

Program SLOs

- June Miyasaki developed the SLOs and assessment measures for four of our A.A. degree programs: French, German, Italian, and Spanish.
 - “Demonstrate effective skills in the four major areas of language study: reading, writing, speaking, listening comprehension.” (This first SLO is a constant.)
 - “Demonstrate knowledge of the global society, and the role of France and francophone nations and of the French language and culture in the contemporary world.”
(This second SLO has minor changes for each degree program. For example, for the A.A. in Spanish, the SLO reads: “Demonstrate knowledge of the global society, and the role of Spanish-speaking nations and of the Spanish language and Hispanic cultures in the contemporary world.”)
- The template for these A.A. program SLOs was modified to develop the last set of SLOs for the A.A. degree in Foreign Languages.

Neuropsychiatric Care for Genetic Syndromes and Other Neurodevelopmental Disorders Robyn P. Thom, Christopher J. McDougle, 2025-01-29 Children and adults with developmental disabilities are at increased risk for experiencing behavioral problems and psychiatric comorbidities compared to the general population and several neurodevelopmental disorders are associated with certain neuropsychiatric conditions Because of language and cognitive differences the clinical presentation of these conditions can differ from what is seen in the general population Furthermore research on treatment approaches for psychiatric comorbidities in these populations is extremely limited and evidence based treatment guidelines do not exist This book is a collection of neurodevelopmental disorders that are frequently associated with relatively distinct and common psychiatric co morbidities across the lifespan Each chapter addresses a different neurodevelopmental disorder by providing an overview symptoms of common psychiatric co morbidities assessment strategies psychosocial and biological treatments and common medical co morbidities the clinician needs to have basic knowledge of with regards to choosing safe and appropriate pharmacotherapy Given how relatively rare many of these syndromes are the practicing clinician generally does not encounter a sufficient number of cases during training or clinical practice to develop comfort and expertise in each of them Furthermore there are no easy to access evidence based treatment guidelines This succinct and practical resource fills a needed gap for an overview of the most common neurodevelopmental disorders in a single resource with a clinical expert s approach to diagnosis and management

Getting Teacher Evaluation Right Linda Darling-Hammond, 2015-04-28 Teacher evaluation systems are being overhauled by states and districts across the United States And while intentions are admirable the result for many new systems is that good often excellent teachers are lost in the process In the end students are the losers In her new book Linda Darling Hammond makes a compelling case for a research based approach to teacher evaluation that supports collaborative models of teacher planning and learning She outlines the most current research informing evaluation of teaching practice that incorporates evidence of what teachers do and what their students learn In addition she examines the harmful consequences of using any single student test as a basis for evaluating individual teachers

Finally Darling Hammond offers a vision of teacher evaluation as part of a teaching and learning system that supports continuous improvement both for individual teachers and for the profession as a whole *Language Development: Syntax and semantics* Stan A.
