James Morrow author of *The Last Witchfinder* and *Shambling Towards Hiroshima*

Lavie Tidhar's daring *Unholy Land* brilliantly showcases one of the foremost science fiction authors of our generation

Silvia Moreno Garcia *World Fantasy Award* winning editor and author of *Certain Dark*

Things Unholy Land is probably better than Michael Chabon's Yiddish Policeman's Union Bradley Horner author of the Darkside Earthier series **The Cambridge History of Twentieth-Century English Literature** Laura Marcus, Peter Nicholls, 2004 Publisher Description *The Stuart Court and Europe* Robert Malcolm Smuts, 1996-08-28 This 1996 collection of essays discusses the European dimension of society politics and culture at the Stuart court **The New Century Dictionary of the English Language** Hulbert G. Emery, Katharine G. Brewster, 1927 **The Vampire in Nineteenth Century English Literature** Carol A. Senf, 1988 Carol A Senf traces the vampire's evolution from folklore to twentieth century popular culture and explains why this creature became such an important metaphor in Victorian England This bloodsucker who had stalked the folklore of almost every culture became the property of serious artists and thinkers in Victorian England including Charlotte and Emily Bront George Eliot Charles Dickens Karl Marx and Friedrich Engels People who did not believe in the existence of vampires nonetheless saw numerous metaphoric possibilities in a creature from the past that exerted pressure on the present and was often threatening because of its sexuality **English Congregational Hymns in the Eighteenth Century** Madeleine Forrell Marshall, Janet M. Todd, 2014-07-15 Historians of the English congregational hymn focusing on its literary or theological aspects have usually found the genre out of step with the rationalist era that produced it This book takes a more balanced approach to the work of four writers and concludes that only eighteenth century Britain with its understanding of public verse common truth and the utility of poetry could have invented the English hymn as we know it The early hymns sought to inspire teach stir and entertain congregations The essential purpose shifted slightly in line with each poet's setting and in accord with the poetic thought of his day For Isaac Watts's Independents powerful traditional imagery was appropriate Charles Wesley's enthusiasm proceeded from and served the spirit of the revival John Newton's prophetic vision particularly suited the impoverished community at Olney William Cowper's masterful handling of formal conventions and his idiosyncratic personal hymns reflect his poetic rather than clerical vocation Despite such temporal variations the great poetry by each man displays themes of general Christian relevance suggesting common experience showing normative features of the genre and bearing a complex and intriguing relationship to secular literature *Common: The Development of Literary Culture in Sixteenth-Century England* Neil Rhodes, 2018-04-13 This volume explores the development of literary culture in sixteenth century England as a whole and seeks to explain the relationship between the Reformation and the literary renaissance of the Elizabethan period Its central theme is the common in its double sense of something shared and something base and it argues that making common the work of God is at the heart of the English Reformation just as making common the literature of antiquity and of early modern Europe is at the heart of the English Renaissance Its central question is why was the Renaissance in England so late That question is addressed in terms of the relationship between Humanism and Protestantism and the tensions between democracy and the imagination which persist throughout the century Part One establishes a social dimension for literary

culture in the period by exploring the associations of commonwealth and related terms It addresses the role of Greek in the period before and during the Reformation in disturbing the old binary of elite Latin and common English It also argues that the Reformation principle of making common is coupled with a hostility towards fiction which has the effect of closing down the humanist renaissance of the earlier decades Part Two presents translation as the link between Reformation and Renaissance and the final part discusses the Elizabethan literary renaissance and deals in turn with poetry short prose fiction and the drama written for the common stage

The Violent Century Lavie Tidhar, 2015-02-24 They never meant to be heroes For seventy years they guarded the British Empire Oblivion and Fogg inseparable friends bound together by a shared fate Until one night in Berlin in the aftermath of the Second World War and a secret that tore them apart But there must always be an account and the past has a habit of catching up to the present Now recalled to the Retirement Bureau from which no one can retire Fogg and Oblivion must face up to a past of terrible war and unacknowledged heroism a life of dusty corridors and secret rooms of furtive meetings and blood stained fields to answer one last impossible question What makes a hero
