Art, Culture, and Media Under the Third Reich Richard A. Etlin, 2002-10-15 This work explores the ways in which Nazi Germany used art and media to portray their country as a champion of Kultur and civilization Revealing how multiple domains of cultural activity served to conceptually de humanize Jews this work shows how the seeds of the Holocaust were sown

Literature and Film in the Third Reich Karl-Heinz Schoeps, 2004 This book is the first survey in English of literature and film in Nazi Germany It treats not only works sympathetic to National Socialism but also works of the so called Inner Emigration of the resistance and those written in prisons and concentration camps Much of this literature is not easily accessible in German and not available at all in English translation Historical and ideological context is provided in chapters covering influential works of the time such as Alfred Rosenberg s *The Myth of the Twentieth Century* and Houston Stewart Chamberlain s *The Foundations of the Nineteenth Century* Schoeps also analyzes Nazi cultural policies fascist histories of literature and the role of German studies and Germanists in the Nazi movement A major section of the book is devoted to film then a relatively new medium of communication whose propaganda value was clearly recognized by Goebbels the minister for propaganda and president of the Reich s Chamber of Culture One of the most interesting areas of research in recent years is the relationship between Hitler s cultural commissars in particular Goebbels and the literature and film production of the Nazi years This book is based on the revised and expanded second German edition *Literatur im Dritten Reich 1933 1945* but has again been revised and expanded especially the chapter on film and Nazi policies toward the film industry The chapter on cultural policies has also been expanded to include Himmler s efforts to meddle in this area New also are sections dealing with Jewish entertainers in concentration camps for example Kurt Gerron and activities of the Jewish Cultural League Karl Heinz Schoeps is professor of German at the University of Illinois at Urbana Champaign

Evans,2005-01-25 The definitive account of Hitler s rise to power and the collapse of civilization in Nazi Germany from the author of The Third Reich in Power The Third Reich at War and Hitler s People The clearest and most gripping account I ve read of German life before and during the rise of the Nazis A S Byatt Times Literary Supplement Impressive in its command of an immense literature perceptive in analysis fluent in style and humane in judgment this work could only have been produced by a master historian Sir Ian Kershaw Brilliant Richard Cohen The Washington Post There is no story in twentieth century history more important to understand than Hitler s rise to power and the collapse of civilization in Nazi Germany With The Coming of the Third Reich Richard J Evans one of the world s most distinguished historians has written the definitive account for our time A masterful synthesis of a vast body of scholarly work integrated with important new research and interpretations Evans s history restores drama and contingency to the rise to power of Hitler and the Nazis even as it shows how ready Germany was by the early 1930s for such a takeover to occur The Coming of the Third Reich is a masterwork of the historian s art and the book by which all others on the subject will be judged *World War II: The Last War Heroes* Stephen Bull,2011-11-11 The companion volume to the groundbreaking TV series this book tells the story of the physical emotional and psychological journey of Allied soldiers from the beaches of Normandy to the ruins of Berlin In their own words these brave men from Britain the United States Canada and Russia tell us what it was like to face the bullets bombs mortars mines and artillery shells of Nazi Germany Interviews with over 80 soldiers who fought in the conflict totalling 150 hours provide a new perspective on the experiences of 1944 45 Building on the high speed multi camera filming of World War II weapons and munitions shown in the TV series this book brings the terrifying reality of the war to life Technical descriptions and the experiences of the men in the field explain the dramatic power and effect that this weaponry had on the battlefield from the sinister simplicity of the deadly AP mine through to the immense firepower of the 88mm gun giving the modern historian a unique insight into the last days of the war for the troops on the frontline This is not a history of generals of armies manoeuvring and strategic objectives World War II The Last War Heroes is a book about the ordinary men put into incredible situations deprived of sleep and food and in constant fear of death on the long road to victory

The Nazis in the Balkans Dietrich Orlow, 2010-11-23 The Sudosteuropa Gesellschaft Southeast Europe Society or SOEG was founded in 1940 to formulate wartime policy in Southeast Europe its organizational life began and ended with the Third Reich In his analysis of the creation growth and death of the SOEG Dietrich Orlow focuses on the institutional behavior and power struggles of this microcosm of the Nazi system Its story is illustrative of the nature of politics in all totalitarian societies and reveals the aims and the failure of Germany's wartime exploitation of the Balkan resources and the long term economic designs for the Balkans after the Third Reich's expected victory [The Third Reich's Intelligence Services](#) Katrin Paehler, 2017-03-24 This is the first ever analytical study of Nazi Germany's political foreign intelligence service Office VI of the Reichssicherheitshauptamt and its head Walter Schellenberg Katrin Paehler tells the story of Schellenberg's career in policing and intelligence charts the development and activities of the service he eventually headed and discusses his attempts to place it at the center of Nazi foreign intelligence and foreign policy The book locates the service in its proper pedigree of the SS as well as in relation to its two main rivals the Abwehr and the Auswärtiges Amt It also considers the role Nazi ideology played in the conceptualization and execution of foreign intelligence revealing how this ideological prism fractured and distorted Office VI's view of the world The book is based on contemporary and postwar documents many recently declassified from archives in the United States Germany and Russia **The Third Reich on Screen, 1929-2015** Bob Herzberg, 2016-11-23 For more than 80 years images of the Third Reich have appeared in newsreels documentaries and fictional stories from comedies and musicals to war horror and science fiction films Many of these representations say as much about the filmmakers as they do about Nazism itself Hollywood often used the brutal Nazi as an all purpose villain in escapist adventures set during and after the war but just as often used him to attack the evil he symbolized Drawing on studio files correspondence of the Production Code office and the writings of noted historians and critics this book describes the making of many such films produced in Hollywood Nazi Germany the Soviet Union and Eastern Bloc nations Biographies of several military and political figures who served as the basis for Nazi characters compare the cinematic and real life versions [Hitler as Political Artist](#) Peter G. Clark, 2022-10-06 What Hitler was able to do to a crowd in 2 1 2 hours will never be repeated in 10 000 years Ernst Hanfstaengl Hitler's early confidant Hitler was one of the first great rock stars He was no politician he was a great media artist How he worked his audience The world will never see anything like that again He made an entire country a stage show David Bowie British rock legend As a young man in Vienna Adolf Hitler was sleeping on park benches in 1909 just a real Nowhere Man making all his Nowhere Plans and who would soon haunt homeless shelters while trying to hawk his unimaginative and banal paintings Yet in 1933 this mommy's boy and self centered dilettante was appointed Chancellor of Germany after discovering his artistic political calling as a charismatic orator and stage actor in the 1920s and then dazzled Germans and foreigners alike with the color and pageantry of the Nuremberg rallies and other grand spectacles in the 1930s As a virtuoso in the art of presenting dramatic performances Hitler inspired

the same type of emotional ecstasy that the Beatles the Rolling Stones and Elvis Presley aroused from their frenzied fans Even after clearly revealing the monstrous side of his murderous character in World War II by exterminating Jews and Slavs by the millions before committing suicide on April 30 1945 he still emerged from the ashes and rubble of the Third Reich to seduce later generations To the present generation he has morphed from a murderous villain into a comical figure on many Internet platforms particularly the hundreds of humorous YouTube parodies of his fanatical ranting and raving This book examines Hitler s extraordinary political artistic talents to explain his nearly unfathomable rise from a homeless nobody into the most influential and demonic creature on the vast stage of modern history

Animals in the Third Reich Boria Sax,2000-01-01 This is the first book to explore the paradox of the Nazi cult of animals and the obsession with the annihilation of biologically inferior people *Animals in the Third Reich* begins by contrasting Jewish Christian and polytheistic traditions relating to animals in Germany and examines the ways that the Nazi movement adopted altered challenged or exploited these traditions This discussion covers several perspectives on the treatment of animals including those of zoologists veterinarians novelists painters sculptors and the general public Adopting and exploiting such traditions the Nazis elaborated their own symbolic system of relating certain animals to supporters and antagonists of the movement Aryan wolves and horses Jewish pigs and apes

The Acoustical Unconscious Robert Ryder,2022-02-21 Is there an acoustical equivalent to Walter Benjamin s idea of the optical unconscious In the 1930s Benjamin was interested in how visual media expand our optical perception the invention of the camera allowed us to see images and details that we could not consciously perceive before This study argues that Benjamin was also concerned with how acoustical media allow us to hear otherwise that is to listen to sound structures previously lost to the naked ear Crucially they help sensitize us to the discursive sonority of words which Benjamin was already alluding to in his autobiographical work In five chapters that range in scope from Tieck s *Blonde Eckbert* which Benjamin once called his

locus classicus of his theory of forgetting to Alexander Kluge's films and short texts where he develops what he calls sound perspectives this monograph discusses how the acoustical unconscious enriches our understanding of different media from the written word to radio and film As the first book length study of Benjamin's linguistic cultural historical and media theoretical reflections on sound this book will be particularly relevant to students and scholars of both German studies and sound studies

Hitler's Tyranny Ralf Georg Reuth, 2022-11-28 A fresh stimulating look at Adolf Hitler and his dictatorship throughout the study of ten key aspects Hitler's tyranny is still difficult to understand today In this book Ralf Georg Reuth examines ten aspects of this catastrophe Among other things he asks Was anti-Semitism more pronounced in Germany than elsewhere Was Versailles really responsible for Hitler's rise and why did the Germans follow a racial fanatic like him How did his war differ from all others before it The disturbing answers provide an overall picture that shows Hitler was not the consequence of the depths of German history but the result of chance deception and seduction This thought provoking new study takes aim at several of the norms of Hitler scholarship from the past forty years Reuth interrogates and challenges a range of orthodox views on such topics as how mainstream politicians facilitated Hitler's rise to power the Führer's infamous pact with Stalin and the complicity of ordinary Germans in his genocidal tyranny Eschewing a conventional chronological approach in favor of a forensic analysis of Hitler's mainsprings of action both as chancellor and military commander Reuth portrays Hitler as the apotheosis of what he argues is a specifically German strain of militarism and imperialism shifting the focus firmly back to the mindset and modus operandi of Hitler himself The portrait that emerges is one of a murderous fantasist and political opportunist driven by an all embracing ideology of racial superiority Reuth's account courts controversy on a number of points and offers a fascinating counterpoint to much recent scholarship

The Statesman's Year-Book M. Epstein, 2016-12-27 The classic reference work that provides annually updated information on the countries of the world

A Past Without Shadow Zohar Shavit, 2005-02-22 *A Past Without Shadow* examines 50 years of German children's books in which the darkest horrors of the Third Reich have routinely remained hidden The horrors of the Third Reich are systematically screened and filtered allowing the darker bleaker parts of history to escape illumination Here Zohar Shavit explores 345 German books for children describing the Third Reich and the Holocaust and finds a shocking distortion of the past a recurrent narrative which suggests that the Germans themselves had no hand in the suffering inflicted on the Jews These books Shavit argues have created the false historical lesson that the real victims of Hitler's crimes were the German people themselves First published to great acclaim in Hebrew and now available in English this book is a wake up call for anyone concerned about German children's literature and its responsibility to past and future

The Dual State Ernst Fraenkel, Jens Meierhenrich, 2018-12-13 *The Dual State* first published in 1941 remains one of the most erudite books on the logic of dictatorship It was the first comprehensive analysis of the rise and nature of National Socialism and the only such analysis written from within Hitler's Germany Ernst Fraenkel's courageous ethnography of law was widely acclaimed

upon publication and it has influenced considerably postwar debates about the nature of the Third Reich But The Dual State also has relevance for the study of dictatorship in the twenty first century Fraenkel s innovative concept of the dual state with its two halves the normative state which generally respects its own laws and regulations and the prerogative state which violates them wantonly illuminates powerfully the complicated relationship between law and order in many countries around the world It speaks directly to the idea of an authoritarian rule of law This republication of Fraenkel s classic makes it once again available to scholars and students in law the social sciences and the humanities It includes Fraenkel s 1974 preface to and two appendices from the first German edition never before published in English An extensive introduction by Jens Meierhenrich places Fraenkel s ethnography of law in historical and theoretical context [The Nazis, the Vatican, and the Jews of Rome](#) Patrick J. Gallo, 2023-02-15 On October 16 1943 the Jews of Rome were targeted for arrest and deportation The Nazis the Vatican and the Jews of Rome examines why and more importantly how it could have been avoided featuring new evidence and insight into the Vatican s involvement At the time Rome was within reach of the Allies but the overwhelming force of the Wehrmacht Gestapo and SS in Rome precluded direct confrontation Moral condemnations would not have worked nor would direct confrontation by the Italians Jewish leadership or even the Vatican Gallo underscores the necessity of determining what courses of actions most likely would have spared Italian Jews from the gas chambers Examining the historical context and avoiding normative or counterfactual assertions this book draws upon archival sources ranging from diaries to intelligence intercepts in English Italian and German With antisemitism on the rise today and the last remaining witnesses passing away it is essential to understand what happened in 1943 The Nazis the Vatican and the Jews of Rome grapples with this particular awful episode within the larger horrifying story of the Holocaust Despite the inadequacy of memory we must continue to attempt to make sense of the inexplicable [Encyclopedia of Historians and Historical Writing](#) Kelly Boyd, 2019-10-09 The Encyclopedia of Historians and Historical Writing contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like Jürgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate Additionally the Encyclopedia includes some 200 essays treating the development of national regional and topical historiographies from the Ancient Near East to the history of sexuality In addition to the Western tradition it includes substantial assessments of African Asian and Latin American historians and debates on gender and subaltern studies
