

Subtraction Lesson Plan

Procedure

Objective: Students will solve subtraction problems within 20 using a variety of strategies.

Engagement: Students will complete the math facts warm-up problems on p. 5. Please note, when copying the warm-up, it is provided in half-sheet form. If students finish early have them turn the page over and write numbers beginning at 1 and going as high as they can.

Exploration: Tell students "Today we will be learning how to subtract. When you subtract you are taking something away. You will always end up with a smaller number when you subtract". Pose a problem for your

Easy to
follow

To address misconceptions: Ask your students to be math detectives. Say "I am going to solve the problem but I'm going to do something wrong. See if you can catch the mistake I make." Model solving the problem making a deliberate error that will call attention to misconceptions. Have students explain the mistake and state why it is wrong.

Elaboration: Tell students "Now we are going to practice writing and solving subtraction sentences." Give each child a response worksheet on p. 7. If you laminate the worksheets or put them in a sheet protector this will allow students to use them over and over with a dry erase marker. If you choose to do this, you may want to use this as a center after the lesson. Give each child 9 bear numbers and 9 lion numbers. Have each child choose 1 bear number and 1 lion number and use these numbers to write and solve a subtraction sentence. To correctly complete this activity students will need to understand that the larger number needs to come first in a subtraction sentence.

For more advanced students: I've provided bear number cards with the numbers 21 - 29. Give your more advanced students these bear cards and the lion cards.

For students in need of more support: I've provided bear cards with the numbers 1 - 10 and lion cards with the numbers 11 - 20. This will allow them to practice subtracting.

Evaluation: Students will solve the

Extension Activities: Math Journaling Activity (on pp. 12 - 17)

Students will solve a subtraction problem, write a story that matches the subtraction problem, and finally draw a picture to match the story and the subtraction problem.

On grade level Math Journaling Activity is on pp. 12 - 13

Below grade level Math Journaling Activity is on pp. 14 - 15

Above grade level Math Journaling Activity is on pp. 16 - 17

Use as homework, for early finishers, or for independent work.

Differentiated

Possible question

1. What are you subtracting?
2. What is the difference?
3. Can I sit down?
4. Can you help me?
