Animal David Burnie,2006-11 *Animal Encyclopedia* Kathryn Hennessy,2016 **The Biosphere** Gregory Vogt,2006-12-28 Describes the attributes of the biosphere the animal and plant life that live in the biosphere and how fragile and dynamic it is *The Science of Sacred Scripture* Shema,2012-10-22 Our creator finally provides the actual details of his design in the long sort after Theory of Everything Now our eyes finally open to fully understand the world which we have studied The tribes and so called races of man have all been given pieces of this massive puzzle When put together it weaves a tapestry of one beautiful story The bible provides the structure the Africans provide a first person account Native Americans hold vital elements the Aztecs tell us the thoughts of God and his expectations for his designs Asian theology focuses on living today and Christianity takes us to a new tomorrow But no story could be complete without the details the process used the illusive How for this we thank the final seers of science The bible tells us that to achieve the design of man God cursed man to become weaker naked to have pain during labor and the entire event is triggered in the process of eating Geneticist confirm that the genetic mutations which transformed man are weaker muscles a narrower pelvic cavity a significant loss of body hair and a redesign in the jaw muscles which allows the brain to grow much larger than other primates From this we discover that what science refers to as a genetic mutation is considered a biblical curse And from this every curse from those relating to incest and over eating are connected to mutations From the weaving of the universe to the wiring of the brain every question you ve ever asked about life and death and who we are is finally answered God is not dead he is life *The Death of Evolution* Michael Ebifegha,2007-04 For over a century evolutionists have been deliberately interpreting all

scientific data on origins to fit Darwin's theory of evolution. For instance, although the evidence in the living world and in all reliable fossil deposits shows abrupt gaps, evolutionists interpret these gaps as missing links to justify the numerous transformations that the theory predicts. The evolutionist paradigm recently suffered a fatal blow when empirical science ripped off its chapter on junk DNA, which Darwinists have idolized as the evolutionary key in unfolding ancestral history and thus the unique testimony against a purely creationist worldview. All along, just so explanations have persistently been tendered to camouflage the discrepancies. In *Farewell to Darwinian Evolution*, Michael Ebifegha presents a historical account of God's creation patent and seal and shows that they corroborate the scientific evidence. Arguing that a report claiming both invention and ownership of the cosmos must override any theory relating to events in the cosmos that were never witnessed, Ebifegha insists it is time to bid farewell to Darwinian transformational evolution, macroevolution. The focus in science, he stresses, must be limited to microevolution, the aspect that underpins modern advances in medicine, agriculture, and selective breeding. Dr. Michael Ebifegha is a scholar with international experience. He is a graduate of Ahmadu Bello University, Nigeria (M.Sc. Applied Geophysics, Carleton University, Canada; M.Sc. Physics, and the University of Toronto; B.Ed., Ph.D. Physics). He is currently a full-time science and mathematics instructor at the Toronto District School Board. Ebifegha is the author of *The Darwinian Delusion: Creation or Evolution* and most recently *4th Refuting the Myth of Evolutionism and Exposing the Folly of the Clergy Letters*. [Cool Creatures, Hot Planet](#) Marty Essen, 2012-12-04.
