200 of the most closely guarded photographic tricks of the trade this book gets you shooting dramatically better looking sharper more colorful more professional looking photos every time *The Well-Trained Mind* Susan Wise Bauer, Jessie Wise, 2016-08-09 Is your child getting lost in the system

becoming bored losing his or her natural eagerness to learn If so it may be time to take charge of your child's education by doing it yourself The Well Trained Mind will instruct you step by step on how to give your child an academically rigorous comprehensive education from preschool through high school one that will train him or her to read to think to understand to be well rounded and curious about learning Veteran home educators Susan Wise Bauer and Jessie Wise outline the classical

pattern of education called the trivium which organizes learning around the maturing capacity of the child's mind and comprises three stages the elementary school grammar stage when the building blocks of information are absorbed through memorization and rules the middle school logic stage in which the student begins to think more analytically and the high school rhetoric stage where the student learns to write and speak with force and originality Using this theory as your model you'll be able to instruct your child whether full time or as a supplement to classroom education in all levels of reading writing history geography mathematics science foreign languages rhetoric logic art and music regardless of your own aptitude in those subjects Thousands of parents and teachers have already used the detailed book lists and methods described in *The Well Trained Mind* to create a truly superior education for the children in their care This extensively revised fourth edition contains completely updated curricula and book lists links to an entirely new set of online resources new material on teaching children with learning challenges cutting edge math and sciences recommendations answers to common questions about home education and advice on practical matters such as standardized testing working with your local school board designing a high school program preparing transcripts and applying to colleges You do have control over what and how your child learns *The Well Trained Mind* will give you the tools you'll need to teach your child with confidence and success
