Successful Motherhood Murugan Santhanam, Sri Kalyani, 2015-01-07 A foetus learns intensely in the womb. One's earliest experiences imprint and become the subconscious programming. Prenatal period is the time of building the foundations of a healthy body, emotions, and relationships. These established patterns are at the root of much health, relationship, emotional, psychological, and learning problems seen at all ages. This book is an enthusiastic celebration of motherhood and child upbringing. It explores the psychology of conception, pregnancy, delivery, and the postpartum period, as well as the newborn child's intellectual and emotional development. There are signposts in these pages. Readers can use them to find their way to great treasures.

Have you ever thought about having a baby? Do you want to learn more about the pregnancy process? Are you not quite sure if you are ready to bring a child into the world? If you answered yes to any of these questions, then you are going to want to keep reading. Many women dream of having a child. They think about how amazing it will be to watch their child grow up and become a fantastic adult. The one thing that is required though is not talked about a lot. That's the actual pregnancy. Those nine months plus period changes a woman and her body, and no two women have the exact same experience. This can be a very scary time, and then the actual labor brings about its own set of fears. Not to worry though, this book is here to help. You can worry less about getting pregnant, pregnancy, or the labor process by reading this book. Knowledge is a powerful tool for so many things in life, and having a baby is no different. Most of the fear and worry surrounding having a child stems from not knowing what to expect. While each pregnancy is different, there are some things that you can be prepared for just in case they were to happen. In this book, we will cover those things and more. You will learn how to know if you are ready to have a baby. The first signs of pregnancy. What types of things you are going to need for your baby. What to expect during your first, second, and third trimester. How to get emotionally ready for your baby. Different options for labor. What to expect if you are having multiple babies. How to be prepared for your baby's first day at home. The importance of breastfeeding. How to know if your baby is feeding enough. Health concerns that might appear in your newborn. Health concerns that mom needs to keep an eye out for. Ten essential points about pregnancy that all potential moms need to know. And much more. Once you read this book, you will know just about everything you can learn about being pregnant. You might not be able to prepare for everything, but you won't be able to say that you don't know anything about being pregnant. Having a baby is a big step in anybody's life, and it should not be taken lightly. It is not something you should rush into, and it is better to be prepared before you get pregnant than be surprised by the pregnancy. Get rid of a lot of the anxiety that you may have concerning pregnancy by learning more about it. If you really would like to have a child or at least learn more about the process, getting this book will help you with that. While you will come to realize that there may never be a perfect time, you will realize that you sometimes have to make the time right. Don't wait any longer. Scroll up and click the buy now button.
