The Wandering Who A Study Of Jewish Identity Politics:

The Wandering Who Gilad Atzmon, 2011-09-30 An investigation of Jewish identity politics and Jewish contemporary ideology using both popular culture and scholarly texts Jewish identity is tied up with some of the most difficult and contentious issues of today The purpose in this book is to open many of these issues up for discussion Since Israel defines itself openly as the Jewish State we should ask what the notions of Judaism Jewishness Jewish culture and Jewish ideology stand for Gilad examines the tribal aspects embedded in Jewish secular discourse both Zionist and anti Zionist the holocaust religion the meaning of history and time within the Jewish political discourse the anti Gentile ideologies entangled within different forms of secular Jewish political discourse and even within the Jewish left He questions what it is that leads Diaspora Jews to identify themselves with Israel and affiliate with its politics The devastating state of our world affairs raises an immediate demand for a conceptual shift in our intellectual and philosophical attitude towards politics identity politics and history

Starry Speculative Corpse Eugene Thacker, 2015-04-24 Could it be that the more we know about the world the less we understand it Could it be that while everything has been explained nothing has meaning Extending the ideas presented in his book *In The Dust of This Planet* Eugene Thacker explores these and other issues in *Starry Speculative Corpse* But instead of using philosophy to define or to explain the horror genre Thacker reads works of philosophy as if they were horror stories themselves revealing a rift between human beings and the unhuman world of which they are part Along the way we see philosophers grappling with demons struggling with doubt and wrestling with an indifferent cosmos At the center of it all is the philosophical drama of the human being confronting its own limits Not a philosophy of horror but a horror of philosophy Thought that stumbles over itself as if at the edge of an abyss *Starry Speculative Corpse* is the second volume of the *Horror of Philosophy* trilogy together with the first volume *In The Dust of This Planet* and the third volume *Tentacles Longer Than Night*

Can Architecture Be an Emancipatory Project? Nadir Z. Lahiji, 2016-03-25 Can architectural discourse rethink itself in terms of a radical emancipatory project And if so what would be the contours of such a discourse

Colloquium Thomas Gardner, Salomé Voegelin, 2016-09-30 In 2012 Thomas Gardner and Salomé Voegelin hosted a colloquium entitled *Music Sound Art Historical Continuum and Mimetic Fissures* at the London College of Communication University of the Arts London This colloquium dealt with the current fervent debate concerning the relationship between sound art and music This book proposes the opening of the colloquium to a wider readership through the publication of a decisive range of the material that defined the event

Ignoble Displacement Stephanie Polsky, 2015-09-25 We live in a time of great social political and economic crisis that many date to the collapse of the global banking system in 2008 Many are finding it difficult to contextualise the hardships that have taken place in the years following on from those events It is difficult to find the answers in our present media landscape or in a political and intellectual climate that continues to laud capitalism as the winning economic system coming out of both World War II and

the end of the Cold War which has become over the last century synonymous with democracy itself The irony is that in our times the majority of the world s people feel disenfranchised by both capitalism and democracy How did we come to this historical juncture What can we learn not just from history but from our cultural artefacts that might tell us how we first came to conduct ourselves within a system of global finance capitalism This volume proposes that we reinterpret the writings of Charles Dickens to find the antecedents of our present situation with regards to capital empire and subjectivity **How to Dismantle the NHS in 10 Easy Steps** Youssef El-Gingihy,2015-07-31 Dr Youssef El Gingihy a GP tells the story of how the NHS has been gradually converted into a market based healthcare system over the past 25 years This process is accelerating under the Coalition government and the very existence of a National Health Service is in danger He fears that there will not be an NHS as our generation grows old and certainly not for our children Yet the British public remains largely unawares of this and the media with few exceptions have failed in their duty to inform them The NHS is being broken up into an universal insurance system based on the American model This book matters to all who use the NHS or are concerned by the privatisation of public services and the dismantling of equitable healthcare and welfare If you want to understand the real story behind the headlines and find out how you can preserve the NHS for the future then this book is essential reading

Heavy Radicals - The FBI's Secret War on America's Maoists Aaron J. Leonard,Conor A. Gallagher,2015-02-27 NEW EDITION OUT OCTOBER 28TH 2022 Heavy Radicals The FBI s Secret War on America s Maoists is a history of the Revolutionary Union Revolutionary Communist Party the largest Maoist organization to arise in the US from its origins in the explosive year of 1968 its expansion into a national organization in the early seventies its extension into major industry throughout early part of that decade the devastating schism in the aftermath of the death of Mao Tse tung and its ultimate decline as the 1970s turned into the 1980s From its beginnings the grouping was the focus of J Edgar Hoover and other top FBI officials for an unrelenting array of operations Informant penetration setting organizations against each other setting up phony communist collectives for infiltration and disruption planting of phone taps and microphones in apartments break ins to steal membership lists the use of FBI friendly journalists such as Victor Riesel and Ed Montgomery to undermine the group and much more It is the story of a sizable section of the radicalized youth of whose radicalism did not disappear at the end of the sixties and of the FBI s largest and up to now untold campaign against it *Tentacles Longer Than Night* Eugene Thacker,2015-04-24 Our contemporary horror stories are written in a world where there seems little faith lost hope and no salvation All that remains is the fragmentary and occasionally lyrical testimony of the human being struggling to confront its lack of reason for being in the vast cosmos This is the terrain of the horror genre Eugene Thacker explores this situation in *Tentacles Longer Than Night* Extending the ideas presented in his book *In The Dust of This Planet* Thacker considers the relationship between philosophy and the horror genre But instead of taking fiction as the mere illustration of ideas Thacker reads horror stories as if they themselves were works of philosophy driven by a speculative urge to question human

knowledge and the human centric view of the world ultimately leading to the limit of the human thought undermining itself in thought Tentacles Longer Than Night is the third volume of the Horror of Philosophy trilogy together with the first volume In The Dust of This Planet and the second volume Starry Speculative Corpse **Airplane Reading** Christopher

Imperialism M. G. E. Kelly, 2015-07-31 Biopolitical Imperialism is a book about international politics today The core eponymous thesis is that our world is marked by a pattern of biopolitical parasitism that is the enhancement of the life of wealthy populations of First World countries on the basis of an active denigration of the lives of the poor mass of humanity The book details how this dynamic plays out both inside wealthy countries and internationally **Slave States** Yasin

published arts and culture journalist Jordannah Elizabeth The book includes reviews essays and interviews hand selected by Jordannah from a catalog of over 200 articles **Austerity Ecology & the Collapse-Porn Addicts** Leigh

Phillips, 2015-10-30 Economic growth progress industry and erm stuff have all come in for a sharp kicking from the green left and beyond in recent years Everyone from black hoodied Starbucks window smashers to farmers market heirloom tomato mongers to Prince Charles himself seem to be embracing degrowth and anti consumerism which is nothing less than a form of ecological austerity Meanwhile the back to the land ideology and aesthetic of locally woven organic carrot pants pathogen encrusted compost toilets and civilisational collapse is hegemonic Yet modernity is not the cause of climate change and the wider biocrisis It is indeed capitalism that is the source of our environmental woes but capitalism as a mode of production not the fuzzy understanding of capitalism of Naomi Klein Bill McKibben Derrick Jensen Paul Kingsnorth and their anarcho liberal epigones as a sort of globalist corporate malfeasance In combative and puckish style science journalist Leigh Phillips

marshals evidence from climate science ecology paleoanthropology agronomy microbiology psychology history the philosophy of mathematics and heterodox economics to argue that progressives must rediscover their historic Promethean ambitions and counter this reactionary neo Malthusian ideology that not only retards human flourishing but won't save the planet anyway We want to take over the machine and run it rationally not turn the machine off **Drone and Apocalypse** Joanna Demers,2015-12-11 Drone and Apocalypse is an exhibit catalog for a retrospective of twenty first century art Its narrator Cynthia Wey is a failed artist convinced that apocalypse is imminent She writes critical essays delineating apocalyptic tendencies in drone music and contemporary art Interspersed amid these essays are speculative artworks Wey's term for descriptions of artworks she never constructs that center around the extinction of humanity Wey's favorite musicians are drone artists like William Basinski Celer Thomas Kner Les Rallizes Douds and Liane Radigue and her essays relate their works to moments of ineffability in Herodotus Aristotle Plato Pliny the Elder Isidore of Seville Robert Burton Hegel and Dostoyevsky Well after Wey's demise the apocalypse never arrives but Wey's journal is discovered Curators fascinated with twenty first century culture use her writings as the basis for their exhibit Commentaries on the Apocalypse which realizes Wey's speculative artworks as photographs collages and sound video installations *Defiance* Roger Silverman,2016-09-30 This socialist history of modern Greece tells the story of its rebirth in struggle the heroic resistance to Nazi occupation the civil war and its aftermath the colonels dictatorship and its overthrow the rise and fall of PASOK the debt crisis the popular uprising of 2010-12 the election of SYRIZA the referendum and the subsequent capitulation What lessons can Greece's experience teach those campaigning against austerity throughout Europe This book includes an Appendix by Eric Toussaint Reading the Way of Things Daniel Coffeen,2016-08-26 A Deleuzian guide to reading the world Reading the Way of Things is an exploration of the ideas of McLuhan Deleuze Guattari Merleau Ponty Foucault Burroughs and more It is a book that aims at getting the reader past teleological interpretations and questions letting the reader in on new ways of doing criticism as well as new ways of going being and thinking Why Young People Don't Vote Mitchell Agg,2016-11-07 Why don't young people vote It's a question that has been asked by pollsters for years The 18 to 24 year old demographic records the lowest voter turnout at elections and it doesn't look to be showing signs of stopping Being one of this demographic Mitchell Agg looks into this question and tries to shed light on why his peers don't enter polling stations on election day Through four main reasons Mitchell helps us answer this question as well as giving some solutions Positive Realism Maurizio Ferraris,2015-12-11 Positive Realism could be seen as the sequel to Maurizio Ferraris Manifesto of New Realism and Introduction to New Realism The focus here is the other side of unamendability a notion described in his previous books according to which reality is unamendable it cannot be corrected at will This resistance of the real is what ultimately tells us that in opposition to the claims of post Kantian philosophy the world is not a result of our conceptual work if it were so our power over reality would be much greater Now the often disappointing limits that the real sets against our

expectations are also a resource and this is the key point of the present book Things exist and therefore undoubtedly resist us but in doing so they offer affordances resources opportunities And that the greatest opportunity which underlies all the other ones is the fact that we share a world that is far from liquid on the contrary it provides the solid ground on which everything rests starting from our happiness or unhappiness

Shooting the Moon Brian Willems, 2015-05-29 Films about the moon show that even after the lunar landing of 1969 our celestial neighbor has lost none of its aptitude for being made of green cheese In fact as soon as you put the moon on screen it is lost This is equally true for a wide range of moon films including the theatricality of M li s the incredulity of camp the illegibility of footage shot by Apollo astronauts and the revisionary history of Transformers 3 Yet as paradoxical as it might seem at first it is only when we lose sight of the moon that lunar truths begin to come forth This is because fantastic elements of the moon by their mere absurdity can indicate non fantastic elements However what is of interest here is not realistic or fantastic lunar truths but rather that the moon is an object which invites or even demands more than one truth at once

Land of Hunger Wayne Holloway, 2015-09-25 Land of Hunger is a collection of short stories that interconnect loop and return upon each other despite their seemingly disparate subject matter Fragments that resonate across time and place from the Ukraine during the Russian Civil War to the miners strike to the world of animal rights protestors The stories are all about the collection of fictions that make up a writer A fantasy of who the author is where he comes from the story of a fragile shifting identity built on facts yet obscuring them In doing this Wayne Holloway embodies our deep hunger for the stories of who and why we are
