Swedish Passions English Edition:

The Passion of Ingmar Bergman Frank Gado, 1986 Acknowledged as one of the greatest filmmakers of this or any other time Bergman has with few exceptions written his own screenplays an uncommon practice in the film industry and for this practice critics refer to him as a literary filmmaker In this work Gado examines virtually the entire range of Bergman's literary output While treating the matter of the visual presentation of Bergman's films Gado concentrates on story and narrative and their relationship to Bergman's personal history Gado concludes that whatever the outward appearance of Bergman's works they contain an elementary psychic fantasy that links them all revealing an artist who hoped to be a dramatist the new Strindberg and who saw the camera as an extension of his pen Texts of the Passion Thomas H. Bestul, 2015-08-05 In this book Thomas H Bestul constructs the literary history of the Latin Passion narratives placing them within their social cultural and historical contexts He examines the ways in which the Passion is narrated and renarrated in devotional treatises paying particular attention to the modifications and enlargements of the narrative of the Passion as it is presented in the canonical gospels Of particular interest to Bestul are the representations of Jews women and the body of the crucified Christ Bestul argues that the greatly enlarged role of the Jews in the Passion narratives of the twelfth and thirteenth centuries is connected to the rising anti Judaism of the period He explores how the representations of women particularly the Virgin Mary express cultural values about the place of women in late medieval society and reveal an increased interest in female subjectivity **Passion and Paranoia** Charlotte Bloch, 2016-05-13 Analysing emotions and emotion management in the academic organization *Passion and Paranoia* shows how focusing on emotions in organizations can offer insights into important aspects and the dynamics of organizational processes Drawing on rich interview material this book demonstrates the often overlooked importance of emotions in academic life to reveal the manner in which emotion contributes to social bonds power relationships and hierarchies micro politics and processes of inclusion and exclusion from an academic career A significant contribution to the study of emotion and the academy *Passion and Paranoia* will appeal to sociologists and anthropologists researching work and organizations emotion academic culture and social relationships
