The Switch Dan K. Eberhart, 2017-11-21 The Rebirth of Energy Security in America For the first time in decades the US has a rare opportunity to realistically reject oil supplies from other nations It s a goal that has eluded us through eight presidencies But recent advances in hydraulic fracturing or fracking technology have catapulted the US into its current position as the world s 1 oil producer surpassing energy powerhouses like Saudi Arabia In The Switch Dan K Eberhart addresses a fascinating question What would happen if the US became energy self sufficient Would the Middle East look to China as its new ally and energy buyer Would petrostates find new markets or would their governments collapse as their oil revenues take a free fall Would the US lift the crude oil export ban and help friendly nations such as Ukraine free themselves from the yoke of Russian oil Would the US use its newfound energy wealth to become more isolationist and remove itself from the position of global police force To answer these questions and to explore the complex relationship between the US and foreign oil producers Eberhart uses a combination of firsthand interviews vignettes and reporting The result is a clear and engaging analysis of where America s energy is coming from where it could go and how US energy is fundamentally shifting geopolitics and the domestic economy **United States Customs Court Reports** United States. The Switch Image Lorenz Engell, 2021-04-22 Television is the most powerful system of images in the late 20th and early 21st centuries Nonetheless TV has attained only little philosophical attention so far especially compared to other visual media such as film This book looks at TV as what happens on the screen and beyond it which is mainly the operation of switching images It therefore proposes a new definition of TV as the first picture that can be switched on off and over which stresses that TV is more tactile than visual Through the operation of switching TV figures the world from within and as the course of its figuration This is grasped here by the term of ontography Through the ongoing interlacing and bridging of TV 1 0 the image is being switched and TV 2 0 the image is a switch TV exponentially increases the production and circulation of images It transforms the world and itself from an analogue state to a digital one and from central perspectivism to pluri perspective In terms of time through switching and the switch it develops and reworks new temporal orderings such as instantaneity synchronicity flow and seriality TV makes its own history In space it creates a mediasphere as its habitat and hence new forms of being in the world of proximity and distance and scale Anthropologically it works on what a subject and an object is on what makes the human being and ontographically how it is possible that there is something at all instead of nothing through switch images

maintain religious observations and identity Choice Calendars map time shaping and delineating our experience of it While the challenges to tracking Jewish conceptions of time during the Holocaust were substantial Alan Rosen reveals that many took great risks to mark time within that vast upheaval Rosen inventories and organizes Jewish calendars according to the wartime settings in which they were produced from Jewish communities to ghettos and concentration camps The calendars he considers reorient views of Jewish circumstances during the war and show how Jews were committed to fashioning traditional guides to daily life even in the most extreme conditions In a separate chapter moreover he elucidates how Holocaust era diaries sometimes served as surrogate Jewish calendars All in all Rosen presents a revised idea of time continuity the sacred and the mundane the ordinary and the extraordinary even when death and destruction were the order of the day Rosen's focus on the Jewish calendar the ultimate symbol of continuity as weekday follows weekday and Sabbath follows Sabbath sheds new light on how Jews maintained connections to their way of conceiving time even within the cauldron of the Holocaust Rosen demonstrates the relationship between time and meaning between meaning and holiness between holy days and the divine presence all of which came under assault in the Nazis effort to kill Jewish souls before destroying Jewish bodies David Patterson author of *Along the Edge of Annihilation The Collapse and Recovery of Life in the Holocaust Diary* Cereal Drying Racks Klaus Zwerger, 2020-09-21 Following his seminal book *Wood and Wood Joints* an essential reference on solid timber constructions for more than two decades now in its third edition Klaus Zwerger presents a study of the cultural history construction and typology of a special building type cereal drying racks These structures were used to dry harvested crops in agrarian cultures all over the world and evolved over the centuries into buildings of great beauty that are as sophisticated and individual as they are functionally efficient On countless expeditions the author tracked down the remaining buildings documenting and analyzing them in the context of their cultural and building history through detailed descriptions line drawings and photographs rendered in duotone by the author **Resources in Education**, 1995

The Electrician, 1893 *The Electrical Journal*, 1906 *A People's Tragedy* Eamon Duffy, 2020-11-26 As an authority on the religion of medieval and early modern England Professor Eamon Duffy is preeminent In his revisionist masterpiece *The Stripping of the Altars* Duffy opened up new areas of research and entirely fresh perspectives on the origin and progress of the English Reformation Duffy's focus has always been on the practices and institutions through which ordinary people lived and experienced their religion but which the Protestant reformers abolished as idolatry and superstition The first part of *A People's Tragedy* examines the two most important of these institutions the rise and fall of pilgrimage to the cathedral shrines of England and the destruction of the monasteries under Henry VIII as exemplified by the dissolution of the ancient Anglo Saxon monastery of Ely In the title essay of the volume Duffy tells the harrowing story of the Elizabethan regime's savage suppression of the last Catholic rebellion against the Reformation the Rising of the Northern Earls in 1569 In the second half of the book Duffy considers the changing ways in which the Reformation has been thought and written about the

evolution of Catholic portrayals of Martin Luther from hostile caricature to partial approval the role of historians of the Reformation in the emergence of English national identity and the improbable story of the twentieth century revival of Anglican and Catholic pilgrimage to the medieval Marian shrine of Walsingham Finally he considers the changing ways in which attitudes to the Reformation have been reflected in fiction culminating with Hilary Mantel's gripping trilogy on the rise and fall of Henry VIII's political and religious fixer Thomas Cromwell and her controversial portrayal of Cromwell's Catholic opponent and victim Sir Thomas More
