

My Future Plans in Life

5 pages | 1007 words

As a freshman in high school, getting used to everything that is new is quite difficult. Taking everything in and trying to handle many things at once is a struggle, even though college might seem far away, but in reality, it is only 4 years away. Trust me, there are more urgent things to worry over than college, but you always have to make sure you are always working up to what you want to be in college. Before, when people asked me what I want to be, I had no idea, so the Naviance test helped me immensely. Now, since I know what I like and dislike for my future careers, I now know that I want to be a counseling psychologist. I want to become a counseling psychologist because of the requirements for the job, the responsibilities, and the overall employment outlook. As of 10 years today, I will hopefully have finished regular college and currently be in medical school, I will hopefully become fully licensed when I am 30-34 if I pursue all of my years in the beginning. In order to become a licensed counseling psychologist, you need many requirements. First you need to earn a bachelor degree in psychology which takes about 3 to 4 years, then if you want a doctorate level degree you need 4 to 7 years of graduate school. In order for you to get a license, people usually spend eight to twelve years in order to become a fully licensed psychologist. During the college fair, I visited Miami University, Xavier, and The University of Cincinnati and I had asked if their psychology program is up to other colleges standards, and I was very surprised of all their answers. They all told me that psychology was one of their top programs of all the schools I visited. After I visited the colleges, I looked at their pamphlets, and was relieved that their information was very accurate from what they told me. So far as a freshman I am unable to do anything to help my future career, but the thing that surprised me the most was the amount of universities around me that had such amazing psychology programs. Even though there are many requirements for this field of work, it will eventually pay off and I am willingly to do whatever it takes. The responsibilities of becoming a counseling psychologist is a lot to handle as a freshman, especially since right now I can't help ease the process. Some responsibilities of being a counseling psychologist requires you to include and collect information through observations, interviews, and different types of methods. Another responsibility they have, is to use what they know to understand the individual or group to help them to the best of their abilities. The most difficult responsibility I have learned is making sure you are always up to date with new psychological studies, so you are making sure your patient is receiving the best treatment and care. A responsibility that surprises me is that you work alongside with many other professions such as nurses, teachers, or even clinical doctors....

Guide to Periodical Literature Anna Lorraine Guthrie, 1915 An author subject index to selected general interest periodicals of reference value in libraries **The Future of Islam** Wilfrid Scawen Blunt, 1882 The Future of Islam is a classic Islamic studies text by Wilfred Scawen Blunt To Mohammedans the author owes more than a word of apology A stranger and a sojourner among them he has ventured on an exposition of their domestic griefs and has occasionally touched the ark of their religion with what will seem to them a profane hand but his motive has been throughout a pure one and he trusts that they will pardon him in virtue of the sympathy with them which must be apparent in every line that he has written These essays written for the Fortnightly Review in the summer and autumn of 1881 were intended as first sketches only of a maturer work which the author hoped before giving finally to the public to complete at leisure and develop in a form worthy of critical acceptance and of the great subject he had chosen Events however have marched faster than he at all anticipated and it has become a matter of importance with him that the idea they were designed to illustrate should be given immediate and full publicity The French by their invasion of Tunis have precipitated the Mohammedan movement in North Africa Egypt has roused herself for a great effort of national and religious reform and on all sides Islam is seen to be convulsed by political portents of ever growing intensity He believes that his countrymen will in a very few months have to make their final choice in India whether they will lead or be led by the wave of religious energy which is sweeping eastwards and he conceives it of consequence that at least they should know the main issues of the problem before them To shut their eyes to the great facts of contemporary history because that history has no immediate connection with their daily life is a course unworthy of a great nation and in England where the opinion of the people guides the conduct of affairs can hardly fail to bring disaster
