Women in Health Management Robert McMurray,Éidín Ní Shé,2025-09-23 Writings on health and health management have long been concerned with the great figures that have preserved protected or extended life From Hippocrates and Galen to Vesalius Lister Mengele Pasteur Jenner and Fleming these writings have celebrated individuals whose knowledge and practice has treated our ills and sought to better manage our care For the most part this has been a history of great men sic There are honourable mentions for a small number of women such as Elizabeth Blackwell or Florence Nightingale but by and large one would be forgiven for assuming that the management of health has nearly always been the preserve of men The contribution of women is largely absent written out This book contributes to the process of writing women back into our shared history and understanding of health and its management Its chapters detail how women have been the main healers for communities across the globe for over four millennia It considers the manner in which wise women who used their knowledge of herbs ritual and healing were excluded from emerging medical professions while their good works were written over and written out of local histories through their marginalisation and repositioning More positively it brings to our attention inspiring women who have shaped the ways in which we develop and deliver health in its broadest sense Drawing on the work of women from Kenya Nigeria Hawaii T rkiye USA Ireland and the UK and from disciplines that span medicine social work mental health health promotion occupational therapy midwifery pharmacology and traditional healing the women considered in this volume advance our understanding of alternative ways of developing delivering and managing health This

includes organising services for areas of neglected health e.g. women's health, health prevention, rural populations, tackling contentious health issues e.g. female genital mutilation, management of mental disorders and the care of health providers themselves e.g. providing space for women to practice, managing the mental well-being of healthcare workers. This book also shows how the work of these women went beyond health management to influence political and societal change. **Journey Girl** Susan Heffron Hajec, 2020-09-15. *Journey Girl* is a story about motherhood and a memoir about secrets; more specifically, it is about breaking them. First-time author Hajec unfolds her journey of becoming a courageous family secret breaker and defeats her fears that she will pay a price to do so. Her quest is to disintegrate the generational silences that surround the death of her mother shortly after her own birth and explore the mysterious childhood memories that still linger as she reaches adulthood. As the author unwinds a tightly held but harmful family silence, she also introduces to the reader simple, ordinary, and helpful types of silences they can use in their everyday life to bring them peace and balance, not harm and mystery. These are the Islands of Silence that begin each chapter before continuing her own story. **Georgia State University Law Review**, 1995. *The Law and Society Reader II* Erik Larson, Patrick Schmidt, 2016-04-22. A cornucopia of knowledge and insight on the biggest questions in the sociolegal tradition, an invaluable resource for researchers and teachers. Michael McCann Gordon Hirabayashi Professor for the Advancement of Citizenship, University of Washington Law and Society scholars challenge the common belief that law is simply a neutral tool by which society sets standards and resolves disputes. Decades of research shows how much the nature of communities, organizations, and the people inhabiting them affect how law works. Just as much, law shapes beliefs, behaviors, and wider social structures, but the connections are much more nuanced and surprising than many expect. *Law and Society Reader II* provides an accessible overview to the breadth of recent developments in this research tradition, bringing to life this dynamic field. In this second volume, editors Erik W. Larson and Patrick D. Schmidt have compiled excerpts of 43 illuminating articles published since 1993 in *The Law Society Review*, the flagship journal of the Law and Society Association. By its organization and approach, this volume enables readers to join in discussing the key ideas of law and society research. The selections highlight the core insights and developments in this research tradition, making these works indispensable for those exploring the field and ideal for classroom use. Across six concisely introduced sections, it analyzes inequality, lawyering, the relation between law and organizations, and the place of law in relation to other social institutions. *Stop Eating Your Heart Out* Meryl Hershey Beck, 2012-04-01. What to do when food is NOT your best friend. According to a recent *Self* Magazine, 65% of all women have an unhealthy relationship with food. Often they use food to numb feelings and become binge eaters or overeaters. Food becomes their primary means for coping with everyday stress, anxiety, and other difficult feelings. Drawing on her experience of working with compulsive overeaters and binge eaters for over twenty years, Meryl Beck has developed a revolutionary approach for rewiring your brain that incorporates spiritual, physical, and emotional tools for getting healthy. This 21-day plan

brings together tools from psychotherapy the 12 Steps personal growth work and energy healing *Stop Eating Your Heart Out* offers a way to rewire the brain to respond differently to the impulses and feelings that create bingeing Beck a therapist and former binge takes an approach to recovery from emotional eating that incorporates spiritual emotional and energy work
