Symbol And Sacrament A Sacramental Reinterpretation Of Christian Existence

Christian G. Meyer

Symbol And Sacrament A Sacramental Reinterpretation Of Christian Existence:

Symbol and Sacrament Louis-Marie Chauvet, 1995 This work comes at an opportune hour a time in which many complain that contemporary theology lacks a general theory of sacraments Chauvet charts a reorientation in sacramental theology from the scholastic treatments which appropriated the metaphysical categories of causality and substance to develop an essentially instrumentalist appreciation of grace in favor of an approach through the category of symbol In this approach the subject is as much grasped and transformed by the symbolic representation as is the object being interpreted Chauvet commands a wealth of scholarship which he deploys to powerful effect His work in developing a foundational theology of sacramentality will remain the standard for years to come

Recovering the Evangelical Sacrament Anthony R. Cross, 2012-12-06 The subject of baptism continues to be of considerable interest though it frequently appears within broader studies of sacraments liturgy worship and ecumenical studies and within confessional bounds credobaptist or paedobaptist yet it is rarely discussed by Evangelicals This book however is neither an apologetic for credobaptism nor paedobaptism rather Cross believes that as practiced today both forms are a departure from New Testament baptism which he maintains was an integral part of becoming a Christian and part of the proclaimed gospel He argues that the one baptism of Ephesians 4 5 is conversion baptism and that the baptism referred to in the various New Testament strata refers to this one baptism of Spirit and water

The study sets out the case for this interpretation and contends that in key passages baptism is an example of synecdoche. The case is then made for a sacramental interpretation of baptism from a thoroughgoing Evangelical perspective. Cross concludes with reflections on the necessity of baptismal reform and the relevance of a return to conversion baptism for the contemporary church in a post Christian post Christendom mission setting.

Liturgical Music as Ritual Symbol Judith Marie Kubicki, 1999. In this book Sister Kubicki uses Jacques Berthier's Taize music to explore the nature of liturgical music as ritual symbol. She carries out a hermeneutical analysis of Berthier's chants and examines biographical and historical data related to the creators of Taize music and the founding of the Taize community. The author draws on five areas of study to interpret the Taize chants as ritual symbol: symbol theory, semiotics, theologies of symbol, ritual theory, and performative language theory. The final chapter explores potential ecclesial meanings which may be mediated in the Taize liturgy and the role of Berthier's chants in mediating that meaning. The study concludes that it is music's symbolic property that enables it to be both ministerial and integral to the liturgy. As symbolic activity, music making evokes participation, negotiates relationships, and enables the assembly to orient themselves and to find their identity and place within their world. Furthermore, music making provides the illocutionary force to do something in the act of singing. Thus it is that as part of a complexus of ritual symbols, music interacts with other symbols in mediating the liturgy's meaning.

Christian Character Formation Gifford A. Grobstein, 2019. This work argues that Christian righteousness is bestowed and becomes active primarily in worship, particularly through the congregational use of the means of grace, and that the proper appropriation of this righteousness by a Christian is ethically formative.

The Cleansing of the Heart Reginald M. Lynch, 2017. Recalling the Biblical and Patristic roots of the Church's sacramental identity, the Second Vatican Council calls the Church the visible sacrament of that unity offered through Christ. LG 9, Sacrament in this sense, not only describes who the Church is but what she does. In this regard, the Council Fathers were careful to establish a strong connection between the symbolic nature of the Church's sacraments and their effect on those who received them. Reginald Lynch is concerned with the cleansing of the heart, a phrase borrowed from St Augustine and employed by Aquinas, which describes the effects that natural elements such as water or bread have on the human person when taken up by the Church as sacramental signs. Aquinas' approach to sacramental efficacy is unique for its integration of diverse theological topics such as Christology, merit, grace, creation, and instrumentality. While all of these topics will be considered to some extent, the primary focus of *The Cleansing of the Heart* is the sacraments understood as instrumental causes of grace. This volume provides the historical context for understanding the development of sacramental causality as a theological topic in the scholastic period, emphasizing the unique features of Aquinas' response to this question. Following this, relevant texts from Aquinas' early and later work are examined, noting Aquinas' development and integration of the idea of sacramental causality in his later work. *The Cleansing of the Heart* concludes by contrasting alternatives to Aquinas' theory of sacramental causality that subsequently emerged. The rise of humanism introduced many changes within

rhetoric and philosophy of language that had a profound effect on some theologians during the Modern period This book provides historical context for understanding the most prominent of these theories in contrast to Aquinas and examines some of their theological implications Gift to the Church and World John C. Cavadini, Donald Wallenfang, 2021-03-22 Few books in theology have faced the twentieth century with all its horrors and yet convincingly revoiced the redemptive Christian antidote that compels us to reawaken to our true identity as beloved children of God Joseph Ratzinger's 1968 masterpiece Introduction to Christianity is one of those rare books On the fiftieth anniversary of this classic book's publication English speaking scholars from around the globe gathered at the University of Notre Dame to celebrate Ratzinger's lasting influence on the world of Christian theology Bishops priests and lay men and women set their hands to the trowel of tribute honoring the theological legacy of Joseph Ratzinger and the pivotal role he has played in the recent history of the Catholic Church from his early days as a parish priest and university professor all the way to his election to the Chair of Saint Peter as Pope Benedict XVI Readers of this collection Gift to the Church and World will enjoy the beautiful variety of essays penned by notable scholars that decorate the timeless insights of Ratzinger's theological genius Thematic topics include an overview and context of Ratzinger's work fundamental theology philosophical theology dogmatic theology spiritual theology and pedagogy Altogether readers will deepen their appreciation and understanding of the theological contributions of Joseph Ratzinger to the mission field of the New Evangelization today With contributions from Catherine R Cavadini Leonard J DeLorenzo Patrick X Gardner Robert P Imbelli Jennifer Newsome Martin Aaron Pidel Francesca Murphy Anthony J Pagliarini Timothy P O Malley Cyril O Regan Tracey Rowland Richard Schenk HC Anthony C Sciglitano Jr Clemens Sedmak Rudolf Voderholzer **Essays in Ecumenical Theology I** Ivana Noble, 2018-11-26 In the first volume of Essays in Ecumenical Theology Ivana Noble depicts differences between what she calls a sectarian outlook and one which engages in the search for common roots dialogical relationships and shared mission in a world that has largely become post Christian but often also post secular Drawing on both Western and Orthodox scholarship and expressing her own positions Noble sketches what ecumenical theology is how it is linked to spirituality the methods it uses how it developed during the twentieth century and the challenges it faces Specific studies deal with controversial interpretations of Jan Hus Catholic Modernism the problematic heritage of the totalitarian regimes and responses to the current humanitarian crisis *Sacraments and Justice* Doris Donnelly, 2014 Sacraments and Justice describes the social implications of worship the history of each sacrament and reveals how the seven sacraments link to social justice publisher's description T&T Clark Handbook of Sacraments and Sacramentality Martha Moore-Keish, James Farwell, 2022-12-29 Introducing readers to the contemporary field of sacramental theology this volume covers the biblical and historical foundations a survey of the state of the discipline and a collection of constructive essays representing major themes practices and approaches to sacraments and sacramentality in the contemporary world The volume starts with a set of foundational essays that offer broad introduction to the field of

sacramental theology from contemporary scholars analysing a number of historical figures in order to illumine and inform contemporary sacramental theology The second part of the volume is dedicated to a series of essays on sacramentality and includes attention to elements of space time ritual action music and word all as aspects of what Christians have termed sacramental reality The third set of essays includes attention to each of the seven practices that have most commonly been termed sacraments in Christian traditions baptism eucharist Lord s Supper confirmation confession forgiveness and reconciliation marriage ordination and anointing The final part of this volume features scholars who are working on sacraments in conversation with contemporary academic disciplines critical race theory queer theory comparative theology and disability studies

Toward a Priestly Christology Adriani Milli Rodrigues,2018-11-02 Toward a Priestly Christology is a constructive theology on the person and work of Christ from the standpoint of a systematic thinking about his priesthood This priesthood is usually discussed in biblical scholarship on the Christology of Hebrews and also explored in historical or systematic theology with its connections with soteriology and ecclesiology However there is a scarcity of studies that attempt to systematize this topic in its basic components and their ontological foundations in order to provide conceptual clarity for a constructive discussion of the priestly Christology in systematic theology The book makes a contribution to this discussion by engaging firstly with the main models of Christ s priesthood in Christian theology and then with a theological reading of the letter to the Hebrews In both steps the author conceptually articulates the priesthood in terms of need agent actions and goal Then he observes the conceptual articulation from the macro hermeneutical point of view of ontology especially noticing how assumptions on time and space impact the internal logic of Christ s priesthood By using existing models of this priesthood as heuristic tools for systematic thinking the work attempts to push Christian theology toward a more dynamic understanding of Christ s priesthood especially regarding the relationship between the ascended Christ and our Christian life

Finding All Things in God Hans Gustafson,2017-05-25 In Finding All Things In God Hans Gustafson proposes pansacramentalism as holding the potential to find the divine in all things and all things in the divine Such a proposition carries significant interreligious implications particularly in the practice of theology Presupposing theological practice as divorced from spirituality lived religious experience Gustafson presents pansacramentalism as a bridge between the two In so doing Gustafson offers a history of spirituality sketching the foundations of a classical approach to sacramentality through Aquinas as well as a contemporary approach to the same through Rahner and Chauvet Through three fascinating case studies this book presents particular instances of sacramentality in lived religious experience Gustafson offers an exciting method of doing theology one which is entirely compatible with the interdisciplinary field of interreligious studies

Celebrating Divine Mystery Catherine Vincie,2016-03-24 Christians are identified by their participation in liturgy In this primer Catherine Vincie introduces readers to current liturgical theology by providing them with the foundational themes of the field She explains that liturgy draws us into the paschal mystery of Jesus Christ that it should create a space in which we attempt to

name toward God by employing an abundance of metaphors and images and that the sacraments are communicated and understood through the use of symbols Vincie is grounded in the liturgical reforms of the Second Vatican Council As such Celebrating Divine Mystery seeks to draw readers into full conscious and active participation in the liturgy by informing them about recent scholarship and challenging them to enter the divine mystery as informed and engaged participants Catherine Vincie RSHM PhD is professor of sacramental and liturgical theology at the Aquinas Institute of Theology in St Louis She is also author of The Role of the Assembly in Christian Initiation and many articles on initiation Eucharist and liturgy and justice As a practicing liturgical musician she is also interested in the role of the arts in past and current liturgical celebration

Essays in Ecumenical Theology II Ivana Noble, 2022-06-08 In this volume of Essays in Ecumenical Theology Ivana Noble engages in conversations with Orthodox theologians and spiritual writers on diverse themes These include the discovery of the human heart what illumination by divine light means the relationship between prayer and attitudes and acts of social solidarity the problematic nature of sacrificial thinking as the way to express redemption through Christ the ecological dimension of theological anthropology the need for freedom to coexist with love for others and why institutions need to turn not only to their own traditions but also to the Spirit that blows where it wills Bodies of Worship Bernard J. Cooke, 1999 Bodies of Worship explores how the ecclesial ritual individual and cultural bodies engaged in the Church's worship contribute to the theory and practice of both liturgical theology and pastoral ministry The authors bring solid historical and theoretical scholarship to bear on the practice and experience of the liturgy and spirituality of the Church

Material Eucharist David Grumett, 2016-09-15 Material Eucharist interprets the Eucharist through its material elements of bread and wine Drawing upon a rich variety of biblical patristic medieval and modern texts and traditions David Grumett brings together theological reflection and liturgical action and shows their mutual dependence For both theologians and liturgists a central concern is the matter out of which the created order has been made from which issues of community and social justice are inseparable The ingredients of bread and wine anticipate in their harvesting and manufacture the formal church liturgy which is extended back into the world by the transformative priestly action of laypeople Indeed the transforming presence of Christ in the Eucharist as flesh and substance is theologically grounded in his transformative presence in the wider created order as expressed in eucharistic giving and exchange between churches and their wider communities Rooting the Eucharist in materiality suggests its primary context to be the death and resurrection of Christ in the power of the Spirit in which its recipients may share The many aspects of theology and liturgy with which the book deals have large implications for how the Eucharist is understood in a range of academic disciplines and for how it is celebrated in churches today **Koinonia and the Quest for an Ecumenical Ecclesiology** Lorelei F. Fuchs, 2008 The word koinonia has gained prominence in recent ecumenical discussions In this original and substantial work Lorelei Fuchs proposes the theological idea of koinonia commonly translated as communion or fellowship as the key to moving fractured churches

toward a future unity Fuchs challenges churches to move beyond mere dialogue and to apply ecumenical insights at the local level She begins by relating the exegetical meaning of koinonia to its ecumenical meaning tracing the place of koinonia both within the churches and between the churches She then examines the concept of koinonia in the extensive and fruitful dialogues that have taken place between Lutherans Anglicans and Roman Catholics finally articulating a symbolic competence for communiality that provides a rich and workable way forward for church unity at all levels Encompassing the latest in ecumenical thought Koinonia and the Quest for an Ecumenical Ecclesiology provides a broad thoughtful framework for realizing Christ's prayer that all may be one so that the world may believe **Embodied Words, Spoken**

Signs Rhodora E. Beaton, 2014 The twentieth century witnessed a renewed interest in a Roman Catholic theology of the word The beginning of this renewal is marked by the work of Karl Rahner who before the Second Vatican Council decried the fact that Roman Catholicism in contrast to the Protestant theological tradition lacked an adequate theology of the word Rahner's contributions as well as those of sacramental theologian Louis Marie Chauvet demonstrate the Roman Catholic conviction that the word is fundamentally sacramental it has the capacity to bear God's presence to humanity Rooted in patristic and medieval sacramental tradition and engaged in dialogue with Reformation theologies Rhodora Beaton examines the further advances in Rahner and Chauvet to articulate the relationship between word and sacrament within the context of language culture and an already graced world as the place of divine self expression as well as analyzes the implications for Trinitarian theology sacramentality liturgy and action *The Oxford Handbook of Systematic Theology* John Webster, Kathryn Tanner, Iain Torrance, 2009-09-11 The Oxford Handbook of Systematic Theology brings together a set of original and authoritative accounts of all the major areas of current research in Christian systematic theology offering a thorough survey of the state of the discipline and of its prospects for those undertaking research and teaching in the field The Handbook engages in a comprehensive examination of themes and approaches guiding the reader through current debates and literatures in the context of the historical development of systematic theological reflection Organized thematically it treats in detail the full array of topics in systematic theology as well as questions of its sources and norms its relation to other theological and non theological fields of enquiry and some major trends in current work Each chapter provides an analysis of research and debate on its topic The focus is on doctrinal rather than historical questions and on major rather than ephemeral debates The aim is to stimulate readers to reach theological judgements on the basis of consideration of the range of opinion Drawn from Europe the UK and North America the authors are all leading practitioners of the discipline Readers will find expert guidance as well as creative suggestions about the future direction of the study of Christian doctrine
