The Victorian House Domestic Life From Childbirth To Deathbed:

The Victorian House Judith Flanders, 2003 A middle class home circa 1850 of the sort that many people live in today is the focus of Judith Flanders book The Victorian age is both recent and unimaginably distant In the most prosperous and technologically advanced nation in the world people carried slops up and down stairs buried meat in fresh earth to prevent mould forming wrung sheets out in boiling water with their bare hands This drudgery was routinely performed by the parents of people still living but the knowledge of it has passed as if it had never been Running water stoves flush lavatories even lavatory paper arrived slowly throughout the century and most were luxuries available only to the prosperous **The**

Making of Home Judith Flanders, 2014-10-01 The idea that home is a special place a separate place a place where we can be our true selves is so obvious to us today that we barely pause to think about it But as Judith Flanders shows in this revealing book home is a relatively new concept When in 1900 Dorothy assured the citizens of Oz that There is no place like home she was expressing a view that was a culmination of 300 years of economic physical and emotional change In The Making of Home Flanders traces the evolution of the house across northern Europe and America from the 16th to the early 20th century and paints a striking picture of how the homes we know today differ from homes through history The transformation of houses into homes she argues was not a private matter but an essential ingredient in the rise of capitalism and the birth of the Industrial Revolution Without home the modern world as we know it would not exist and as Flanders charts the development of ordinary household objects from cutlery chairs and curtains to fitted kitchens plumbing and windows she also peels back the myths that surround some of our most basic assumptions including our entire notion of what it is that makes a family As full of fascinating detail as her previous bestsellers The Making of Home is also a book teeming with original and provocative ideas *The Housekeeper's Tale* Tessa Boase, 2014-05-19 Working as a housekeeper was one

of the most prestigious jobs a nineteenth and early twentieth century woman could want and also one of the toughest A far cry from the Downton Abbey fiction the real life Mrs Hughes was up against capricious mistresses low pay no job security and gruelling physical labour Until now her story has never been told The Housekeeper's Tale reveals the personal sacrifices bitter disputes and driving ambition that shaped these women's careers Delving into secret diaries unpublished letters and the neglected service archives of our stately homes Tessa Boase tells the extraordinary stories of five working women who ran some of Britain's most prominent households There is Dorothy Doar Regency housekeeper for the obscenely wealthy 1st Duke and Duchess of Sutherland at Trentham Hall Staffordshire There is Sarah Wells a deaf and elderly Victorian in charge of Uppark West Sussex Ellen Penketh is Edwardian cook housekeeper at the sociable but impecunious Erddig Hall in the Welsh borders Hannah Mackenzie runs Wrest Park in Bedfordshire Britain's first country house war hospital bankrolled by playwright J M Barrie And there is Grace Higgins cook housekeeper to the Bloomsbury set at Charleston farmhouse in East Sussex for half a century an era defined by the Second World War Revelatory gripping and unexpectedly poignant The

Housekeeper's Tale champions the invisible women who ran the English country house

American Nursing Patricia D'Antonio, 2010-07-11 First Place History and Public Policy 2010 American Journal of Nursing Book of the Year Awards This new interpretation of the history of nursing in the United States captures the many ways women reframed the most traditional of all gender expectations that of caring for the sick to create new possibilities for themselves to renegotiate the terms of some of their life experiences and to reshape their own sense of worth and power For much of modern U S history nursing was informal often uncompensated and almost wholly the province of female family and community members This began to change at the end of the nineteenth century when the prospect of formal training opened for women doors that had been previously closed Nurses became respected professionals and becoming a formally trained nurse granted women a range of new social choices and opportunities that eventually translated into economic mobility and stability Patricia D Antonio looks closely at this history using a new analytic framework and a rich trove of archival sources and finds complex multiple meanings in the individual choices of women who elected a nursing career New relationships and social and professional options empowered nurses in constructing consequential lives supporting their families and participating both in their communities and in the health care system Narrating the experiences of nurses D Antonio captures the possibilities power and problems inherent in the different ways women defined their work and lived their lives Scholars in the history of medicine nursing and public policy those interested in the intersections of identity work gender education and race and nurses will find this a provocative book

The Romance of the Lyric in Nineteenth-Century Women's Poetry Lee Christine O'Brien, 2012-10-05 The Romance of the Lyric in Nineteenth Century Women s Poetry Experiments in Form offers a new account of the nature of the lyric as nineteenth century women poets developed the form It offers fresh assessments of the imaginative and aesthetic complexity of women s poetry The monograph seeks to redefine the range and cultural significance of women s writing using the work of poets who have not heretofore been part of critical accounts of nineteenth century lyric poetry These new voices are set beside new readings of the poetry of established figures for example Christina Rossetti s Goblin Market and Augusta Webster s Medea in Athens and Circe The monograph draws substantially on the poetry of Rosamund Marriott Watson who was lost to literary history before the restoration of her oeuvre through the scholarly and critical work of Professor Linda K Hughes to make the case that once neglected and lost voices provide new ways of determining the cultural centrality of women and the poetry they produced in one of the richest periods of poetic experimentation in the Western literary tradition This monograph contends that Watson s poetry and prose provide new ways of analyzing the complex and frequently transgressive nature of the lyric engagement of women with folklore and myth and with the growing understanding in the nineteenth century of the fragmented fluid self in general and of the writer in particular

Workplace Flexibility Kathleen Christensen, Barbara Schneider, 2011-03-15 Although today s family has changed the workplace has not and the resulting one size fits all workplace has become profoundly mismatched to the needs of an increasingly diverse and varied workforce As changes in the composition of the workforce exert new demands on employers considerable attention is being paid to how workplaces can be structured more flexibly to achieve the goals of employers and employees Workplace Flexibility brings together sixteen essays authored by leading experts in economics demography political science law sociology anthropology and management Collectively they make the case for workplace flexibility as well as examine existing business practices and public policy regarding flexibility in the United States Europe Australia and Japan Workplace Flexibility underscores the need to realign the structure of work in time and place with the needs of the changing workforce Considering the positive and negative consequences for employer and employee alike the authors argue that although there is not an easy solution to creating and implementing flexibility practices in the United States or abroad redesigning the workplace is essential if today

s workers are effectively to meet the demands of life and work and if employers are successfully able to attract and retain top talent and improve performance

British Children's Literature and Material Culture Jane Suzanne Carroll, 2021-10-21 The golden age of children's literature in the late 19th and early 20th century coincided with a boom in the production and trade of commodities. The first book-length study to situate children's literature within the consumer culture of this period, *British Children's Literature and Material Culture* explores the intersection of children's books, consumerism, and the representation of commodities within British children's literature. In tracing the role of objects in key texts from the turn of the century, Jane Suzanne Carroll uncovers the connections between these fictional objects and the real objects that child consumers bought, used, cherished, broke, and threw away. Beginning with the Great Exhibition of 1851, this book takes stock of the changing attitudes towards consumer culture, a movement from celebration to suspicion, to demonstrate that children's literature was a key consumer product, one that influenced young people's views of and relationships with other kinds of commodities. Drawing on a wide spectrum of well-known and less familiar texts from Britain, this book examines works from Lewis Carroll's *Through the Looking Glass* and *What Alice Found There* and E. Nesbit's *Five Children It to Christina*, Rossetti's *Speaking Likenesses*, and Mary Louisa Molesworth's *The Cuckoo Clock*. Placing children's fiction alongside historical documents, shop catalogues, lost property records, and advertisements, Carroll provides fresh critical insight into children's relationships with material culture and reveals that even the most fantastic texts had roots in the ordinary, everyday things.

Queering the Interior Andrew Gorman-Murray, Matt Cook, 2020-06-11 *Queering the Interior* problematizes the familiar space of home. It deploys a queer lens to view domestic interiors and conventions and uncovers some of the complexities of homemaking for queer people. Each of the book's six sections focuses on a different room or space inside the home. The journey starts with entryways and continues through kitchens, living spaces, bedrooms, bathrooms, and finally closets and studies. In each case, up to three specialists bring their disciplinary expertise and queer perspectives to bear. The result is a fascinating collection of essays by scholars from literary studies, geography, sociology, anthropology, history, and art history. The contributors use historical and sociological case studies, spatial art, and literary analyses, interviews, and experimental visual approaches to deliver fresh, detailed, and grounded perspectives on the home and its queer dimensions. A highly creative approach to the analysis of domestic spaces, *Queering the Interior* makes an important contribution to the fields of gender studies, social and cultural history, cultural studies, design, architecture, anthropology, sociology, and cultural geography.

The Significance of Fabrics in the Writings of Elizabeth Gaskell Amanda Ford, 2022-12-30 Elizabeth Gaskell's writings abound in references to a cultural materiality encompassing different types of fabric: stuffs, calicoes, chintzes, and fine point lace. These are not merely the motifs of the Realist genre but reveal a complex polysemy.
