Daito's contributions within this context offering new insights about early Japanese Zen and about Zen itself Throughout this study Kraft looks closely at the complex role of language in Zen a tradition supposedly distrustful of words Daito wrote haiku like poetry participated in brilliant dialogues and delivered powerful sermons His virtuosity in articulating the way of Zen beyond words beyond silence is nowhere more apparent than in his use of the capping phrase an interpretive and commentarial device unique to Zen Analyzing Daito's use of this device Kraft elucidates the significance of the literary and aesthetic dimensions of the Zen tradition Eloquent Zen includes valuable translations of Daito's poetry and other writings Illustrations include three classic portraits of Daito and rare examples of his calligraphy This lucid and engaging study will interest scholars and nonspecialists interested in Zen Japanese culture and Asian philosophy poetry and related fields

Charles Johnson's Spiritual Imagination Jonathan Little, 1997 In this first book length study of Charles Johnson's work Jonathan Little offers an engaging account of the artistic growth of one of the most important contemporary African American writers From his beginnings as a political cartoonist through his receipt of the National Book Award for *Middle Passage* Johnson's imagination has become increasingly spiritual Little draws upon a wide array of sources including short stories interviews reviews articles and cartoons as he traces the brilliant achievement of this provocative artist who is very much at the height of his career *Charles Johnson's Spiritual Imagination* begins with an analysis of Johnson's political cartoons from the late sixties and early seventies when he was immersed in the Black Power Movement Little shows that in these early cartoons one can already see Johnson's comic genius and his quest for unconstrained artistic freedom even when dealing with the highly charged issues of racial politics By examining how Johnson incorporates the influences of phenomenology Zen Buddhism Taoism Hinduism and Romanticism into a strikingly original perspective on individual and social identity Little chronicles Johnson's development The book illuminates the progression of Johnson's aesthetics as he deals with the at times disturbing contrast between the hope offered by art and spirituality and the harsh realities of African American existence As he situates Johnson within the tradition of African American literature Little pairs each of his novels with a major precursor including novels by Richard Wright and Ralph Ellison and such far ranging sources as Hermann Hesse's *Siddhartha* and the *Ten Oxherding Pictures* These comparisons help to show Johnson's innovations within the African
