

## SAMSUNG GALAXY S4

When you perform the software update on your Samsung Galaxy S4, your device performance will improve in the following ways:

### SUPPORT HAS BEEN ADDED TO:

- Blocking Mode feature in Settings Menu
- Enabling NFC feature before using Group Play
- Samsung Knox, Security Enhanced for Android

### CHANGES HAVE BEEN MADE TO:

- OS has been upgraded to Android Jellybean 4.3 OS
- Starter Mode renamed to Easy Mode
- Viewdini stub application has been removed (note: customers who already downloaded the full application will not lose it)

### IMPROVEMENTS HAVE BEEN MADE TO:

- Weatherbug application "auto-refresh"
- Mobile Hotspot now works with the Data Usage Meter
- Video app crashing has been resolved
- Call audio issue while on a call and taking a picture have been addressed

**Smart and Sustainable Intelligent Systems** Namita Gupta,Prasenjit Chatterjee,Tanupriya Choudhury,2021-04-13 The world is experiencing an unprecedented period of change and growth through all the electronic and technological developments and everyone on the planet has been impacted What was once science fiction today it is a reality This book explores the world of many of once unthinkable advancements by explaining current technologies in great detail Each chapter focuses on a different aspect Machine Vision Pattern Analysis and Image Processing Advanced Trends in Computational Intelligence and Data Analytics Futuristic Communication Technologies Disruptive Technologies for Future Sustainability The chapters include the list of topics that spans all the areas of smart intelligent systems and computing such as Data Mining with Soft Computing Evolutionary Computing Quantum Computing Expert Systems Next Generation Communication Blockchain and Trust Management Intelligent Biometrics Multi Valued Logical Systems Cloud Computing and security etc An extensive list of bibliographic references at the end of each chapter guides the reader to probe further into application area of interest to him her Statement of Disbursements of the House United States. Congress. House,2003 Covers receipts and expenditures of appropriations and other funds **108-2:**

**Statement of Disbursements of The House, Etc., House Document No. 108-179, January 1, 2004 to March 31, 2004, Part 1 of 2, (\*Star Print).** ,2004 **Mobile Tech Report 2014** John R. Roberts,2014-01-10 If you read technology news you ll notice it s not just a story of amazing new product introductions or even that plus copycat product introductions All the usual aspects of business are there fierce competition new contenders old survivors great ideas but business failures mediocre ideas that somehow seem to succeed and prosper As a reporter commentator and blogger on mobile technology I ve collected what happened in the industry in 2013 and make predictions on what will and won t happen in 2014 You can read what did happen in the mobile technology in 2013 Often I deliver a comment with the news item and usually there is a link to the web page of the original announcement This way you can dive into any detail level you desire read my news feed for the overview or follow the related web link to the longer article History is moving so fast now that it is all recorded electronically but I m surprised no one else has collected it and presented it for consideration Here is 2013 from the mobile technology industry for your consideration along with my own observations and opinions about where things are headed It s

often overlooked that the technology industry is an industry. By that I mean its main concerns are profit and growth. As consumers we love the new products and unique abilities we are gaining from technology but it is a business akin to any other trying to seduce us to pry money out of our wallets. So I cover the horse race aspect of the business who's up who's down. Is that changing? Is that likely to change? The longer implications of what the technology industry is doing are vast and social. We are moving to an always on, always connected society where we can communicate with someone instantly and find an answer to any question quickly. The entire database of human knowledge is now available in the palm of your hand whenever you desire it. Everything is there: the good, the bad, right and wrong, hate and love, music and noise. We are obsessed with technology not in and of itself but as a means to an end. Technology is the means to satisfy our curiosity or even our desire for self-expression. We are taking photos, machine gun style, with our smartphones and choose the few to share. As humans we are gathering ever more data about ourselves and sharing more about ourselves than we probably thought possible. Bill Gates was once asked why the computer industry had generated so much improvement in its products over a relatively few years. He gave some boring answer about Moore's Law but the real answer is that computers are in their teenage years. They are growing and growing. They will not always do so. So too the technology industry is in a state of rapid change. I see the shift to smaller devices as a new paradigm, smashing some businesses and growing others into giants. Their stories are here in the news. In short, here are predictions for what won't and will happen in 2014 for the mobile technology industry: breakdowns of marketshare figures on the horse race aspect of the business; chapters on Apple, Samsung, Google, Microsoft, Nokia, BlackBerry, Amazon, Yahoo; news about social media giants Facebook, Twitter, Google+, LinkedIn, Foursquare, SnapChat; and the carriers themselves Verizon, AT&T, Sprint, and T-Mobile. You can also review my 2013 mobile predictions and see my track record on predictions. Finally, there are some essays on how all this mobile tech is figuring into our lives. I've divided the news into the subjects it covers but also put in the appendix all the news as it came out in chronological ordering. You can read the firehose of events in the appendix or just read about one topic at a time in the earlier chapters.
