

A man and a woman are shown in a close, intimate embrace. The woman, on the left, has long dark hair and is looking towards the man. The man, on the right, is shirtless and looking back at her. They are positioned in front of a background of bright green neon lights that form a grid-like pattern. The overall mood is romantic and sensual.

Swept Away The First Bloodline English Edition:

The Importance of Feeling English Leonard Tennenhouse, 2009-02-09 American literature is typically seen as something that inspired its own conception and that sprang into being as a cultural offshoot of America's desire for national identity. But what of the vast precedent established by English literature which was a major American import between 1750 and 1850? In *The Importance of Feeling English* Leonard Tennenhouse revisits the landscape of early American literature and radically revises its features. Using the concept of transatlantic circulation he shows how some of the first American authors from poets such as Timothy Dwight and Philip Freneau to novelists like William Hill Brown and Charles Brockden Brown applied their newfound perspective to pre-existing British literary models. These American re-writings would in turn inspire native British authors such as Jane Austen and Horace Walpole to reconsider their own ideas of subject, household and nation. The enduring nature of these literary exchanges dramatically recasts early American literature as a literature of diaspora. Tennenhouse argues and what made the settlers' writings distinctly and indelibly American was precisely their insistence on reproducing Englishness on making English identity portable and adaptable. Written in an incisive and illuminating style *The Importance of Feeling English* reveals the complex roots of American literature and shows how its transatlantic movement aided and abetted the modernization of Anglophone culture at large.

Beyond the Here and Now Lucy O'Hagan, 2013-10-25 *Beyond the Here and Now* is an account of how we have come to be where we are now in the modern era. In explaining the things that have not served us well we can uncover how to put them right in order if we choose to bring about a way of experiencing this world and each other as never before. No need for great blind leaps of faith or trickery as the book demonstrates everything we need is already at hand. We must now apply what we inherently know and this book explains how.
