Kadia, 2019-11-26 In the 1930s a cohort of professional human scientists coalesced around a common and particular understanding of objectivity as the foundation of legitimate knowledge and of fieldwork as the pathway to objectivity *Into the Field* is the first collective biography of this cohort evocatively described by one contemporary as the men of one age At the height of imperialism the men of one age undertook field research in territories under Japanese rule in pursuit of objective information that would justify the subjugation of local peoples After 1945 amid the defeat and dismantling of Japanese sovereignty and under the occupation and tutelage of the United States they returned to the field to create narratives of human difference that supported the new national values of democracy capitalism and peace The 1968 student movement challenged these values resulting in an all encompassing attack on objectivity itself Nonetheless the legacy of the men of one age lives on in the disciplines they developed and the beliefs they established about human diversity **The Literary**

Digest, 1919 **Fulbright Labyrinths** Virginia Hall-Milhouse, 2011-11-28 In this provocative work Virginia Milhouse demonstrates how autoethnography combines creative and analytical practices to help bring to consciousness some complex social and political agendas hidden in narratorial writings It demonstrates how an arts based qualitative research method narrative inquiry can be fused with a scientific based quantitative method DMIS IDI and compliment support and or correct each other It also demonstrates how writing as a method of inquiry can be a viable way for researchers to learn about themselves and their research as well as features standards for evaluating creatively and analytically constructed text Further the author's examination of the aesthetics of inner readiness and in betweenness will be very helpful to people doing this kind of self reflexive fieldwork The reader will also appreciate this author's recognition of the importance of combining qualitative and quantitative methodologies something not many writers can do with great success Also this book will be a real contribution to sojourners and others traveling or living abroad The work is very smart and is beautifully and clearly written The labyrinth quote at the beginning of her work is very fitting and certainly promises to illustrate those words
